

SUGAR PRODUCTION.

The commissioner of internal revenue has prepared a statement of the probable production of sugar during the current fiscal year...

The estimated amount of sugar produced: Cane sugar, 500,000,000 pounds; beet sugar, 29,210,000 pounds; sorghum, 2,500,000 pounds; maple sugar, 8,000,000 pounds; total, 539,710,000 pounds.

Since April, to May 31st, there have been imported free of duty, under the new tariff, 2,169,158 pounds of beet sugar and 732,504 pounds of cane and other kinds.

One of the most significant statements, (and one that ought to damn those who fastened the bounty scheme upon the country,) is the one that there are 4672 producers of sugar in this country to whom the government will give as a bounty the enormous sum of \$11,134,000.

A CONSCIENTIOUS (?) MAN.

The hypocrisy of some men stands out in bolder relief than the sham honesty of Wanamaker. Just read what Clarkson, one of the members of the national republican committee says about Quay the chairman of that committee:

Immediately after the election Quay stated to his colleagues of the executive committee that he desired to resign as chairman; that he did not desire to do the detail work, and still more, that a United States senator ought not to be chairman of the national committee or any political committee.

Just think of the amount of mock modesty Quay must have to be led to say that a United States senator ought not to be chairman of the national committee or any political committee.

The Oregonian says: "Wool bears lower prices this year in the United States than it bore last year." Indeed! Then how can protectionists point wool growers to the beauties of McKinleyism.

The absorptive power of peat is finding for it other uses than its old one as a cheap fuel. French surgeons use peat-powder, treated with antiseptics, as a dressing for wounds, and have obtained excellent results.

Ex-president Cleveland, it is said, has promised Governor Campbell of Ohio that he will make six speeches in the pending campaign in that state.

OPPOSES CLEVELAND.

That sterling democratic paper, the New York Sun, still keeps up its opposition to Cleveland, and will not be placated. Should the ex-president be nominated by the democrats next year, the covert, if not pronounced opposition of the Sun may be expected.

The above is a sample specimen of "wash" to be found now and then in every republican paper in the country. The Statesman knows just as well as any one that the Sun is not a democratic paper at all.

Two bees were observed to issue from a hive, bearing between them the body of a comrade, with which they flew for a distance of ten yards. Then, with great care they put it down, and selected a convenient hole at the side of the gravel walk, to which they tenderly committed the body.

THE CRY OF MILLIONS.

OH, MY BACK! STOP IT NOW. SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, while kind Providence sent Dr. Henley, with his OREGON KIDNEY TIA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.
