JUDGE SHAW.

The democrats of this district did well in nominating for circuit judge Hon J J Shaw, of Saleni. It would be hard to find a man better qualified for the position or one whose nomination would give better satisfaction to that class of independent voters who believe that ability and integrity, rather than partisanship, should rule in our courts. The judge is so well known in Marion that a personal description is unnecessary. His official career here is one of the few bright spots in county management. He was county judge from '78 to 82' and during that time he gave Marion county an administration noted for its economy and retrenchment, while at the same time none of the material interests of the county were neglected. When he assumed office the county was over \$40,000 in deb', and county warrants were at a very heavy discount. For this latter reason everything the county purchased was paid for at a high rate, and on every contract made the county

was a big loser. During his term he brought the county's credit up to par, paid off the entire debt, left a surplus in the treasury, and reduced the county's taxes nearly five mills on the dollar. In addition to this he supplied every road district in the county with recapers, something they had previously been without, Severe storms and floods chuied the loss of bridges and these were replaced, the bridge at Aurora being substituted by a fill, avoiding further expense at that point. Judge Shaw was a candidate for re-election; but the republicens worked a very clever scheme when they nominated a gentievan of the same name, who received the votes of many republicans who thought they were voting for the incumbent, and in this manner he was defeated by a small majority. In 1886 he ran for circuit judge against Jadge Boise but was defeated by a few votes by that able friend of the farmer. Judge Shaw has a bost of friends in the republican party throughout the district who will no doubt support him in preference to his young opponent .- Mation County Democrat,

We regard the nomination of Judge A S Bennett for judge of the supreme court as one of the wisest acts of the democratic convention. Mr Bennett is so well and so favorably known in this county that he needs no introduction from us. In fact the people here are still wont to call him a Crook county boy and claim him as their own. Mr Bennett, as all know, is an exceptionally able lawyer, and the majority that the comocrats will roll up for him next June will make him know that he is in it, so far as this commonwealth is concerned,-Prineville News,

From the way some of the Hill papers talk we infer that they imagine that if he he nominated they will not need the as sistance of Cleveland and his friends, and the same may be said about some Cleve-land papers. In this they are mistakened, To elect either will require the hearty, united strength of the whole party. To democratic papers, our admonition is to get ready to do all in our power to elect the nominee of the convention whether Cleveland, Hill or any other man who may be chosen,

The many friends of Hon 11 11 Gilfrey will learn with regret that he is likely to soon lose his place as reading clerk in the United States Senate. Mr Glifrey has filled this place for about twelve years and has proven himself one of the most attentive and efficient cierks that body has ever had. He is a democrat and must give wry as a republican wants the place. The senate will lose more than Mr Gillrey.

Mr L Webster, the republican candidate for attorney-general is now circuit judge a

NOT INSTRUCTED.

A subscriber wants to know "If the Oregon delegates to the national democratic convention were instructed for Cleveland, or are they personally in favor of Cleve-

They were not instructed for land." Cleveland. The convention voted down a resolution instructing for Cleveland and one instructing for Pennoyer. While the convention was strongly in favor of Cleveland, it would not instruct for him for the reason that in the whirligig of pelitles it inight he bad policy when the convention meets to nominate him. When the convention meets if good policy demands the nomination of Gorman, Russell, Palmer, Hill, Flower, Boles or any other man our delegates will not vote for Cleveland, nothwithstanding they are all personally favorable to the ex-president, The convention in a very hearty, enthuslastic spirit endorsed the administration of Grover Cleveland and also that of Gover' nor Pennoyer, but it refused alike to instrict for either governor or for Cleveland, thus leaving both on the same footing so far as the convention was concerned.

Judge R P Bolse has been set aside by the republican "ring" for circuit judge, and I G Burnett, of Salem, a man almost wholly unknown to the profession in this judicial district, substituted in his stead. The democratic nominee should be elected by all means, that we may have a court well worthy to succeed Judge Boise .-West Side.

For some reason, we know not what, the Portland Daily Dispatch and the Et gr m, since the state convention, have a kind of disgruntled way of saying things. Our cotemporaries should bear in mind that the democratic party in Oregon is much larger than any one man, or any dozen men in it.
