

"THE TINPLATE LIAR ABOARD"

Three thousand tons of tin plate are being shipped from Swansea on the steamer Massachusetts for the United States. It is to be hoped this evidence of continued vitality in the celebrated Welsh industry will prove soothing to the democratic mind.

The majority proportion of "soothe" spoken of in the above is removed by the fact that this is the only consignment of any size made since the McKinley bill took effect. That just knocks the soothe all out of that article. Newport Times.

What are the facts about importation of tin plate and tin?

For the twelve months ending Dec. 31st, 1891 there were imported into this country tin or terne plates 734,425,267 pounds and tin in blocks or bars 2,969,274 pounds. We challenge dispute of these figures as they are taken from the record. Verily the tin plate liar is trying to "get in his work."

Walt Whitman, the poet, is dead.

Consistency, thou art a Jewel. Matthews & Washburn keep the Jewel and other first-class stoves, and there is no better way to be consistent than by investing in one of them. Matthews & Washburn's motto is to keep the best, and their prices are always reasonable. Large sales speak for the manner in which these facts are appreciated through Linn county.

"German Syrup"

Martinsville, N.J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Threat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." Rev. W. H. HAGGARTY, of the Newark, New Jersey, M. E. Conference, April 25, '90.

BRONCHITIS

Is an inflammation of the bronchial tubes—the air-passages leading into the lungs. Few other complaints are so prevalent, or call for more prompt and energetic action. As neglect or delay may result seriously, an effective remedy should always be at hand. Apply at once a mustard poultice to the upper part of the chest, and for internal treatment, take frequent doses of

Ayer's Cherry Pectoral

C. O. Lepper, Druggist, Fort Wayne, Ind., writes: "My little sister, four years of age, was so ill from bronchitis that we had almost given up hope of her recovery. Our family physician, a skillful man and of large experience, pronounced it useless to give her any more medicine, saying he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can truly say, with most happy results. After taking a few doses she seemed to breathe easier, and, within a week, was out of danger. We continued giving the Pectoral until satisfied she was entirely well. This indisputable evidence of the great merit of Ayer's Cherry Pectoral has given me an unbounded confidence in the preparation, and I recommend it to my customers, knowing it cannot disappoint them."

"Ayer's Cherry Pectoral cured me of a bad cough and my partner of bronchitis. I know of numerous cases in which this preparation has proved very beneficial in families of

Young Children,

so that the medicine is known among them as 'the mother's friend.'—JAMES KURTZ Vidal, San Cristobal, San Domingo.

"A short time ago, I was taken with a severe attack of bronchitis. The remedies ordinarily used in such cases failed to give me relief. Almost in despair of ever finding anything to cure me, I bought a bottle of Ayer's Cherry Pectoral, and was helped from the first dose. I had not finished one bottle before the disease left me, and my throat and lungs were as sound as ever."—Geo. B. Hunter, Altoona, Pa.

A Revelation.

Few people know that the bright bluish-green color of the ordinary tea exposed to the windows is the natural color. The green color of the fact may be, it is nevertheless artificially mineral coloring matter being used for the purpose. The effect is to make it look like a real tea. It not only makes the tea a bright, shiny green, but also permits the use of "off-color" and worthless teas, which, once under the green cloak, are really worked off as a good quality of tea.

An eminent authority writes on this subject: "The manipulation of poor teas, to give them a finer appearance, is carried on extensively. Green teas, being in this country especially popular, are prepared to meet the demand by coloring cheaper black kinds by gazing or faking with Prussian blue, titanium, gypsum, and indigo. This method is so general that very little genuine unadorned green tea is offered for sale."

It was the knowledge of this condition of affairs that prompted the placing of Beech's Tea before the public. It is absolutely pure and without color. Did you ever see any genuine unadorned Japan tea? Ask your grocer to open a package of Beech's, and you will see it, and probably for the very first time. It will be found in color to be just between the artificial green tea that you have been accustomed to and the black tea.

It draws a delightful canopy color, and is fragrant that it will be a revelation to tea-drinkers. Its purity makes it also most economical than the artificial teas, for less of it is required per cup. Sold only in packages bearing this trade-mark.
