Dr Fuller is in California for the benefit of his health, Mrs Fuller is in McMienville attending to a sick daughter, and Mrs Humbert, another daughter, will be in Albany tonight to keep track of her brother, the live young clerk in Conn & Hendrisson's.

THE NEXT LEGISLATURE.—The legislature meets January 9 The recapitulation of the joint ballot shows 90 members, of which 54 are republicans, 28 democrats and eight are citizen's, people's and democratic fusion, but there is a possibility the republicans may lose one vote in the house, as an Eastern Oregon representative (republican) has resigned and the unsofficial count of the vote of the special election shows a tie between democratic and republican candidates. It will take an official count to settle it. Should the republicans lose this one they will still have 37 in the house to the democrats' 18. In the senate they have 16, the democrats' 11. Those mentioned for president of the senate are Edward Hirsch, of Salem, and C W Fulton, of Astoria, with the majority apparently in favor of the Marion gentleman. For speaker of the house, J A Wright, of Union, O F Paxton and W P Keady, of Multiomah, and ex-Speaker T T Geer, of Marion, are in the race.—Ex. THE NEXT LEGISLATURE.-The legis-

MEHAMA. — Mehama has a graded school, two churches, two Sunday schools, two prayer meelings, a Y P SC E society, a G A R post, a Ladies Aid Society, Womans Relief Corps, a brass band, livery stables, drug store, general merchandise store, wagon shop, blacksmith shop and a hotel. It now wants a grist mill and tannery. Any person wishing to build either will have the land given to them to build on and a fine water power with little expense. Persons going to mill have to go to Stayton a distance of ten miles. And a tannery built here would be within easy teach of a fine grove of hemlock timber.

Mrs Mutin of Albany was in town Sat-urday inspecting the Relief corps, which she reports in good shape.—Cor, Salem

AMONG THE ROBBERS .- Mrs J C Bush AMONG THE ROBBERS,—MIS J C Bushnell, of this city, was a passenge on the Northern Pacific train that was held up near Rock Springs, Wash, last week. She war returning home from Eliensburg. She states that the first she knew of their presence was when they placed a pistol before her, and on seeing she was a woman told her to keep still. They did not rob any of the lady passengers. The negro porter was near her birth and when the robber told him to throw up his hands he was badly frightened and put up but one. The robber stouted to throw up the other one and the fellow fainted and fell on the floor. There was considerable exon the floor. There was considerable ex-citement in the car, but it was soon over with, -Eugene Register.

A TURKEY'S STOMACH,-"How much" asked Dr Stanley, coming into a crowd, "will the stomach of an ordinary turkey hold—how much water?" Some guessed hold—how much water?" Some guessed a pint, some a pint and a half, others a quart and none higher than a quart and a half. The doctor's son Charley, while dressing a thanksgiving gobbler had cleaned and filled with water the stomach of the bird and on measuring the flui-found it to be just seven quarts.—Dallas Transcript. ### HOME AND ARROAD

Dr H A Davis, of Harrisburg, closed in Eugene a #21 000 land deal to Spokane parties Tuesday. The land lies between Coburg and Harrisburg.

Complaint is made about the terrific con-dition of some streets being niled in with mud and water in the Third ward. They are pronounced unpassable and worse than a country read. country road.

Alony is becoming the home of blooded dogs. Postmaster Monteith now owns a full blooded, registered Mas if, brought from Portland yesterday. He will rank as a protector with any of the cannes.

During two nights the opera house and court house were packed with citizens of Altany, showing that we have the people and are a city for a fact.

The Postmaster-General of Norway has ordered that after Jan 1, 1893, the bicycle shall be used by all country postmen for the delivery of mails where the roads will permit. Good roads and a free delivery will yet be one of the cries of a political party in the United Stater.

AT LAST,—It looks as if the Indian depredation claims presented by residents of thislocality, which have been hanging fire for a long time and have occasioned the visits of several government agents to Pendleton, will soon be settled by Uncle Sam. It is reported that several parties are receiving vouchers, which, after being duly signed, will be followed by warrants. The names of two were learned. Last Saturday. Frank S Landry received a youcher for \$941. During the Indian war of 1878 the redskins destroyed his house and all its contents. He was then residing on Owen's creek, about midway between Willow Springs and Beasley's mill. Mr Landry found it convenient to be absent about the time the Indians made tuelr informal call. G D Richardson is also in receipt of a voucher. He will be prid about \$200 for property which the siwashes confiscated.—Pendleton E. O. AT LAST,-It looks as if the Indian

It Won't Work In Albany.—When Professor Stoddard's famous art work, 'Glimpses of the World' was first thrown upon the eastern markets two months ago the sale of all those inferior publications such as "Photographs of the World," etc, were at once paralyzed. The publishers had nothing else to do but to send their agents west, where the new publication was unknown. But Messrs Seibly and Blumer, representing the new Stoddard album, have just arrived in Albany and our people wil' be posted enough to insist upon the name of Stoddard appearing as the auther of the Art Album which for they subscribe.

It is said the election of Pierce as one of the presidental electors will be contested, What for anyway?

According to the Transcript a very remarkable accident occurred at Dallas: There were seven of them—all manly looking young men, and they were fearfully dry, if it was Sunday. After rustling manfully for an hour or more—try, ing all the front doors, likewise the back doors, they gave it up and departed—whither this scribe knoweth not.

It is reported that a wonderful lafan was recently born in Lee county, Va. It had teeth and a magnificeat head of hair. In a clear voice it said: "Time here is short." It then closed the eyes and died. Naturally this wonderful phenomenon, taken in connection with the prevalent feeling about the corret, frightened the negroes, and they thought the end was about here.

An instance of what may be accomplished by the pcor, down trodden farmer of the Pacific Northwest, is given by the Athena Press, which says: "Chas Brown purchased at the reservation land sale last spring 160 acres of land, five miles this side of Pendicton, for which he paid \$130. This year he harvested a crop from it which paid for the land, the improvements he had made upon it and bad a little left for this year's work, and last week sold the land to j N I Snyder for \$4000.

Steam was turned on at the new pumping station yesterday and at 10'clock p m
the pumps were started. The smaller
pump which has a capacity of 36,000 galions per hour, was the only one used and
the water was pumped into the mili race,
except about 5000 gallons pumped to the
reservoir. This was done for the pumpose
of cleaning the well. The first hour the
pump was worked, it lowered the water in
the well 2 feet, the well having about twelve
feet of water when pumping was begun.
It was estimated the pump was discharging
at the rate of 30,000 gallons an hour, but
from 2 o'clock till 5 it was impossible to
lower it more than 1½ inches further.
The large pump has a capacity of 62,000
gallons per hour and will be attached and
both will be worked together and all the
water pumped out if possible.—Guard.

Here is some newspaper pleasantry from the Dallas Transcript: The West Side has adopted a style of dishing out its locals under a heading for each day of the week. The effect of it may be better illustrated by a figure made by skipping from column to column, something as follows: "Monday—Bill Doolittle fell over the fence, Tuesday—When Bill Doolittle fell over the fence he sprained one of his ears. Wendesday—Bill Doolittle, who fell over the fence and sprained one of his ears feels all broke up. Thursday—Bill Doolittle is still recovering nicely. Saturday—Bill Doolittle is still recovering nicely. Saturday—Bill Doolittle, who was all broke up by failing over the fence and spraining one of his ears Monday, was able to go to the mountains hunting today.

# AN OPEN LETTER.

I have for the past two years been afdieted with chronic pericarditus, accompanied all the time by great pains around the heart, with excessive circulation, sleepless nights, fear and distress. I was unable to attend to the duties of my profession. I had exhausted my knowledge of medicine, as also that of my colleagues, and found no relief until coming under the electro-magnetic treatment of Drs Darrin. A little more than a month elapsed since I received this treatment, and I can truthfully say that I am cured. I have none of my former troubles, and wish thus to give my personal experience in the interest of humanity. I have been a practicing physician fourteen years' and am well known in this city and Marsfield, Or. I deem it but just duty to the public and Drs Darrin to write the above.
