VOL. IV ALBANY, OREGON, THURSDAY AUGUST 13, 1891. NO 82

A Necessity.

The consumption of tea largely increases every year in England, Russia, and the principal European tea-drinking countries. But it does not grow in America. And not alone that, but thousands of Europeans who leave Europe ardent lovers of tea, upon arriving in the United States gradually discontinue its use, and finally cease it altogether.

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their cheapest and most worthless teas. Between the wealthy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer teas find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?

In view of these facts, is there not an immediate demand for the importation of a brand of tea that is guaranteed to be uncolored, unmanipulated, and of absolute purity? We think there is, and present Beech's Tea. Its purity is guaranteed in every respect. It has, therefore, more inherent strength than the cheap teas you have been drinking, fully one third less being required for an infusion. This you will discover the first time you make it. Likewise, the flavor is delightful, being the natural flavor of an unadulterated article. It is a revelation to tea-drinkers. Sold only in packages bearing this mark:

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Spinal Weakness.

Henry J Gallagher, 56 Prince Street, N Y, writes: "Having been troubled with pains in back and chest during the last winter I was compelled to remain at home unable to attend to business, until I was advised by a friend to try one of Allcock's Porous Plasters. After applying one to my chest and one to my back, in three hours I found relief which I had not got in over three months. IF A BODY MEET A BODY

the result is a collision, whether "coming thro' the rye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. In all cases of nervousness, bearing-down sensations, tenderness, periodical pains, sick headache, congestion, inflammation, or ulceration and all "female irregularities" and "weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, under a **positive guarantee**, from the manufacturers, that it will give satisfaction in every case, or money paid for it will be refunded. See *guarantee* on bottle-wrapper.

Trustworthy authorities state that in eastern New Mexico nearly 600,000 acres of fruit and farm lands have been reclaimed by the construction of storage reservoirs and irrigating canals during the past two years. Several corporations organized for such work are now seeking capital in the east. The above shows that private capital can be secured for irrigation schemes that promise good results, and that no necessity exists for knocking at the doors of the government treasury for funds to irrigate the arid plains of the west.

Now let us hear no more cant from President Harrison and his organs about civil-service reform. He forced the resignation of Collector Erhardt that he might sell the custom-house patronage to Spoils Director Platt for the New York delegation to the National Convention, and the New York organ that sold itself to Harrison for a diplomatic mission announces that a clean sweep of what it insolently calls "democratic rubbish" is to be made.

Take Care! There is Danger!

In allowing inactivity of the kidneys to grow through neglect. The deadly shoals of Bright's disease and diabetes will wreck the goodly bark of health if it is allowed to drift rudderless upon them. The bladder, too, if inactive, and judicious medication does not speedily direct the helm toward the port of safety, will be whelmed by the quicksand of disease. In selecting a diuretic, let your choice fall upon Hostetter's Stomach Bitters, which stimulates the renal organs without irritating and exciting them, two effects to be apprehended from the unmedicated stimuli largely resorted to. These have a tendency to react prejudicially. The Bitters invigorate the kidneys and bladder, in common with the nerves and digestive organs, and so afford lasting aid. It also affords dual assistance in preventing and curing intermittent and remittent fever. Biliousness, constipation and rheumatism it also subjugates.

Do not buy your boots and shoes until you see the piano at Klein Bros, and as well have examined their large stock of goods.

TELEGRAPHIC NEWS

A Terrible Accident.

MINEOLA Aug 12—The employes of T Kaiser Brooklyn went on excursion on Co ld Spring harbor today on the Crystal Stre am and Republic. There were 800 people on the upper deck of the barge. They were just clearing the dock to return when she was struck by a heavy squall and dashed against the dock. As it pushed over to the end of the deck it dropped upon hundreds of people who had crowded to that side in an effort to escape. In a momemt the air was rent with screams and cries of the victims whose lives were being crushed and limbs broken. It had been hoped that none were killed but 14 dead bodies were lying near the gunwale. All had their lives crushed out by being caught between the deck and the guard rails. Women men and children wept as they looked upon the dead and dying.

A Battle Tonight.

IQUIQUE Aug 12—The Lado anchored here after an absence of 45 days. She brought a large supply of munitions of war including 75 Krupp guns of different caliber and 12,000 magazine rifles with a good supply of ammination. It is believed that they were transfered from an Euperion steamer near Falkland island and great care was taken to prevent a repetition of the Itaea affair. The transport rigged another smoke stack to prevent detection by Balmacedas ships. The arms were served out to troops and they started to attack the government forces at Coquimbo. A battle was fought on the 9. The congressionalists gained a slight victory over the government troops who are said to have gone south.

The Salmon Pack.

ASTORIA Aug 12—The Columbia river salmon is over and cannery fishermen merchants bankers and in fact everyone directly or indirectly connected with the big industry are balancing accounts etc. Nearly a million dollars has been paid out by the canners in 3 days and money is plenty. The 1891 pack is 75,000 short of last years pack and while the figures are not obtainable the total pack is conceded by nearly all of the canners to be nearly 375 000 cases,

What a Woman Did.

DENVER Aug 12—Marie Bebees sent to a jeweler asking that a diamond necklace be sent to her for inspection. Gems to value $5500 were sent by an employe. The woman invited him into the parlor to drink wine. He drank placing the diamonds on the piano. He then reeled and fell to the floor. The wine had been drugged. When he recovered the woman and diamonds were gone. She was traced to Omaha which place she left Monday night for Chicago.

A Ben Dead.

BOSTON Aug 12—A well founded report has been received here that Ben Butler died today on board his yacht in New England waters,

EXCURSION TO NEWPORT.— Another and probably the last of the cheap excursions will be given Sunday, August 16th. Train will leave Albany at 7 a m, arriving at Newport 11 a m, returning leave Newport 5:30 p m and arrive at Albany at 9:30 p m. Those who wish to stay longer may remain until Monday or Tuesday and return on the regular trains by paying 50 cents additional. The season is now at its height. Fine surf bathing, fishing and boating. Tickets for round trip including boat fares only $2.50.

TO TEA DRINKERS.— Probably three fourths of the teas consumed are "Green Teas." Unpleasant as the fact may be, the bright, shiny green so familiar to us all is not the natural color, but is due to the facing or glazing of the tea with Prussian blue, Indigo and other mineral colors.

That coloring hides the effects of poor teas is undoubted; but is it healthful, and does it not call loudly for the importation of a brand of pure, uncolored, unmanipulated tea?

It was this condition of affairs that prompted the placing of Beech's Tea before the public. Being the absolutely pure, uncolored leaf it is different in color from any you ever used. It draws a canary color of a delightful fragrance that is a revelation to tea drinkers, and its purity makes it more economical than the artificial teas, less of it being required per cup. Sold only in packages, 60 cents per pound. Ask for Beech's Tea, pure as childhood, for sale by Allen Bros., Flinn block, Albany.

One half dollar reduction on every pair of Ludlow's fine shoes. A good line of them at S E Young's.

WHERE TO GET THEM.—When wanting an organ or piano call on G L Blackman where you can select from a first class line.

Keep it in your mind that Allen Bros propose keeping the kind of groceries the public wants. Their stock is a fine one

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

We have again at trumps.
