For a quarter of a century the people have patiently endured a great burden of taxation for the sake of paying off the national debt.

Just as their task was nearing completion there came this present administration and the Billion Dollar Congress, and now a new debt has been created, greater than the other. All the patient endurance has gone for nothing-All the hopes that have been cherished are made a mockery. Under disguised forms, but none the less truly, the national debt has been made greater than ever before, and in lieu of the interest charge so painfully eliminated we have a pension charge of still

so unjust that the very men who passed the bills have not dared face their own work or ubject it to honest scrutiny.

And this has been done under false preenses by men who assume to be more patriotic than Grant and more generous than Garfield for both Grant and Garfield sternly set their faces against even the smallest indulgence of precisely the sort of pension grabbing of which this administration and the Fifty-first Congress have made an orgy.

It is the people who must foot the bill for all this, and in the elections of the next year or two the party which has created the new debt will have opportunity to learn what the people think of it.

What can break the spell, what can raise the ban laid upon the ubnappy organs? We answer unhesitatingly, Hostetter's Stomach Bitters, and we are waranted in the response by the recorded testimony of myriads, covering a period over a third of a century. A course of the Bitters, begun in any stage of the affliction, and persistently followed, will terminate in cure positive, our partial. The Bitters restores tone to the epigastic nerve, recews and purifies the quides eruning from the cellular tissues that act upon the food digestively, expuls bite from the stomach and the blood, and promotes a regular habit of body.
