

GOOD EVENING

THE COLLEGE.—The interior of the college building has been generally improved, preparatory to the opening of the school next Wednesday. The desks in the different departments have been rearranged; a new recitation room has been arranged between the main building and gymnasium; the room for the music department is up with the addition of a genuine grand piano made by the expert Wm. Kimsey, receiving, paying and the arrangements, greatly adding to the interest for instruction in this important department. The gymnasiums, though not complete by any means, are in a good condition for the students, and offer a variety of features for exercise. All together the College building is neatly and attractively furnished. Last year was a very successful one. The coming year promises to surpass it. The faculty is an impetuous one and the young men and women of this country cannot find better structures in whose hands to be placed. The Institute deserves the liberal support it receives.

TO-NIGHT.—Base ball players will be interested in knowing that Phil McFarland, of the "Corner Grocery" company, one of the most popular professional ball players of America, having received prize at the contest arranged by the York Journal to determine the most popular ball player. Mr. McFarland was fourth, and headed such well-known players as Dave Foutz, Roger Myers, Tiernan, Ward, Keefe, and a host of the gifted element. Mr. McFarland is one of the few men who have caught the redoubtable John L. Livan, having received his erratic derby at a benefit given the Clan-na-Gael at the Polo grounds in 1885, slight at the opera house.

BOUGHT A RAILROAD.—Says the Astorian of Thursday: "Another chapter in the history of the Astoria & South Astoria railroad opens and closes today. C. Huntington, the president of the Southern Pacific Railroad company, buys the Astoria & South Astoria Railroad, and J. C. Stubbs were lectured yesterday, but were delayed. The order is to be made and the deeds made today. The consideration is \$54,000; \$50,000 cash and the assumption of \$4,000 indebtedness. The road is a valuable piece of property. The iron in it is worth the amount paid. It pays a dividend, just what the Southern Pacific proposes to do has not been divulged.

THE STATE FAIR is close at hand, and there will be a big attendance from this part of Oregon. Nothing else takes the place of such a fair. It combines everything, the products of the land and hand, the industry of the merchant and the speed of the horse. You get several shows in one, so to speak. This is Oregon's only fair, and should be made a big success. It deserves to be a success. No other fair is bigger, better, and finer than this. The stock exhibit is always immense, and the racing is good. We will no doubt be the biggest attendance in the history of the association.

WILL PAY ON THE 14TH.—Notices posted by O. P. depot and other places are to the effect that the company will pay on the 14th of Sept. A small amount, but not enough, but better than nothing. Undoubtedly the proper thing to do would be to remove the present receiver and appoint an Oregon man of integrity, of which there are many, thoroughly identified with the city. That Col. Hogg and some of his associates have lost the confidence of the people along the line of the depot does not need to be remarked.

BROKEN LEG.—On Friday John Parker, formerly of this city, but now a member of the city council of Portland, met by a horse arrangement, Judge W. F. Gallagher, of Yamhill, (County Judge,) at the side depot at Portland, whence they were to drive out to City View Park. The horse ran a hill some of the harness broke, considerably bruising Mr. Parker and breaking a leg for Judge Gallagher. He was picked up and carried to St. Vincent's for treatment.

HEAD FOR BUSINESS.—No man or woman with a head for business should buy groceries without first visiting Conn & Hendricson, in the block. It will pay for several dollars. They keep a first-class stock of goods, well at uniformly low prices. Wait on you promptly and give you well. Now is the time to organize for putting up, as well as for buying in their season. They have choice brands of teas, coffees, &c., and give you bargains in all lines.

THE TAILOR.—A large and elegant tailoring establishment has just been received by Blain's tailoring department, under the expert Mr. Schiffer. Those desiring suits made in a first-class manner should examine these goods and be satisfied. Blain's tailoring department is the best place in the county for securing a suit. Mr. Schiffer's long experience is a guarantee of good work.

WALL PAPER, ETC.—I have just received a line of wall paper and decorations, more than doubled my facilities for buying them, and will keep a much larger stock. Wall paper and border decorations, and much cheaper than elsewhere. SAMUEL E. YOUNG.

PROTECT OUR BREAD.

The machinery of the law has not been put to work too speedily against the fraudulent use of ammonia and alum in Baking Powders. Both health and the pocket of the people are demanding protection. The legislatures of New York, Illinois and Minnesota have taken this matter of adulteration up, and especially that of Baking Powders. It will be in the interest of public health when their sale is made a misdemeanor in every State in the UNION, and the penalties of the law are rigidly enforced. There is no article of human food more wickedly adulterated than that of Baking Powder.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder having a general sale that is free from ammonia, alum or taint of any kind of impurity. It makes the sweetest and lightest bread, biscuit and cake that are perfectly digestible whether hot or cold. It costs more to manufacture Dr. Price's than any other baking powder. It is superior to every other known and the standard for forty years.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

The S P R R company is using the old schedule of freight rates, notwithstanding the commissioner, arranged a new one to begin Sept. 1. Only the courts can settle the matter.

Some one gives as a recommendation for a state east of the Rockies the fact that three pounds of butter can be bought for 25 cents. Not much of an inducement for the farmer.

The way a Georgia editor advertises: "For sale—one Washington Press that never told a lie; one subscription book containing a hope of a hereafter, and the good will of an impoverished man. Call at once and avoid the great rush."

Some people consider the fruit in front of grocery stores public property. The Man About Town has just observed a man fill his pockets with nectarines, not one but three or four; several boys passing a store each helped himself to a peach. A regular customer is entitled to some privileges in sampling goods, but the passer by should keep his hands off.

This is the country for prunes. There is no doubt of it. Among the finest varieties is the Silver prune. Mr Martin Payne has handed us a branch of them, large, luscious fellows, remarking that the only fault he could find with them was that they bear too much, breaking the trees down. A few big prune orchards in the vicinity of Albany of this and other varieties would be a fine thing for the country.

OAKVILLE.

Harvest is over in this vicinity. The yield this year was fully up to the average. Mr R A Bamford threshed 25 acres that averaged 30 bushels, and 5 acres that averaged over 40. These were both fall wheat. Mr James McBride threshed 25 acres of fall wheat that averaged 30 bushels, and Mr Chas Bamford threshed 12 acres that averaged 31 bushels. The spring wheat did not yield so well, from the 15 to 25 bushels.

Mr A H Young, of Washington, Iowa, brother of Mrs I N Smith, of this place, and Mrs Jayne, of Shedd, is visiting his sisters here. Also Mr Allen Conger and wife of the same place are visiting their cousins here. They are delighted with our climate and fruit, but don't like the dust. They will go to California next week. Mr Young had not seen his sister for about 17 years. AMCS.

SICK Head-Aches.

Sick-headaches are the outward indications of derangements of the stomach and bowels. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation of Sarsaparilla, it is soon why it is the only appropriate Sarsaparilla in sick-headaches. It is not only appropriate; it is an absolute cure. After a course of it an occasional dose at intervals will forever after prevent return.

Jno. M. Cox, of 735 Turk Street, San Francisco, writes: "I have been troubled with attacks of sick-headache for the last three years from one to three times a week. Some time ago I bought two bottles of Joy's Vegetable Sarsaparilla and have only had one attack since and that was on the second day after I began using it."
