

WASHINGTON. (From our regular correspondent.)

WASHINGTON, Oct. 5, 1891.

Senator Carlisle is in Washington, and many are the efforts that have been made to ascertain his favorite, if he has any, in the speakership race.

A group of democrats were discussing the speakership last night and one of them who has in the interest of one of the candidates, made a canvass either by letter or personally of every democratic representative of the fifty-second congress said of the situation: "There is a considerable number of representatives who are not pledged to anybody and who will in all probability enter the caucus unpledged."

My impression is that there will be no nomination on the first ballot owing to the large number of scattering votes, many of them intended to be complimentary. Mills and Crisp will lead, but they both will be considerably short of the necessary majority.

Now, the fellow who can guess where all the complimentary votes will go, should they all go together on the second or third ballot, can come very near naming the next speaker of the House. I can confess I am all at sea, although I hope they will come to my man and nominate him."

Another gentleman thought that unless either Mills or Crisp was nominated by the third or fourth ballot that they both would be dropped and one of the other candidates nominated with a rush.

When all the members get here where they confer and compare notes it may be easier to foretell the result of the caucus than it is now. It can't be more difficult.

It was predicted last spring when Mr Harrison postponed the conference between the three Canadian officials and himself and Secretary Blaine, on reciprocity between this country and Canada, until October 12, that it was extremely doubtful whether the conference would ever be held, because of Mr Harrison's well-known antagonism to Canadian reciprocity, and it now appears that the prediction was well founded.

The proposed conference has been postponed indefinitely, the reason alleged being the absence of Secretary Blaine.

German day will be celebrated here tomorrow by a monster parade and industrial display and an out-door picnic. The day is celebrated as the anniversary of the settlement, more than two hundred years ago, to be exact October 6, 1683, of the first distinctively German colony established in America, which was staked out on that day at Germantown, Penn.

The pressure, political and otherwise, which has been brought to bear upon Secretary Tracy for the dissolution of the squadron of evolution and the sending of the vessels composing it to various points where they are needed has at last been successful in spite of the strong "pull" of Commodore Walker.

The Boston and the Atlanta will in the future go to the Pacific; one of the three vessels left—the Chicago, the Newark, and the Bennington—will go to the South Atlantic squadron, and the other two will join the North Atlantic squadron. It has been along fight and a very bitter one, and the wounds left are likely to cause trouble in Navy for years to come.

Pension Commissioner Raum is again catching it on all sides, and it seems hard to understand how he can possibly retain his position this time.

LANE COUNTY.—A black bear was killed by S D Cairns in his door yard at Pleasant Hill last Saturday.

Five boys were fined \$5 and costs at Springfield this week for stealing peaches out of Milo Taylor's orchard.

Mr August Fisher killed two black bears, an old one and her cub, on his place just back of the Masonic cemetery last Tuesday.

Sheriff Noland has gone to Laramie City, Wyoming, to bring to Eugene a man named Hixon, who has been arrested there on a charge of having stolen \$80 from George Foulner, near Creswell, in this county, on the 19th of last month.—Journal.

Bad Blood.

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the effete matter.

Try it and note its detailed action. Chas. Lee, at Beams's Third and Market Streets, writes: "I took it for vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleansed, purified and braced me up generally, and everything is now working full and regular."
