CONVICTED OF LEPROSY.—Dr. D. A. Paine arrived last evening from McKenzie precinct, about 55 miles east of Eugene, where he had been for the purpose of examining into the condition of one J. H. Babcock, who was charged by his neighbor with being afflicted with the incurable disease, leprosy. He was assisted by Dr. J. H. Barr, of Foley springs. After a thorough examination, it was determined beyond a doubt that he was afflicted with the disease. The sores have broken out and are now running. Dr. Paine made arrangements for his complete isolation, Babcock agreeing to stay on his own premises, permitting no one to enter his home, which is located about one-half mile north of the McKenzie bridge.—Eugene Guard.

TROUBLE AT LOWER SODA.—Wednesday evening a Mr. Atkinson came to Albany for surgical treatment, which he secured of Dr. Davis. Atkinson reported that he had been shot by the well known William McKinnon. The trouble arose over McKinnon accusing him of threatening to whip his boy, which Atkinson denied. Hot blood followed. The men fought with clubs, when McKinnon drew a revolver and fired, hitting Atkinson in his leg near the ankle, when the latter who was in a buckboard drove off and immediately came to Albany. He had a warrant issued for McKinnon's arrest.

A WONDERFUL CHILD.—A big house greeted Little Lord Fauntleroy last evening, and were awarded with a great dramatic treat. George Cooper as Little Lord Fauntleroy is a marvel, probably without a superior. How one little head can carry so much, and so well is truly an enigma. The support is all strong. The story, as dramatized, is an interesting one, with plenty of exciting scenes. George Woodharge as Missa, the antagonist, is at her best, and Mr. Gottrell is great as the Earl of Desmond. The audience was delighted with the whole affair.

TOLEDO STYLE.—There was a dance at Toledo last Saturday night and some of the boys grew so hilarious along toward morning that the officers of the law had to interfere and they had a regular Irish wake of a time. Knives and stillknives were in the air and the courts of justice have been asked to right the wrong. The boys have sobered up now and are sorry the disturbance occurred and we trust their better judgment will prevent a similar scene.—Times.

ACCIDENT BY CARBOLIC ACID.—Mr. Chas. Cusick, the druggist, wears considerable of a patch of burnt flesh above his left eye caused by a dropper containing carbolic acid falling, elastic end downward, on a showcase, resulting to the hot liquid flying into his face, narrowly escaping his eyes.

CHANGE OF TIME.—Beginning on November 1st the North bound overland will pass Albany at 3 o'clock a. m., a fact that will generally be appreciated by bus drivers and hotel men, as well as by the depot employees. The South bound train will arrive here at 10 o'clock, about 22 minutes earlier.

A BIG INCORPORATION.—Frank J. Crouch, of Eugene, C. P. Houston and Wm. L. Houston, of Junction City, have incorporated The Crouch-Houston Electric and Manufacturing company, for manufacture and sale of the Crouch patent improved safety dynamo. Price of business, Eugene, stock, \$1,000,000.

A SHOE ITEM.—S. E. Young has just received a large stock of shoes, for men, women and children, including particularly a fine line of school shoes. The best makes in the market can be found in his shoe department.

A CANARD.—The New York Press Exposes that "Important Bill" Business.

The article credited to the New York Press going the rounds of the papers, in which it is alleged that unfavorable action has been taken in the New York Legislature against the Royal Baking Powder, proves to have been a canard, gotten up and circulated by opposition baking powder makers for purposes quite apparent to every one. The New York Press, in exposing the fraud, says: "No such legislation as that stated in this article has ever been had in this state—or in any legislature, to our knowledge." The lie is made from whole cloth. The Press disclaims any responsibility for the publication, and objects to being made a party to such methods adopted by some baking powder manufacturers in their efforts to substitute their goods for others now in use.

A late statement shows deposits in about half of this city's banks of nearly \$3,500,000. This is somewhat more than the assessor found a short time ago. Other cities could show similar increase. Times are evidently improving.—Seattle Telegraph.
