MISSISS.

The race for the presidency of the Oregon senate is told to the between Lawyer Fulton of Astoria and Edward Hirsch, a business man of Salem.

Equal and fair assessments and public roads are important subjects for the next Legislature to consider. Let the legislators put their genius to matters that will do some good to the people.

It is announced that hereafter Yale college will require a certain literary education in order to be admitted to that college. That is unkind. The general impression seems to prevail that there is nothing there but foot-ball.

At the revival at the Methodist church in Eugene, forty-two have been converted. Thirteen were converted Christmas day and night, the audience remaining until three o'clock in the morning. Seekers continued to go the altar until midnight.

While the great republican majority went down with a crash and even Jerry Simpson's robust morality wasted to a sickly shadow, it is pleasing to contemplate the spectacle of one man whose popularity is constantly increasing. The prosecuting attorney of Kalkaska county, Michigan, was elected in 1886 by a majority, in 1888 by 2 and this year by 4.

The New York Journalist contains the following: "A new paper was started in Portland a week ago by a man by the name of Handy. It was called the Spectator. Handy furnished the experience and J. P. Fuller the capital. One issue was got out, and then Mr. Handy skipped, leaving Mr Fuller in possession—of the expenses—and badly Handy-capped. The chap who assisted in getting up Albany illustrated.

An ex says: Rev I D Driver, D. D., is one of the pioneer preachers of the Northwest. Dr Driver used to travel through the mines of eastern Oregon and Idaho. He was well known in all the famous mining camps, and was well liked by the miners. When he went into a camp he would be tendered the use of the largest saloon in the place for preaching, and would always secure immense congregations of the miners, who listened respectfully to his scathing denunciations of their evil practices.

A GREAT INVENTION.—Is the self pouring coffee and tea pots. With them you can pour coffee or tea without turning the pots. Wonderful. None of the hundred little inconveniences of the old fashioned way. Coffee cooks sure and pure and cannot burn, and tea to perfection. You raise the light lid and the coffee or tea runs from the spout. Myou would have the finest thing in the world order one when Mrs Tall, the local agent calls on ou.

TELEGRAPHIC NEWS.

A Great Scheme.

WASHINGTON, Dec 28.—Fourth-class postmasters throughout the country seem to have made a determined effort to secure the appointment of their friends by the democratic administration, or at least to put their friends in office and then see if the new administration will not retain them in these places. Fourth Assistant Postmaster General Rathbone has charge of the fourth class postoffice business. He has received many resignations from postmasters, and each one states that the man he recommends to succeed him is a democrat and that he has agreed to purchase the present postmaster's grocery store, or his business, if the appointment is made.

A Dynamite Explosion.

LONG BEACH CITY.—I. I. Dec 28.—Just in the rear of a row of tenements numbered from 21 to 29 Jackson avenue, is the entrance to the tunnel that the New York City & Long Island Tunnel Company is putting under the East river. The dynamite used in blasting froze last night, and when the men started to work this morning they tried to thaw it out. Taking three barrels of dynamite, they placed it behind one of the tenements and built a roaring fire beside it. The fire and dynamite were left alone while the men went down to the tunnel shaft. The fire burned nearer the dynamite than had been supposed it would and at 8 o'clock there was a terrible explosion. The men in the tunnel were not hurt, but persons living in the tenements made up the list of killed and injured, there being five killed and thirty wounded.

Stewart Talks.

NEW YORK, Dec 28.—Senator William M Stewart of Nevada, is in town. In an interview today he said: "The monetary question is a fraud. It won't amount to anything. If the republicans do not hurry up and pass a free coinage bill this winter they will not carry a state west of the Rocky mountains in 1896. If the democrats do not pass a free-coinage bill when they come into power the populists will elect the president in 1896. Free coinage will be the populist's principal issue."

A Portland Heir.

ALTON, Ill, Dec 28.—Interest is revived in the case of Mary E Murray, of Portland, Or, heiress to \$150,000, by a motion of her attorneys, filed today in the Alton city court, for entering the record of her legal adoption by Jacob Young and wife. Sufficient evidence has been established to prove her claim. The record is now the only missing link required to establish her right to the estate.

Insurgents Repulsed.

BUENOS AYRES, Dec 28.—Today's advices from the seat of insurrection in the province of Corrientes are most favorable to the government. The report that the town of Curuzu was captured by the rebels turned out to be without foundation. Insurgents numbering 1500 men made four assaults upon the town, but were repulsed with heavy losses by a garrison of 500 men.

The American on Tour.

LONDON, Dec 28.—Advices from Monte Carlo confirm the reported duel between an American and a Romanoff. The latter was shot through the heart, dying instantly. The Romanoff is believed to be the Grand Duke Nicolaievitch. The grand duke was an uncle of the czar.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the formation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have no much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
