

DAILY OFFICIAL PAPER.

GOOD EVENING.

LIST OF THEM.—A great deal has been said about the large number of candidates for railroad commissioner. The following probably about the complete list, as given by a capital paper: From Eastern Oregon: A N Hamilton, Donaldson, Louis Cook, J W Norval, Burroughs and possibly Col J B Eddy. From the central portion of the state: Bert Clow, David Holmes, Judge T L Nelson, S F Chadwick, of Salem, dem. Among republicans are C H Geer, B Geer of Marion, Dawson and Auburn of Linn, Cass Barlow of Clatsop, Jas Wheeler, Portland, Me., of Yamhill, Robt Crossan, Salem, from Southern Oregon: Republicans, W Colvig, Sol Abrahams. Democrats: J Compton, Klamath; Pres Sherliff, of the Coos bay railroad; Henry J. Jackson.

STREET CAR ACCIDENT.—Yesterday afternoon a terrible accident occurred on a street car line at Albina. Forty-five were on board a street car, among them being the graduating class of Williams avenue school. The car was struck and was dashed to pieces. One was killed, J O Dennis, a carpenter, and Dennis, a boy, James Menefee, a farmer, and an unknown man. A large number of the young people were injured. The conductor and motor man were arrested, but they are said to be blameless.

PUBLIC SCHOOL.—There are at the 477 pupils in attendance at the schools, enrolled in the different grades as follows: Grade 1, 70; grade 2, 62; grade 3, 62; grade 4, 65; grade 5, 61; grade 6, 49; grade 7, 42; grade 8, 65. Fifty per cent of those in attendance between the ages of 6 and 15, about 150, are divided between boys and girls. It is observed that a majority of the attending are in the primary department where the ages are less than 12. The central line of school population is not far from Lyon street, east of the house.

READ HIMSELF.—The Washington has a competitor in young Wilkins Lane. The pilot bill was up, and the account of his speech: In rhetoric he maintained that when a man was on the deep and the waves were high, and the ship rolling in the midst of the sea and life and property in jeopardy, the place for pilot commissioners was Portland but at Astoria, where they would direct the movements of pilot and send the pilots out on their perilous duty to distressed seamen.

HARD TIME.—The Astoria Budget gamblers are having a hard time lately. Chased from Portland, they have taken up their abode in Astoria and seek green fields and pastures. Like our noble redmen, their sphere is contracting more and more daily and it is a matter of time when they will be abiding place save cold Alaska. Here, no doubt they could enjoy a game of freeze out.

THE FIGURES.—It is estimated Lincoln county will be republican by about 30 per cent, based on the last state election. The total vote was 753. In Benton county, if Blaine is elected, as it may be, the assessable property will be \$3,085,761. Lincoln county are to be run on \$8,000 to \$10,000 per rate down.

PLY LIED.—A Minnesota man in Astoria today said laboring men in that city got from \$1.50 to \$3 a day, and there were no idle men in the state. If the man representative the state is full of liars, laboring men there get \$1 a day, and there are people supported by charity more liberally than in Oregon.

POWDER ACCIDENT.—Yesterday morning William Hannibal, residing between Albany and Corvallis, was reloading a shot gun, when it exploded, striking him severely in the face; but not blowing out an eye as reported. Maston fixed up the powder burned face.

STAGE.—"All the world's a stage and all the men and women merely players; they have their exits and their entrances; and one must see his career through." Of their principal entrances leads Baker Bros grocery and bakery. Their groceries and the freshest produce kept, and their baked goods are of a comparison, consisting of a big variety of breads and cakes, plain and skillfully and well made. An invitation to consider.

VISITS.

The prize ring has become the stepping stone to the stage, not much to the credit of legitimate acting.

Chinese New Years begins today. Comment is unnecessary. The subject does not deserve an extended notice, as loud as it is.

Fifty clerks at Salem have not, it is said, done an average of ten minutes work in nearly four weeks, and the state foots the bill.

Here it is from an ex: The inside history of the present session of the legislature will be written at some day. The real cause why so many public measures of great general importance have gone to the wall—been buried—will be made known. It will be an interesting record and will do much toward shaping the future politics of Oregon.

This was all on account of a baby. At 2632 Chouteau avenue, St. Louis, Sunday, there was a celebration and a christening. All present became involved in a riot. Men, women and children participated, and every conceivable weapon was used. In a few minutes the place looked like a slaughter-house, the walls and floor being covered with blood and even the ceiling bearing its quota of blood-stains. A wagon-load of police succeeded finally in quelling the disturbance. Six of those involved were carried to the dispensary and their injuries will prove fatal. The trouble started because some one wanted to take the newly christened infant out of doors. David McGilligan will also die, it is thought, besides the 12 others who are seriously cut or sustained fractured craniums and had bruises about the face.

The Astoria Budget slaps one of its legislators, or some one else like this: He had never been to school a day in all his life, and he owed his little learning to the efforts of his wife, but he long had nursed a secret hope of saving his poor state, of being chosen for a term to go and legislate. The glad day came as bad days come to all who wait and strive, and for a season this man was the biggest man alive. He was among the first on hand to catch the speaker's ear, and when his name was called, at last, he promptly answered "here." But when it came to making laws he found it rather slow, the measures that he introduced were numbered so and so; were read and then "committed." Some went this way, some went that, and it seemed to him that every man was talking through his hat. It somehow had occurred to him that all he had to do was to introduce a law and then just push the measure through; and all this jargon and red tape, to him, seemed just about as senseless as a marriage with the bride and groom left out. And when his bills were "pigeon-holed" then was he sore dismayed, and into paths of open sin his wanton footsteps strayed. He quit the charts of reform upon the very day when needed most was purloined and spirited away.

GET STARTED RIGHT.—Then the whining schoolboy, with his satchel And shivering morning face, creeping like a small Unwillingly to school, stopped at Conn & Henderson's, the live grocers, and left a long order for some groceries, remarking that he liked to eat any way, and that they kept the best groceries there to be secured anywhere. If you would have the best groceries and produce at the most reasonable prices call on Conn & Henderson. They have them.
