GOOD EVENING.

SNOW BALLING —The boys have been now balling everybody almost, regardless, of age or nationality, using little discretion in the matter, among others having an extra dose for the Chinamen Last night a Mongolian went along the street with his hand on a revolver with the avowed purpose of shooting if not let alone. He was not disturbed Snow balling is all right, in the right place when the fight is even, and the contest fair; but it is cowardly to hit any one in the back, or older men, and Chinamen, anywhere.

Several boys this forenoon attacked a Chinaman belonging to the Ferry Street house, and it is claimed broke one of his ribs. An attack on Prof Torbett, of the College resulted in the Professor's glasses being broken. Complaint was made for warrants in each case; but it is always difficult to place the offenders, and no arrests had been made at press time.

A NOTICEABLE FACT.—It is a fact that has been noticed several times, that whenever there is a good prospect of the Oregon Pacific doing something the Oregonian particularly throws cold water on the Yaquina harbor. Just now the outlook is good and such an occurrence is noticed The Oregonian says a civil engineer has investigated the matter and reports that it would cost $3,000,000 to make a 25 foot channel at Yaquina. There is almost such a channel now, and the report is probably not true in any respect. In all probability it is manufactured for the occasion, in view of the present investigation taking place. The statement is a ridiculous one. It is undoubtedly true that Portland fights this improvement secretly in every manner possible.

WILL TAKE THE PASS.—Here is another from up the Santiam, nearer the authorities than we: It is reported that the C B & Q railroad company are surveying from Boise City this way and will come through the pass that the O P did intend to go through as they think that the O P has held that pass long enough and they want to get into Western Oregon to the Pacific Coast and as this is the most practical route and the shortest they propose to use that pass to get to the sea shore.

A DECISION REVERSED. — The suit brought by John Burnett against J R Markley et al, whose object was to prevent the treasurer of Benton county from paying to defendants $7219 for present owner books, was decided for the plaintiff by the circuit court, which decision was reversed by the supreme court. The plaintiffs did not show, as the constitution requires, in order to give them cause for action, that the expenditure for these books was voluntary and not made obligatory on Benton county by law.

DRUNKEN BOYS.—The Jefferson Review tells the following: We are informed by parties in attendance that at the dance given at Miller's station Friday night of last week, several lads from Albany, three of them not exceeding 12 or 14 years of age, were in a bad state of intoxication, having to be dragged from where they where they were lying stupefied, and placed in places of safety. Any dispenser of "bug juice" who sells the vile stuff to children deserves severe punishment, and in this case are liable to receive it.

BIG THINGS. — The San Francisco Chronicle is arranging to get out a World's fair edition of 1,000,000 copies. It will contain maps of all the states, and big writeups of any place paying for them, for instance, cities like Albany may be boomed for $1400. Oregon City proposes to invest, one man alone subscribing $200.

A GREAT INVENTION.—Is the self pouring coffee and tea pots. With them you can pour coffee or tea without turning the pots. Wonderful. None of the hundred little inconveniences of the old fashioned way. Coffee cooks sure and pure and cannot burn, and tea to perfection. You raise the light lid and the coffee or tea runs from the spout. If you would have the finest thing in the world order one when Mrs Talt, the local agent calls on ou.

READ Dr Lowe's final announcement in another column. He leaves on the 1st of February. He has fitted a number of people in Albany with glasses who could never be suited before. If your sight is defective see him at once. His office is with Dr Littler, the dentist.

MISCITS.

The railroad commissioners have the power to reduce railroad rates. The supreme court says so. The fact is a very important one.

It is a peculiar fact that there is only one living ex-president, and the same will be true after March 4th.

Talk about personal liberty. Missouri has a law which imposes a fine of $250 upon a qualified citizen who neglects or refuses to vote in that state, to which attention was recently called by the prosecution of B T Whipple, a wealthy resident of Kansas City, for having infringed it.

Immigrants are said to be waylaid on their way to this valley by confidence sharks of all kinds, possessing unlimited gall. Portland is the worst city on the way, and is cursed by some deep dyed rascals of this order. One villain recently followed a family clear to Corvallis, getting money on different pretexts.

Any one wishing to read something of a very peculiar nature should peruse the report of the state board of charities. A copy may be seen at this office. Every county and almost every town gets a benefit, on account of jails and poor farms as existing when the board made their tour of inspection, a year or so ago. The prevailing idea is that a criminal only deserves a fair kind of treatment. The board though would have things fixed up in a modern manner. They should, if possible, have late conveniences.

The Mill City Gazette comes out a day later than the Santiam Lumberman, hence has the last say. This is the dull season of the year, hence our reference to this rather unsavory quarrel; but here is some more from the Mill City Gazette: "The slobber chops of the Santiam Lumberman, accuses us of lieing about him, when he tells fifteen absolute falsehoods in his own article of this week. He makes some criminal intimations, which he may be called upon to prove. It may be possible that our readers are not interested in this newspaper war, but as we are in it, there is no telling when or where the fight may end." The following expressions also occur: Jumping jack, small claw tumble bug, kleptomaniac soupbone, tail of some comet, aurora borealis of the piscatory world, anyllistic display of versatile moonshine, squirming eel of the moss covered turf and muddy pool of disjointed brotherhood.

A PATENT ROAD.—A great deal is said about better roads. Here is a remedy from the Pacific Farmer: N S Biddle of Eugene has received a patent on a wagon road jor which he claims many things. Among them are that it is possible to make an easy grade up our worst hills; to prevent wagon ruts and chuck holes; that it requires no ditching or turnpiking and can be built at little cost. He also claims that a team or horse can draw twice as much on his road as on any other road now known, and so confident is he of its success that he is willing to give the plans and specifications for one mile of road and that will apply during 1893.
