"Castoria is an excellent medicine for children. I have repeatedly told me of its good effects upon their children."

Dr. G. C. O'Connell,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchener,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Ancura, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have minor medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Proof of Merit.

The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Alcock's Porous Plaster during the past thirty years is unimpeachable evidence of their superiority and should convince the most skeptical. New York Board of Health

SITS DOWN ON A BAKING POWDER CO.

ROYAL'S OLD GAME.

STATE BOARD OF HEALTH OF NEW YORK.

Albany, N. Y., April 28th, 1892

To John Anderson, Esq

Chicago, Ill.

Dear Sir:—

In response to yours of April 20th, in regard to the advertising of the Royal Baking Powder Company I have the honor to send you the following resolution adopted by the Board at its quarterly meeting held in Albany Feb. 11th, 1892.

Resolved, That the advertisement of the Royal Baking Powder Company, quoting the State Board of Health of New York as recommending, through one of its analysts, its purity, etc., is a misrepresentation. In no case does the State Board of Health or its representatives, cause such examination to be made with a view of recommending any particular products.

Very truly yours,

Wm. C. Carroll,
Asst. Secy

The misrepresentation which called forth the resolution of the State Board of Health of New York, printed above, is in keeping with the old tactics of the Royal Baking Powder Company.

First it manufactured a Government Chemist out of whole cloth, and the garment was cut and made to fit Dr. Henry A. Mott, and later poor Dr. Love.

Brought to a turn in this, the same company sought to use the New York Board of Health.

It did not hesitate to send broadcast, the statement that the New York Board of Health had endorsed and recommended the Royal (Ammonia) Baking Powder.

It did not take the New York Board of Health very long to assert itself on this misrepresentation as will be seen from the foregoing letter.

These questionable methods of advertising have never been resorted to by the Price Baking Powder Co. The old-fashioned honest way of making a pure Cream Tartar Baking Powder is much to be preferred. No ammonia to conceal, nothing to bolster up.

The success of Dr. Price proves honesty is the best business policy in food products, as in everything else.
