

**Daily Democrat.**

Blotting paper is made of cotton rags, but in soda.

The first impeachment by the British House of Parliament, and the first of a lord chancellor, Michael de la Pole, Earl of Suffolk was in 1286.

Frost has a variety of effects on different products. Under the same influence eggs will burst, apples contract and potatoes will turn black.

The eyeball of the owl is immovably fixed in its socket, hence the look of wisdom that that bird always appears to have. In the horse an eye in which white predominates indicates a vicious nature.

Formerly sites for furnaces were often selected with a view to material being brought to the tops of the furnaces without any expenditure of power; nowadays the sites are chosen so as to admit of ready removal of the iron and slag in large quantities within a limited time, plenty of room and good drainage.

The first bell rung in America was erected on the first church ever built in this country, early in 1494. Columbus landed at Isabella, on the island of San Domingo, in December, 1493, and soon built a church. Shortly afterward a new city was begun in the royal plain at La Vega, and was called La Vega, or the City of the Plains. The church, with the bell, and all the other houses of Isabella, were then moved to La Vega.

The first porterhouse steak was so called in New York city, in the famous old tavern of Martin Morrison, at 37 Pearl street. This was a favorite resort for seafaring men. A steak being called for by an old pilot one night, Morrison said he had no steaks, but would cut and broil for him a thick slice from the sirloin which had just been prepared for roasting next day. Morrison's place was known as the Porter House in the neighborhood, and its frequenters soon got to talking about the Porter House steaks.

From an interested standpoint the Democrat is prepared to express the belief that the machine or Hill men are preparing to turn New York over in the near future to the republicans. These machine men are turning every Cleveland man in the state out of office or place, and so intense is their zeal in this work that they have turned down every laborer connected with the Capitol building who is known to be a friend of Cleveland. It looks very much like the democrats of the country will have to try and get along without New York hereafter. If the democrats of Indiana, Illinois and Wisconsin will deport themselves as becomes the friends of the people we will not particularly need New York in presidential conflicts hereafter.

Large ships were not unknown to the ancients, and some of the most roomy attained dimensions equal to ships of modern times. Constantius conveyed from Heliopolis to Rome an obelisk weighing 1300 tons, and in addition to this long-covered monolith, the ship carried about 1200 tons of pulse, stowed about the smaller end of the obelisk, in order to bring the ship on an even keel. In 208 B C Archimedes devised a marvellous ship for Hiero of Syracuse. Her three lofty masts had been brought from Britain. Luxuriously fitted sleeping apartments abounded, and one of her banquetting halls was paved with agate and costly Sicilian stone. Other floors were cunningly inlaid with scenes from the Iliad. Stables for many horses, ponds stocked with live fish, gardens watered by artificial rivulets and hot baths were provided for use or amusement.

We trust every wool grower in the United States will look into and seriously consider these facts: For the twelve months ending December 31st 1891, there were imported into the United States 139,317,571 pounds of wool and for the year ending December 31st 1892 there were 167,784,000 pounds. We mention this to show how well the wool grower is protected under the McKinley law. Now look at another fact and then say what should be thought of the Oregonian's repeated statement that the democrats will protect manufacturers and not producers. For the first year above named woolen goods to the value of \$34,010,945 were imported and for last year there were imported of such goods \$37,515,397 worth. Importation of wool increases while importation of woolen goods decreases. That tells the whole story.

**A LINN COUNTY MAP.**

Wm G Oberauer & Co are making a map of Linn county, which should be in every business house, public dwelling and school room in Linn county. The map accurately locates every city, town and postoffice, and rivers and creeks, shows voting precincts, townships, etc, shows the distance of each postoffice from Albany.

Cut out the following and mail to Wm G Oberauer & Co, 100 Front street, Portland, Oregon, and they will deliver you as many as you order.

Please deliver me \_\_\_\_\_ copies of your Linn county map for which \_\_\_\_\_ agree to pay \_\_\_\_\_ cents per copy on delivery of maps.

Signature \_\_\_\_\_ Postoffice \_\_\_\_\_

We suppose that, now the mortgage tax law is repealed, if a money lender who lives outside of the state should take a mortgage for money loaned in this state he would not have to pay any taxes here for the mortgage and note, being personal property, and, under the well principle of law, follow the person, would not be in the state and hence not subject to the jurisdiction of the state. But it will be different with citizens of this state who loan money and take mortgages. Being personal property, such notes and mortgages would follow the person of the owner and hence would be subjects for taxation. This is quite a discrimination in favor of foreign money lenders. Some money lenders would find it quite profitable to take up their residence in another state and then loan their money in this state.

The Harney Peak tin mines at Deadwood, South Dakota, and the Temescal mines in California were the only two mines in the whole country where it was alleged, (even by the friends of the McKinley bill,) that tin in paying quantities could be obtained. It was confidently promised by McKinley that his increase of the duty on tin would develop these into paying mines. The beauties of protection were proclaimed from every republican stump speaker in the land during the last campaign, and these mines were referred to as proof of the great benefits of protection. Well, the mines in California closed down indefinitely just after the November election, and now the mines of South Dakota have permanently closed. We trust the Oregonian will once more tell how the tin mines of this country will soon supply every demand for tin in the country.

One hundred and twenty of the heaviest manufacturing firms of San Francisco, most of whom are republicans in politics, have sent a petition to congress asking that in the revision of the tariff, iron ore, coal, coke, pig iron, scrap iron, and scrap steel be placed on the free list. Now these gentlemen, seeing that reduction of the tariff is a foregone conclusion are ready to rush in and secure the best benefits to result from such reduction and in doing so they manifest the true spirit of the scheme of protection—ask for something that will benefit themselves but ignoring the interests of all others. But this petition, though selfish, shows that the great restrictive and prohibitive Chinese wall is tumbling to pieces rapidly.

Flax was first planted in England, where it was directed to be sown for fishing nets, 1532-3.

Son of Harry K. Ruby, of Columbia, Pa.  
**Suffered From Birth Scrofula Humor**

"Until my boy was six years of age he was from birth a terrible sufferer from scrofula humor. Sores would appear on him and spread until as large as a dollar and then discharge, followed by others, so that the larger part of his body was one mass of sores all the time, especially severe on his legs and back of his ears and on his head. The humor had a very offensive odor, and caused intense itching. We cannot tell how that poor boy suffered in all those years. Physicians did not effect a cure. At last I decided to give him Hood's Sarsaparilla, as my druggist recommended it. In about two weeks the Sarsaparilla began to have effect. The sores commenced to heal up; the flesh began to look more natural and healthy. Then the scales came off and all over his body new and healthy flesh and skin formed. When he had taken two bottles he was entirely free from sores, having only the scars to show where they had been. These have all disappeared. We are unable to express our thanks for the good."

**Hood's Sarsaparilla**  
has done our little boy." HARRY K. RUBY, Box 356, Columbia, Pennsylvania.

HOOD'S PILLS cure Constipation by restoring the peristaltic action of the alimentary canal.

**GOOD NEWS**

**The Forum.**  
"THE FORUM" is the United States what THE NEW YORK TRIBUNE is in England, and more—uncomparably the best thoughtful periodical we have ever had.  
THE FORUM contains articles about what men are now doing in the world. The problems and the tasks of your own life and thought, and of our own country, and of our own time; the education of your children; the latest results of research in your own special study; the great movements of the period; the real leaders; the large movements—are these not the most interesting subjects? The secret of THE FORUM's hold on its readers is that its writers make it helpful to all who think. Its readers form the dominant part of every profession, craft, and class—those who are succeeding because they have a correct measure of the intellectual forces and of the larger activities of American life, the best-informed, and the most ambitious. Its writers are the leaders of thought and of action everywhere and in all kinds of important work. Ask the best informed man in your community what he thinks of THE FORUM, or send to us for the written opinions of some of the leading men in your State, and in all other States.  
THE FORUM: Utica Square, New York. \$5 a year.  
Subscriptions may be sent direct to THE FORUM or through any reliable subscription agency or book-seller.
