CITY OFFICIAL PAPER.

Entered at the Post Office at Albany, Oregon, as second class mail matter.

GOOD EVENING.

Read Local on 2th page.

LEBANON'S PAPER MILL.—The mill as completed cost, not including site and water power, \$118,000. It has, or will have, double the capacity of the original design, they having arranged for the building for another set of rollers, which will soon be put in. The dimensions of the main building is in the form of a cross.

Under all of these rooms except the engine room, is a basement story of ten feet. This does not include any of water ways or water works. There are four turbine wheels of 50 horsepower each or 200 combined. The boiler for heating and drying is 100 horse power, and the brick chimney is 86 feet high with a base of 14x14 and summit of 6x6. One steam shed 24 ft high and 60x100 ft is already completed and put up in workman-like manner. There are four other temporary sheds about 80x120 ft; but another permanent shed or straw house will be built this summer which will be 25 feet high and 80x600 ft. The mill will run day and night, (Sundays excepted) and will turn out from five to ten tons of good merchantable paper, that will compare in any market in the world with any other mill. Large orders now await these honest manufacturers, whose goods are already known by their reputation in the California mill.—Express.

DEMOCRATIC CLUB MEETING.—The Democrats of this city meeting their organization last evening by the election of the following officers: President, Hon George E. Chamberlain; vice presidents, Rufus Thompson, D P Mason, John H. D. Burkhardt; secretary, O P Cuslow; assistant secretary, F P Cuslow; treasurer, Horace Farwell. The following delegates were elected to the state association of democratic clubs, which convenes in Portland Saturday, January 9th: J P Galbraith, J K Weatherford, Henry Blakely, George Humphrey, G W Maston, T J Sides, Geo E Chamberlain, C G Burkhardt, H L Craner, E J Lansing, G F Russell and D S Smith. There are now 115 names on the list, and many more will be added from time to time. Every democrat in the town and surrounding country should see that his name is enrolled. Let every democrat whose name is not already down hand his name to some member of the committee on membership. The following is the committee: G W Wright, T L Wallace, G F Russell, John Hoffman, Dr G W Maston and F Campbell.

SHOOT OR SHUT UP.—The Albany and Salem Gun clubs should make some arrangements for a contest of any number of men from one up, just so there is a shoot, and the present agony stopped. The Salem club after referring to an item in the Democrat publishes the following: We now understand what our Albany shooters want instead of a team shoot between the two clubs of a reasonable number of men, they want a "tournament" between the two clubs. If the Albany club has ten shooters they must have three. Their first move should be to either accept or reject our challenge. Then other arrangements could be talked of. Your proposition to shoot for \$5 a man is unreasonable because it would cost each Salem man \$8 to make the trip. We would have to stay over night, you could come here and return the same day. One club against the other, nobody barred out.

Mrs. Laura Starr, of Olympia, Wash., arrived in Albany this noon on a visit with her parents, Mr and Mrs W H Goltra.

THE FIRST OF THE SEASON.—Fresh Columbia River smelt at Slaughter's market on Second street.

BETTER ROADS.—According to the following from the Journal, the farmers of Marion county very properly want good roads. It would pay every county in Oregon to levy a three mill tax for roads: "The county court will this week make the county tax levy, and petitions are being got up in all parts of the county to have a 3-mill tax levied to build good gravel roads under contract. This is a small tax compared to wear and tear on horses, harness and vehicles and waste of time to farmers by the present almost impassable roads. There is no greater civilization than good roads. There is no greater tax than bad roads."

CRAWFORDVILLE IN IT.—The report reached us a few days since that there is strong talk of a boot and shoe factory in the town of Crawfordville. The proprietors of the boot and shoe factory in Corvallis made the citizens of the former place a proposition last week, said proposition being that if the citizens would give him a bonus of \$3000 he would locate in their village. A meeting of the citizens was called, and the belief seems to be that the bonus would be forthcoming.—Advantage.

ASHLAND DURING 1891.—The past year has not been a very active building season in Ashland, but there have been a dozen good dwellings erected during 1891, ranging in cost from \$400 to \$2500. Besides this there is the city hall, nearly completed, which costs the city \$5000, and costly improvements to the flouring mills. Many minor building improvements have been made, and altogether the aggregate of expenditures in this line makes a very good showing.—Tillings.

EVANGELIST COMING.—Rev W A Lindsay is expected to be here by next Sunday to assist in the special meetings at the Baptist church. Mr Lindsay has had marked success elsewhere in evangelistic work, and all will be interested in hearing him preach and sing the gospel. His last meeting was closed last week at Lebanon, where there were fifty-one additions to the Baptist church as the result of his work.

WORTH THINKING ABOUT.—But words are things, and a small drop of ink, falling like dew upon a thought, produces that which makes thousands, perhaps millions, think. The object of this is to make you think about the subject of groceries. Conn & Hendrickson keep a first-class stock, at bottom prices, and as well have a fine line of crockery ware. Think about it and call on them.

SOCIAL AND PERSONAL.

A GOOD NEW YEAR'S resolution is to always get the best of everything. Matthews & Washburn can accommodate the public in their line. They keep the best stoves in the market, and on their part are resolved to treat their customers in the proper manner from January to December, giving first-class goods and lowest prices.

A SHOE ITEM.—S E Young has just received a large stock of shoes, for men, women and children, including particularly a fine line of school shoes. The best makes in the market can be found in his shoe department.

MONEY TO LOAN.—I have money in sums of \$500 to \$20,000 to loan on improved farm lands in Linn and Benton counties, at lowest current rates. No delay in furnishing the money. C G BURKHART, Real estate agent, Albany, Oregon.

HOME AND ABROAD.

Baker City has no flour mill. Salem's electric lights cost \$4560 a year. Dancing school at the Opera House tonight.

The total rainfall during 1891 at Roseburg was 46.99 inches. The Williams is taking a decided tumble, and work is being pushed on the bridge.

A Democratic club was organized at Halsey a few days ago with a membership of thirty. Cool nights are good reminders of the fact that Matthews & Washburn keep the best heating stoves.

A meeting of the Farmers Alliance was held in the Court House this afternoon. It was secret, and only members were admitted. One of the coming manufacturing towns of Oregon is Waterloo. Its magnificent water power is bound to do wonders for that place.

Our esteemed and venerable fellow-citizen, Benjamin Cleavey, is recovering very low with the grippe, and his recovery is very doubtful. He is one of the pioneers of Oregon—came here in 1848.

The hearing before Judge Boise at Salem Tuesday on the matter concerning the horses and mules in the Price outfit, over which there has been much litigation of late, resulted in the decision of the court in favor of the mortgagee, O J Laird. A F Stow, Mr Laird's attorney returned from Salem Thursday morning and says the property will be sold this time, and about ten days from today.—Advance and Express.

Have U noticed that Allen Bros' grocery store is always full of fruits, vegetables, etc, the very latest in the market. If there is anything to be had they have it.
