A Steel Windmill and Steel Tower every 3 minutes. Those figures tell the story of the ever-growing, ever-going, everlasting Steel Aermotor. Where one goes others follow, and we "Take the Country."

Though sold, we were unable to make all of the 20,049 Aermotors in '91. Orders often [illegible] to be filled, but now we have vastly increased our plant and are prepared promptly to meet our increase in every available portion of the globe.

Are you curious to know how the Aermotor Co., in the 6th year of its existence, came to make many times as many windmills as all other makers combined? How we came to originate the Steel Wheel, the Steel Fixed Tower, the Steel Tilting Tower?

It's We conquered in a field in which there had been no improvement for 25 years, and in which there seemed no talent or ambition, and none has yet been shown, except in feeble imitation of our inventions.

It Before commencing the manufacture, exhaustive scientific investigation and experiments were made by a skilled mechanical engineer, in which over 5,000 dynamometric tests were made on 61 different forms of wheels, propelled by artificial and therefore uniform wind, which settled definitely many questions relating to the proper speed of wheel, the best form, angle, curvature and amount of sail surface, the resistance of air to rotation, obstructions in the wind, such as heavy wooden arms, obstructions before the wheel, as in the vaneless mill, and many other mere absolute, though not less important questions. These investigations proved that the power of the best wind wheels could be doubled, and the AERMOTOR daily demonstrates it has been done.

It To the liberal policy of the Aermotor Co., that guarantees its goods satisfactory or pays freight both ways, and to the enormous output of its factory which enables it to furnish the best article at less than the poorest is due the fact that to-day we furnish the most perfect bearings ever put in a windmill, and have made an exhaustive revision of the Aermotor and Towers.

If you want a strong, still, Steel Fixed Tower—if you want the tower you don't have to climb (the Steel Tilting Tower) and the Wheel that runs when all others stand still, that runs you less than wood and lasts ten times as long (The Steel Aermotor) or if you want a Geared [illegible] etc., etc., cut feed, pump water, turn grindstone, saw wood, that does the work of 4 horses at less than one cent per hour, write for copiously illustrated printed matter, showing every conceivable phase of windmill construction and work, to

SCROFULA 12 YEARS

Always Sore. Burned Like Fire. Ashamed to be Seen. Got Worse Under Bear Doctors. Cured by Cuticura.

For about ten or twelve years I have been afflicted with scrofula. My head was always sore, and my skin was dry and scaly, and I turned like fire in the sun. My body has been spots on it, and I did not know what to do. I have tried four different doctors, and they helped me a little in the fall I would get worse than I was before. I have tried remedies, but they did me no good. I was ashamed to go into public, for fear people would stare at me. I would say, "What is the matter, why don't you take something to cure it?" I would wash my face and hands to keep the dirt from getting into the sores. After I would wash, I would be covered with red pimples all over my neck and face. Some of these people advised me to try the Cuticura Remedies. I did try them, and am now a well man. Glad to say I have had no return of my old trouble since. I cannot praise the Cuticura Remedies too highly. I enclose my portrait.

LEWIS W. EATON, Lorain, O.
