"Casteria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Casteria instead of the various quack postrums which are destroying their loved ones, by foreing online, toorphine, soothing syrup and other hurtful agents down their turouts, thereby sending them to pressature graves

If any city in Oregon needed a political evolution it was Astoria. Under the old revolution is was Assoria. Under the old rule it cost nearly \$100,000 a year to run the city, with a population of 7,000 or 8,000, just about three times as much as the cost of running Salem, a city of about the same population. There must have been something rotten, and the people did well to order a change.

The West Side of Independence gives the improvements in that city during 1891 as \$174.225 Among them are: Public school building, \$25,000: Electric light plant, \$20,000: Independence and Monmouth motor line, \$20,000: Independence National bank building and fixtures, \$18,000: Independence roller mills, \$15,000: Independence water works, \$15,000: J F O'Donneli's hardware store, \$8,000.

Here is a little undeserved newspaper fun from the Oragon City Courier, about a live young editor of splendid character: The young chap that does duty as editor of the Stayton Times evidently needs a thorough scrubbing with a flesh brush and a pair of horseshoes in order to drive the blood from his leathery cerebellum to his cowhide boots. In his last issue he raves thusly: "The Oregon City Courier quotes a line from the Times and follows it by saying: 'Society in that neck of the woods evidently has the taste of sucking caives; they should, for a change, chew one another's ears.' You vile, Ignorant blackguard! Can't read the plain king's English! Ghew ears? If we belonged to the same long-cared species as yourself we'd not only chew ears but bray from morning till night."
