### PROTECTION PARADOXES.

The protectionists of this country are just now endeavoring through diplomacy to persuade the protection countries of Germany and France to lower their duties on certain American products. The logic of this request is that high duties are very good for this country but very bad for foreign nations. Our administration boasts of reciprocity treaties which have secured free admission or greatly reduced duties on many American products going into foreign lands, without abating in return any tax upon imports into this country. The logic of this policy is that it is highly praiseworthy to untax necessities for foreign peoples, but that it is a patriotic duty to heap still higher the taxes on the necessities of our own people. The republican stumpers point with pride to cheaper sugar as the result of untaxing it and then claim that 500 other articles have been or will be made cheaper by taxing them. The logic of this claim is that increasing a burden generally makes the load lighter. Great are the paradoxes of protection.

### Cure of Spinal Weakness.

E F Woolston, Yates, Orleans Co., N. Y., writes: "My wife, five years ago, was confined to her bed with inflammatory rheumatism of the muscles of the back. The doctors thought her case hopeless, and doctored her to be a bedridden invalid. The violent pain kept her awake almost every night. She lost over thirty pounds in weight. To ease her pain I thought I would put on Allen's Porous Plasters. I covered her back with them. To my great delight she began to sleep well. The pain very much abated in one week. I then took the plasters off, washed her back, and put on fresh ones. At the end of the second week, she insisted on getting up, and by the third week was entirely well and able to attend to her household duties.

### TELEGRAPHIC NEWS

#### A Fatal Electric Wire.

SPokane, Nov 2.—About 3 o'clock this afternoon a telephone wire broke and fell across the trolley wire of the Spokane Street Railway Company on Riverside avenue, near the postoffice. For nearly half an hour the trolley wire burned, when suddenly an explosion occurred, like the report of a pistol, and the wire broke, one of the ends hanging down on the track, the other remaining suspended in the air. Just at this time, a large beer wagon belonging to Fitzgerald & Green drawn by two horses and driven by a man named Mason, came rapidly down the avenue and one of the horses, striking the wire lying on the street, was thrown violently to the ground. He made an effort to rise, but fell back across the live wire and was instantly killed. A large black dog, wishing to investigate the cause of the commotion, came in contact with the live wire and was also killed.

#### Baker City's Election.

BAKER CITY, Or Nov 2.—The Baker City municipal election occurred today and notwithstanding the downpour of rain and the chilly atmosphere, the entire voting population was drawn out. The election was conducted under the new state law, the Australian ballot system, and its workings giving entire satisfaction. C A Johns was elected mayor over the present incumbent, S B McCord, who has held the reins of city government for four successive years, by a majority of 151 votes. The other successful candidates were: Treasurer, S L Murphy; councilmen, J H Parker, Frank Clarke, C M Miller, Joseph Goddes, J P Faulk, George W Borman, William McMurren and B A Levens jr.

#### Clever Forgeries.

LONDON, Nov 2.—The London police, after a long search, have unearthed the cleverest check forgers operating in recent years. The members of this gang have succeeded in doing what was believed by experts to be impossible, namely, removing from chemically treated bank paper the figures written thereon and replacing them by others entirely different, without leaving a trace of the alteration. There is reason to believe that the scalings of the combine have amounted to £20,000 a week for some time past.

#### A Forger Captured.

ASHLAND, Or Nov 2.—A man who answers very closely the description of Charles B Hogg, alias Burton, and who is wanted at San Bernardino, Cal, for forging bank checks, was arrested at Ashland this afternoon for committing a like forgery upon a bank here. He has every appearance of being a shrewd and skillful worker in the forgery line and on his person were found blank checks on various banks, from Texas to California.

#### A Fatal Tumble.

PENDLETON, Nov 2.—The remains of a tall, powerful Irishman, about 40 years old, were picked up by the Union Pacific train in charge of Conductor Cantelino, near Gibbon station, on the mountain east of here, Sunday morning. He had been dead eight or ten hours; and had evidently been killed by being thrown from a railroad train. He was lying on his face on a rock pile, and the conductor thinks he was hurled from the train coming toward Pendleton.

#### Over a Bank.

EUGENE, Or Nov 2.—Henry Bolen and wife met with quite a serious accident while coming to town this morning from their place on the Mohawk. They were on the narrow gauge around Judkins' point, when the train train came along and scared the team. The horses jumped down an embankment of about fifteen feet, drawing the carriage after them. Mrs Bolen was quite seriously injured, and was unconscious when brought to town.

#### Notice to Ladies.
