

Linkville Oregon is hereafter to be called Klamath Falls...

Mr Leadbetter, a leading republican from Idaho tells the Oregonian that the outlook for republican success in that state this fall is gloomy.

The Portland Dispatch is very much opposed to a fusion county ticket between democrats and independent republicans in Multnomah county.

Replying to an inquiry we would say that Samuel D McEnery was governor of Louisiana from 1880 to 1888 and that John McEnery was governor from 1874 to 1877.

The biggest campaign story yet telegraphed from the east to the Oregonian is the one that it is probable there will be two democratic candidates for president.

We make a prediction that will be verified in November if the opportunity for verification is given: Grover Cleveland will carry New York state by a good majority if nominated for president.

The state election in Rhode Island will occur the 6th of April. According to the New York World the republicans are well united while the democrats have many factional strifes on hand.

Linn county gave \$40,000 for one bridge last year, and her taxes are only eighteen mills. Very strange, isn't it?—West Side.

The house elections committee has decided to seat Noyes, the republican contestant from New York, and unseat Rockwell, democrat.

The wool industry of Great Britain is constantly on the increase, though unprotected by tariff duties. With a population averaging nearly 300 to the square mile, she still finds room to pasture and feed 240 sheep to the square mile, and the number grows year by year.

The McKinley bill was to a certain extent a tariff-retort bill. It placed sugar on the free list and gave the people cheaper sugar.

Well, yes, the "reform" features of the bill was the free trade feature in sugar. Yes, it put sugar on the free list and gave the people sugar. This move, so far as sugar is concerned, was and is free trade pure and simple.

A DIFFERENCE ON FUSION.

The republicans of Kansas are "alarmed." It is said, over the fusion effected in their state between the democrats and the people's party, representing a majority of over 60,000 at the last election.

The chief trouble with this scheme is that it cannot be made to work.

In none of these states has the third party made any show in the recent elections. In Georgia the democrats had a clear majority of nearly 60,000 in 1888. In 1890 there was no opposition to the democratic ticket, which polled 105,000 votes, or 5,000 more than in 1888.

In none of these states is there anything to fuse against the democrats. Not only so, but in every southern state save Kentucky the democrats had a majority over all in the last elections.

WHAT REPRESENTATIVE MITCHELL SAYS

"If the Chicago nominee is not acceptable to the German element in Wisconsin we cannot carry the state," said representative Mitchell of the Milwaukee district.

Everlastingly in it. F. K. also. If not, why not.
