

ASTO TAMMANY.

If there were in republican organs a sense of the fitness of things less would now be heard of the Tammany bogy with which it has been accustomed to terrify rural members of the party of high taxes.

To meet the difficulty the old-time leaders bethought themselves of the Tammany cry, and selected as their candidate for governor a youth with abundant impudence but not burdened with sense.

But when the votes were counted it was clear that the people of New York state had not been deceived in the issue. They had memories inclusive of the Platt and Tammany records.

Every since Ex-governor David Bennett Hill was elected to the United States Senate, some eight or ten months ago, the republican leaders have been clamoring that he should resign the governorship.

The legislature of New York was convened and organized Tuesday. The senate elected the officers chosen by the democratic caucus.

Before Secretary Blaine can reasonably expect Chili to do equity he must himself perform equity. He must recall Pat Egan, our alien minister, whose mismanagement has been the chief cause of the strained relations between the two countries.

The Harrison organs which are congratulating the president for appointing only one Indian man circuit judge do not consider the fact that the one he did appoint is as indigent as a dozen ordinary Indian republicans.

With Mr. Elkins in the cabinet and in official control of the party machinery the country may anticipate a more reckless campaign and an even more unscrupulous use of desperate political appliances than were witnessed in 1884 or 1888.

Mr. Edwin Arnold failed to secure an audience in Kansas City, but the papers in that city are trying to make up for this by calling him Col. Arnold. What more could a Missourian do?

There is a difference between the tin plate of politics and the tin-plate of commerce.

WHAT DO YOU THINK?

A dispatch from New Orleans says: The Elm Hall sugar plantation of Leon Goodchaux, in Assumption parish, closed the rolling season Monday, having turned out the immense amount of 4,250,000 pounds of sugar.

For the producing of 12,500,000 pounds of sugar this man is given a bounty of \$250,000. The whole people of the United States are taxed to make up this bounty to this one man.

Tariff reform makes constant gains among the present descendants of the Pilgrims. Hence the appositeness of Mr Cleveland's insistence among his fellows, upon "the thought that our government cannot, without perversion, hold out unequal rewards and encourage selfish designs."

Prof Baird of the Fish Commission thinks that salt water fish are migratory. If they are reared at a given spot along the shore they will return to that spot.
