CITY OFFICIAL PAPER.
GOOD EVENING
A FIRE INVENTION.—Mr Geo Wilcox, a photographer, has invented a machine for measuring cloth, which promises to be a great thing for him and Messrs Hollenbeck and W. Hall, of the C B R store, associated with him in its ownership. Very simple in operation, it will measure cloth of all widths or ribbons even, with accuracy and rapidity, an indicator showing the amount needed off, together with the total price, at any amount per yard, never missing a cent or an inch of length. It also has a special attachment for measuring goods for an inch, which will save a great deal of trouble. The machine is more than ordinarily needed. The machine is a remarkable invention, displaying considerable study and investigation in its construction. The owners will go East after while and introduce it. As there is nothing in the market or ever invented covering the field there is no reason why here should not be a fortune in it for the owners.
FALSE AFFIDAVITS.—Fred S. Bygon and Stella Mitchell and Louis Bechtel and Myrtle Durbin were married in Salem Sunday, each of the young men making an affidavit for the other swearing that the girls were of age, whereas they were not, and the parents had them arrested on perjury, which was done at this city Sunday night and the young men were sent to Salem Sunday morning for trial. They were traveling photographers, and were doing Albany last week, seems to have been a case of school girls, quickly inflamed, resulting as stated in young men had bought tickets for San Francisco, and would have left on Saturday. Miss Mitchell is a sister of well known J. L. Mitchell, who came with Mr Durbin after the runaways.
A TEAM STOLEN.—A Robertson came to Salem this morning to notify the sheriff and deputies here that one Carl Tanner, who lives five miles below Wheatland, had a span of Brown horses stolen on his farm Friday night about 9 o'clock. The team was in the barn where the owner left them an hour before. The thief thieves hitched them up in a nickel-plated harness with white tassels on the sides and drove them off to the south in black top buggy.—Journal.
Y. M. C. A. SOCIABLE.—Don't forget at on next Friday evening there will be an Association meeting and "Botanical" table at the Y M C A rooms, to which every body is cordially invited. It is quite important that every member be present on account of business to transact. A good time is assured from the fact that the ladies have the sociable in charge. At our last meeting there was 100 present and we would be glad to see at least 150 next Friday night. Come, every body and bring your friends. No charges will be made.
A BAD BOY.—The Corner Grocery was attended by a good summer silence Saturday night. It was by far a best presentation of anything of the character, under whatever name, ever seen here. It is a great improvement on a usual Peck's Bad Boy, having a plot running through it of an exciting nature, and three different scenes instead of the usual grocery store scene. The cast, from Mr McFarland as Daddy Nolan to Budler's dog, is a good one. The bad boy really a boy under twenty, traveling in top pants, and is well cut out for the silence.
BLOOD WILL TELL.—Tomorrow night, Ellis, the scientific lecturer for J. C. & Co., will deliver a lecture on the subject at the Opera House. Dr. Ellis' lecture is a world delivering address before large and enthusiastic audiences. It is a good speaker, and the Salem statesman speaks highly of his address in at city last Wednesday night to a very house. Any druggist in town will give free tickets on application, to adults only. Each lady will be given a valuable book and the Dr. will tell the young ladies how to choose a husband. An early start will secure a good seat.
A HEAD FOR BUSINESS.—No man or woman with a head for business can afford to buy groceries without first going to Conn & Hendrickson, in the upper block. It will pay for several reasons. They keep a first-class stock of goods, sell at uniformly low prices, about half, wait on you promptly and as you well. Now is the time to order peaches for putting up, as well as for fruits in their season. They have the choice brands of teas, coffees, &c., and give you bargains in all lines.
A TAILOR.—A large and elegant suit of suitings has just been received from E. Blain's tailoring department, under expert Mr Schiffer. Those desiring suits made in a first-class manner examine these goods and be satisfied. Blain's tailoring department is the best place in the county for securing a suit. Mr Schiffer's long experience is a guarantee of good work.
WALL PAPER, ETC.—I have just received my line of wall paper and decorations, more than doubled my facilities for selling them, and will keep a much larger stock. Wall paper and border to suit. Beauties, and much cheaper than before. SAMUEL E. YOUNG.
NEW DRESS GOODS.—I keep a full line of new and fall dress goods, in wash, prints, ginghams, seersuckers, etc., and also a new line of summer plaids, and other novelties in biges and all wool goods. They have not been as cheap since they were new. Call and see what W F Read has.

SOCIAL AND PERSONAL.
Mr and Mrs Jas Van Winkle spent Sunday in Halsey.
Miss Ella Merrill, of this city, is visiting at Seattle for a few weeks.
Dr E L. Irvine and family, of Portland, west to Yakima Bay today.
Richard L. Nell, of Portland, is in the city. He is now clerking for E C Searles.
W F Read, Dr Maston and N H Allen left this noon for the Santiam mines to be gone until Friday.
F W Blumberg is now clerking at W F Read's, during that gentleman's absence at the mines.
H W Foreman, of Halsey, was in the city today on his way to Sharon, Ohio, where he will spend the winter.
Chris Buckley, well known as "Boss" Buckley, of San Francisco, passed through Albany a few days ago for Portland.
Mrs Murry and daughter, Maggie, went to Salem this noon, where Miss Maggie will continue her studies at the Sisters school.
Hon W K Price was up from Tolo Monday to have Dr Caldwell fix his teeth. He says he will travel a long distance to have his dental work done. Mr Price's farm turned off over forty bushels to the acre this year.—Ashland Record.
On Wednesday George Slayton, accompanied by his sister, Miss Mable, and Mrs Waller, started for Portland. Miss Mable will enter the Sisters' school at Portland, and will remain there during the winter. While below Mrs Waller will visit the public schools of Portland and Albany, with a view to studying the systems adopted in primary work in those schools.—Ochoco Review.
CASCADE ITEMS.—The editor of the Telescope last week returned from a trip to the mountains and gives among other mountain items the following: One day during the absence of the proprietor of the Fish Lake Hotel Mr Vanderpool, who was left in charge, had an altercation with a Kansas immigrant passing over the mountains about some hay. Thinking the Kansas man would try and steal the hay he watched until 11 o'clock at night when he came from the barn with a bale on his back. Vanderpool took a deadly aim and fired, hitting the bale. After another big quarrel in the morning the immigrant came to the valley.
At the same place a daughter of Dr Lane, ex-Superintendent of the asylum, while barefooted stepped on some ground over the burning roots of a stump, fell into the coals and was so seriously burned on her feet that she will not be able to walk for several weeks.
Twenty-nine years ago, while driving cattle over the Cascades for A Hackleman, a brother of Dr Gray of this city died near the summit of the mountains and was buried in his blankets. Later, a coffin was taken up and he was transferred into it and given a more decent burial. At that time a discovery of exceedingly fine gold ledge was made some where near where Mr Gray was buried. About two weeks ago Richard Fox, and John Davis, who were with the party at that time, and Robert Brown went out to search for the ledge. After a week's hunt Mr Fox found the grave, just the same as they had left it nearly 30 years ago, but all their search failing to reveal the mountain of gold, and time has evidently changed it to some other locality or more probably it was only a myth, and existed only in their minds.
A THROUGH FREIGHT.—Owing to the increasing business on the Southern Pacific a through freight has been added. It will pass Albany going North between 11 and 12 p.m., and going South between 9 and 10 a.m. The other freights will pass Albany at the old time; but the table has been slightly changed at some of the stations.
FINE HOES.—L W Pomeroy, of the "Forks," was in the city today and informs us that his crop of hops is first class with not a louse to be found on them. Picking is progressing lively. He will finish this week.
Call at Conn & Hendrickson's tomorrow morning and get prices for peaches before buying. They will receive a big shipment.
The Hustler, a first class comedy, will be here Saturday evening. Notice tomorrow.
Found, a bunch of keys. Call at Democrat office for same.
WHERE TO GO.—Go to Parker Bros for fresh fruits and vegetables.
Go to Parker Bros for the best teas and coffees.
Go to Parker Bros for good baking powder.
Go to Parker Bros for fine baked goods. The best bread, cakes, pies, etc in the market.
Go to Parker Bros for your groceries generally, and be assured of good goods and first-class treatment.
NEW TAILORS.—Hart & Phillips, an experienced firm of tailors, have opened an establishment in the Strahan Block, over McFarland's harness shop, with a fine line of samples and patterns of suitings, for fashionable clothing of all kinds. They are prepared to make to order for the trade here fashionable suits, in latest styles, promptly and in a manner to give satisfaction. Call at their rooms, see goods and get prices.

DIED.
JULIUS.—On Sunday, Sept. 6th, 1891, at the home of his father, twenty miles from Albany, Peter Julius, aged 7 months.
HOPPER.—On Sunday, Sept. 6th, 1891, in Benton county, the six weeks old child of Mr. Morgan Hopper.

MINUTES
WHEAT. 2 1/2 CENTS.
Wheat is demoralized this evening. It is hard to tell what it is, probably somewhere near 80, perhaps less.
A Myrtle log shipped from Coos Bay to Portland sold for \$49. The freight on it was \$18. This is valuable lumber, though not growing in bulky trees.
All of Albany's schools will be turning out future presidents this week. Our educational facilities are equal to those of any city in the Northwest. Oregon, though, has good schools generally.
These recruiting officers seem to have been through the country on a lark as much as anything. They at least did not get many recruits, none, we believe, at Albany or Salem, at least among the men. Now a Salem girl claims to have been debauched by one of the men, and it is quite probable each place they visited will have its sensation in reference to them.
Ex-Senator James G Fair was at the Red Bluff races with a string of horses, neither of which took a trick. Dame rumor has it that the bullionaire kept so "bugle eyed" on Red Bluff's "tanglefoot" that he couldn't tell a race horse from a cow at no time during the racing. Uncle Jimmy has a weakness that way, however.—Redding Democrat.
At Pendleton a three-card monte sharp in one saloon caught a tartar, says the E. O. The player, a local sport, bet \$5 on what he thought to be the lucky card, and ranked out a pistol with a remark to the effect that if the card was substituted for another by the dealer, or by a confederate, who was hanging around on the outside for the purpose, there would be a second-class funeral in short order. He won the V.
WEATHER REPORT.
OREGON WEATHER BUREAU. CENTRAL OFFICE, PORTLAND, OREGON. CROP-WEATHER BULLETIN NO. 26, FOR THE WEEK ENDING SATURDAY, SEPT. 5, 1891.
In western Oregon warm, cloudless weather, with a smoky atmosphere has prevailed during the week, with fog at night and early morning, the latter more especially near the coast. No rain has fallen.
Harvesting of cereals is about over, except the late sown oats and barley. Threshing is finished in many sections. The yield of cereals has been unusually large. The quality is good, fully an average or more, except in localities where some smut prevails, to no great extent, however, in any place. Clackamas county reports wheat yields of 39 bushels per acre, and Yamhill county 36 bushels in large fields. Most counties have large yields in well cultivated fields of from 35 to 45 bushels per acre. Hop picking is in progress. The hop lice have done considerable damage. In some yards fully 50 per cent of the hops have mould on them, in other yards no mould or lice are to be seen. The hop crop of Oregon was estimated to be 30,000 bales, but since the picking has commenced it has been found that based on the above estimate there will not be over 20,000 bales at the most of first grade hops.
In eastern Oregon warm weather with a smoky atmosphere has prevailed. No rain has fallen. The latter part of the week has been cooler.
Harvesting operations are well along. In Sherman and Wasco counties, while the yield has been good, especially in the former, in many sections of both counties the berry is shrunken. Morrow county has as good or better crop of cereals than she ever had before. Smut exists in parts of Grant county. In Gilliam county most of the wheat is in sack, and smut in wheat is to be found in parts of this county also.
B. S. PAGUR, Observer, U. S. Signal Service
BROWNVILLE.
September 7th, 1891.
Wheat is 83 cents per bushel here.
Threshing in this vicinity is done.
Hop picking is the order of the day and most of the yards will be picked this week.
H J C Averill and C E Rockwell are said to be on the improve and hopes are entertained that both will recover.
The home market as relates to potatoes of this vicinity has been smashed to smithereens. Either we do not have enough protection or the supply is beyond the demand. We can see how the McKinley bill has done great good in that it has destroyed the crops of the old world and caused a great demand for our bread stuff, but can't see why the benefits should not extend also to our potatoes. As it now is we have to sell our potatoes too cheap, and would like, should William get to be governor of Ohio this fall, he would attend to the potato market soon.
City Council tonight.
Work on the new hotel goes slow. Want of lumber is the great drawback.
H B Moyer talks electric lights of late, and we hope to see our town lighted in good shape before another winter is up on us.

SICK
Head-Aches.
Sick-headaches are the outward indications of derangements of the stomach and bowels. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation of Sarsaparilla, it is seen why it is the only appropriate Sarsaparilla in sick-headaches. It is not only appropriate; it is an absolute cure. After a course of it an occasional dose at intervals will forever after prevent return.
Jno. M. Cox, of 725 Turk Street, San Francisco, writes: "I have been troubled with attacks of sick-headache for the last three years from one to three times a week. Some time ago I bought two bottles of Joy's Vegetable Sarsaparilla and have only had one attack since and that was on the second day after I began using it."
