FACTS ABOUT THE TEA WE DRINK.

Not few people know that there is such a thing as a poisoned tea in existence, and fewer have seen it. Not that it is of all teas the most poisonous, but it is so dangerous. You can see how it is that it is not offered for sale and that you know nothing of it. That is the saddest part; but it is necessary to present some few facts. The public only hears here and there, via, the grocer and the black tea.

Green Teas. Few people know that the bright bluish-green color of the ordinary tea is exposed to the sunlight as the tea is not the natural color. Unpleasant as the fact may be, it is nevertheless a fact that the tea is not the natural color. Unpleasant as the fact may be, it is nevertheless a fact that the tea is not the natural color.

Black Teas. The basket and pan-fried Japan teas, as well as the China teas that may be included under the general heading of "black teas," get their color from the firing or roasting process, but mineral coloring matter is also frequently used to give a certain desired commercial appearance. The firing and the coloring, as in the green teas, largely conceal the identity of the tea, and permit the use of the very cheapest tea, to argue nothing for the deteriorating effect of excessive firing, which must be repeated to what a very cheap product is used and an extreme color desired.

The Voice

Is easily injured—the slightest irritation of the larynx at once affecting its tone, flexibility, or power. All efforts to sing or speak in public, under such conditions, become not only painful but dangerous, and should be strictly avoided until every symptom is removed. To effect a speedy cure no other medicine is equal to

Ayer's Cherry Pectoral

The best of medicines, this preparation rapidly soothes irritation, strengthens the delicate organs of speech, and restores the voice to its tone and power. No singer or public speaker should be without it. Lydia Thompson, the famous actress, certifies: "Ayer's Cherry Pectoral has been of very great service to me. It improves and strengthens the voice, and is always effective for the cure of colds and coughs."

"Upon several occasions I have suffered from colds, causing hoarseness and entire loss of voice. In my possession of an influenza which affected the voice or throat is a serious matter, but at each attack, I have been relieved by a few doses of Ayer's Cherry Pectoral. This remedy, with ordinary care, has worked such a

Magical Effect

that I have suffered very little inconvenience. I have also used it in my family, with excellent results in coughs, colds, etc." "In the spring of 1888, at Portsmouth, Va., I was prostrated by a severe attack of typhoid pneumonia. My physicians exhausted their remedies, and for one year I was not able to even articulate a word. By the advice of Dr. Shaw I tried Ayer's Cherry Pectoral, and to my surprise and great joy, in less than one month I could converse easily, in a natural tone of voice. I continued to improve and have become since a well man. I have often recommended the Pectoral, and have never known it to fail."—George H. Lawrence, Valparaiso, Ind.
