Daily Democrat.

THE NATIONAL DEST.

An exchange, speaking of the bankrupt condition of the United States treasury says that Secretary Foster is reported as saying to an interviewer that he does not think the Demcerats will issue any new bonds. "I do not think," he said. "any party wants to take the responsibility of increasing the public dels, which we have striven to reduce to save the inferent."

The attempt to make it appear that if bonds are issued the Domocrats will be responsible for the new public debt is a bit of impudent pettifogging which, is to be regretted, is entirely worthy of the present Secretary of the Treasury. If the Democratic party, while in control of the Government, is forced to issue new Londs, It will be because the Reputs lican party ran the Government into debt and made necessary the sale of honds in order to preserve the country's credit.

In round numbers the Billion Dollar Congress appropriated \$1,035,000,000 and enacted laws which increased the necessary anual expendlures by about \$42,000,000. At the beginning of the present fiscal year there was a deficiency of nearly \$47,000,000, so that at the end of the year the Treesury cannot have met its obligations by nearly \$99,000,000.

This is the legacy which the Republican Administration will leave to Mr Cleveland and a Democratic Congress. The country knows the artfal means by which Mr Foster has endeavored to hide the treth. He has not succeeded. And he will not succeed in his attempt to make the people believe, if new bonds are issued to pay for Republican extravagance, that the party which thus satisfies the Government's creditors is the spendtnrift that created the debt.

Mr Foster speaks of the Harrison's pay-ments on the public debt as if the finances of the country had been exhausted in that effort.

The first Cleveland Administration found in the Treasury \$20,965,444 in cash. It left \$48,096,159. In the meantime it paid off \$338,042,830 of the interest hearing public debt. Add to this the \$27,130,715 increase in cash on hand in the Treasury and we have as a total reduction of debt \$365,175.545.

The revenues of the Harrison Administration have been \$100,000,000 greater than those of the Cleveland Administration, and yet its reduction of interest bearing debt has been only \$259,675.840. In order to find the real decrease of debt we must ceduct the deficiency of \$47,000,000 which leaves \$212, 075,840 as a result of Republican effort in this direction.

Therefore the delst reduction during the four years of Mr Cleveland's Administration was greater than that during Mr Harrison's by more than \$153,000,000.

These are the facts and figures, and Mr Foster will discover, if the new debt with which his party has saddled the country cannot be paid by retrenchment in expenditures or increased revenues, that the Democrati will not hesitate to keep the faith of the Government which he and his party have endangered by issuing what-ever new bonds billion dollar extravagance has neccessitated,

Considerable alarm has been created among English working people by the report that the United States is about to pass a law stopping immigration altogether. It is feared that as wages are higher in England than on the continent, the tide will turn altogether in this direction. Al-ready the influx of foreigners, and especially of Russians and Poles willing to work for small wages, has had a perceptible effect upon the labor market and many Englishmen feel that they are out of jobs because the Russians and Poles have found jobs. There is also a large influx of Russian and Polish women who are gradually drifting into employment as servants and in other domestic capacities, the lower rate of wages paid them being compensa-tion to employers for their ignorance of the language. Thus both English men and wemen are being driven out of work by immigration.

The only class that favors free immigration is

n one of their candidates who was heaten by the leading Democrat, No bird can fly backward without turning. The dragon fly, howsver, can do this and out-

strip the swallow in speed . Or. Philadelphia's police force is a man

worth \$150,000 whose income is about \$15, 000 yearly, outside of his \$20 a week pay.

A Russian expedition is now in Siberia preparing for the transportation of a mammoth, which was discovered frozen in the ice, and in a perfect state of preservation."

The recent increase in wages at the Fall Rivermills means an additional annual distribution among the operatives of \$Soo,coo

The most recent estimate of the capital in vested in the electrial industries in the United States places it at \$720,000,000,

It is said that the sunset of each day wit-

nestes an increase of the wealth of the United States by \$2,300,000 over what it was at sunrise on the same day.

If nature abhors a vacuum what must be her feelings towards the Treasury of the United States as it has been managed by the

party which is about to retire frem its control The richness of some of the ores found in Tasmania is marvellous, Recently some Zeehan chloride was twice tested by private analyses and found to assay nearly 20,0000 ounces of silver to a ton.

Senator Carlinle puts the financial situation of the Government with his usual felicitous clearness. He says "there is an accumulation of deficiencies in the Treasury." And there is no accumulated cash to pay them. This s the precise situation.

Thus far the only woolen manufacturer who has expressed much serious apprehension at the improved prospect for free wool is one whose goods, when analyzed, were found to contain a filling made of 921/2 per cent of cotton and 71/2 per cent of shoddy. He may well feel alarmed. The power to force such clothing upon the American people will be lost when wool is free.

The original Ba'dwin apple tree was discovered in Wilmington, Mass, in 1874. In 1835 it was recorded that William Winn of Woodburn sold 400 barrels of Baldwin apples to a dealer in Faneull Hall Market, Boston, which was said to be the largest crop raised by any person at that time.

The official count of the vote in New York state is as follows: Cleveland 653.903, Harrison 608, 230, Bid aeli 23, 107, King, Social-1st 5,037, Weaver 6.935. Cleveland over Har rison 45.670. Cleveland's vote in 1588 was 635,757, Harrison 648,759, Fish 30,231.
