A Revelation.

Few people know that the bright bluish-green color of the ordinary tea exposed to the windows of the natural color. Improvement in the fact may be, it is nevertheless artificial; natural coloring matter being used for its purpose. The effect is twofold. It not only makes the tea a bright, shiny green, but also permits the use of "oil-color" and washes tea, which, once under the green clouds, are really worked off as a good quality of tea.

An eminent authority writes on this subject: "The manipulation of poor tea, to make them a finer appearance, is carried on extensively. Green tea, being in this country especially popular, are prepared to meet the demand by coloring cheaper black kinds by mixing or faking with Prussian blue, titanium, system, and indigo. This method is so successful that very little genuine uncolored green tea is offered for sale."

It was the knowledge of this condition of affairs that prompted the planting of Beech's Tea before the public. It is absolutely pure and without color. Did you ever see the genuine uncolored Japan tea? Ask your grocer to open a package of Beech's, and you will see it, and probably for the very first time. It will be found to color to be just the sweet, artificial green tea that you have been accustomed to and the black tea.

It draws a delightful canny smile, and is fragrant that it will be a revelation to tea drinkers. Its purity makes it also most economical than the artificial tea, for it is of it is required per cup. Boldness to purchase bearing this true name.

"Pure As Childhood" BEECH'S TEA. If your grocer does not have it, he will get it for you. Price 50c per pound. For sale by ALLEN BROS.
