Whatever good results followed the passage of the McKinley bill are in no sense due to it but are entirely due to the uniform good crops last year.

FACTS ABOUT THE TEA WE DRINK.

But few people know that there is such a thing as unadulterated tea, and fewer have seen it. But there is, and it is of all tea the most precious, and most fragrant.

Green Teas. Few people know that the bright bluish-green color of the ordinary tea exposed in the windows is not the natural color.

Black Teas. The basket and pan-fired Japan teas, as well as the China teas that may be included under the general heading of "black tea," get their color from the firing or roasting process.

Concerning sun-dried teas the people of the Pacific Coast have heard but little and know less, although it is extensively used where it is known and understood.

According to the custom-house reports, the amount of tea received at San Francisco last year (1891) was \$5,561,187 pounds, and the value \$25,220, or a fraction over its per pound.

"Beech's Tea" was intended to be the pure sun-dried tea, is now offered to the people of the Pacific Coast. It will be a revelation to you.

Recall that the margin of profit is so much smaller on Beech's pure sun-dried tea than on the artificially colored tea that you won't get it if you buy any other name can be put off on you.

The Voice

Is easily injured - the slightest irritation of the throat or larynx at once affecting its tone, flexibility, or power. All efforts to sing or speak in public, under such conditions, become not only painful but dangerous, and should be strictly avoided until every symptom is removed.

Ayer's Cherry Pectoral

The best of any type, this preparation rapidly soothes irritation, strengthens the delicate organs of speech, and restores the voice to its tone and power. No singer or public speaker should be without it.
