

IT MEANS SOMETHING.

The tariff bill introduced by Springer, and reported favorably to the house by the ways and means committee, is one of great significance.

The ways and means committee will report three tariff bills to the house during the present week. The measures to be reported are the Springer free-wool bill, the Bryan free binding twine bill, and the Turner bill placing cotton ties, cotton bagging and machinery for making the same on the free list.

The French have placed so high a duty on pork that the people in and around Paris have been driven to the use of horse flesh in large quantities.

Mr. Morell Mackenzie's household expenses were very great. He kept sixteen servants, besides a private coach for himself and another for his wife, and spent every cent of his \$60,000 yearly income.

If, as now seems likely, the national democratic convention shall drop all New York candidates, then, on a sound tariff-reform and honest-platform, we believe that any one of the following-named nine gentlemen can unite the factions, carry New York and be elected president of the United States.

No protective organ has yet undertaken to explain why the administration has contracted to give the German manufacturers free wool and the German people untaxed clothing, while our own manufacturers are taxed 12 cents a pound on wool needed for admittance and our own people are taxed 49 1/2 cents a pound and 60 per cent in value upon their clothing.

It is proper to say that when you have found a man who doesn't see any difference between the democrats and republicans on the tariff question and who undertakes to make people believe this by making such statements in the columns of newspapers, or in quasi public speeches, you have found one who is either a fool or a dishonest demagogue. It is a safe rule to watch such men.

The house committee on the election of president and vice-president and representatives in congress have agreed to report a bill leaving the election of senators to the people and conferring the exclusive power on the state legislatures to fix the time, place and manner of holding such elections.

Maude Granger's reputation is so thoroughly established that comment is hardly necessary. There should be a big house Friday night to see this popular actress with a first-class troupe in the Creole.

The Oregonian quotes an article from the American Economist, (The Economist is the paid organ, the hiring of the Protective Tariff League) to show that tin is no higher now, and not so high in fact, as it was before the passage of the McKinley bill.

If Gen. Palmer, Governor Boies, Wm R Morrison, Senator Carlisle and Governor Pattison with their friends, (a mighty host,) should join together to prevent the nomination of Hill, in order that one of their own number might secure the prize, they could not do such effective work to that end as Hill and his friends in New York are doing.

Hill's defeat is accomplished largely by his own overreaching. Cleveland's defeat is probable. Carlisle, Governors Pattison and Boies, Gen Palmer, Ex-governor Campbell of Ohio and others are now being quite extensively discussed. Meanwhile the lack of harmony in Washington among democrats keeps on apace.

The French have placed so high a duty on pork that the people in and around Paris have been driven to the use of horse flesh in large quantities.

Women.

The common afflictions of women are sick-headaches, indigestion and nervous troubles. They arise largely from stomach disorders. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation, you can see why it is more effective than any other sarsaparilla in those troubles. It is daily relieving hundreds. The action is mild, direct and effective. We have scores of letters from grateful women.
