

WANTED IN HEPNER.—A few days ago a man called at the DEMOCRAT office seeking employment as general newspaper rustler. They stated that where they had been working, Hepner, Oregon. Yesterday, Hepner, Oregon, was the scene of a robbery. A man, who was a member of the Herald force during the Barnes, Pottinger Porter management, was in the city yesterday. He is now in the mercantile business in the Cowitz Valley, Wash.

Electric Lighting.—There are said to be indications that there will be some of a revolution in lighting by electricity at an early date, a fact that speaks short contracts of not over a year or two. The San Francisco Chronicle says under new inventors small candle power incandescent lights in Albany, can be furnished for small amounts of two to five cents a month, probably not low a figure. A plant exchange in a city having a plant says, in this connection: "I understand that there is some correspondence being carried on relative to erection of another electric light plant in our city. As the present company has not the exclusive franchise, it is well for our city rulers to investigate the matter. If what is said of company be true, they will revolutionize the light business of the country."

Public Notice.—A meeting of the Board of Trade of Albany is hereby called for at the city council rooms in the Fallow a building, at 7:30 o'clock, evening. Steps will be taken to, if possible, the establishment of rates for Albany. Every business man having freight bills to pay, as in every household, is interested. The most invitation is hereby extended every business man to be present at meeting. Geo W. Wright, President of Board. Secretary.

A Wild Cat.—One of the largest wild cats ever killed in this neighborhood was the fore part of the week by Frank Bids, who lives about two miles east of place. Master Frank noticed the animal crossing Mr. Cushman's pasture, where he had no doubt been nibbling around in search of a lamb, upon which to make his mark when the nerve had procured a rifle. We did not learn the exact measurement of this animal, but suffice to say that measured somewhere in the neighborhood between two and three feet, or thereabouts.—Brownsville Times.

Another Rumor.—We have had plenty of Oregon Pacific rumors. Here is another. The Southern Pacific is in the market for the 4, and is to bid for it at the coming sale. Secured they will build Eastward. Every points to the fact that the Hogg crowd, they are mentioned in street phrase, are untrue. The public is prepared for almost anything. It would be difficult to jump in fire from the present frying pan.

Dr. Brown's Lecture on "Father Time"—The Presbyterian church last night was filled by a large audience, who seemed to appreciate every word said. It was a highly and yet very entertaining effort, offering a large field of thought in keeping with the progress of "father time." The bare is one that stamps itself on the memory of the hearer, and, while pleasing, is a genuine educator.

A Terrible Did It.—In the DEMOCRAT can be seen a section of a pile taken from a Tacoma wharf. It is punctured with holes by the teredo, showing what a wonderful animal will do, as well as the wood boring insects. The only way to protect ones property. The P & B building paper and paint does it every time, giving wood perfectly water and insect proof. Don't run any risks, but cover your walls, and houses with this superior paint. Write to 322 Worcester Block, Portland, for particulars.

Money to Loan.—I have money in sums of \$500 to \$20,000 to loan on improved farm lands in Linn and Benton counties, at lowest current rates. Reply in furnishing the money. C. G. BURKHART, Real estate agent, Albany, Oregon.

Boots and Shoes.—I carry the largest stock of medium priced and good wearing shoes, misses and children shoes in the city. I have just added a line of steel shod shoes which I recommend to the public. Don't forget that I repair any shoe well free of charge. SE YOUNG.

Will Move Feb. 27th. From now until Feb. 27th we will sell Boots and Shoes at greatly reduced prices in order to reduce our large stock before moving in our new quarters. Respectfully, KLEIN BROS.

Ladies Fine Shoes.—I have a full line of fine dress shoes, all solid and high quality in style, and reasonable prices. SAMUEL E. YOUNG

She expects to return soon to her work in the dark continent.—Pacific Christian Advocate. Miss McNeil is expected home from California on March 5th, remaining here until the 12th when she will start for Africa.

Mr Chester Brown, the barber, and family, who left Albany last year for Minnesota to reside permanently, thinking they would prefer that state for a residence, after spending one winter in that state, being located at Austin, have returned to Albany and rejoice at being back in God's country, preferring a little rain to weather so cold that pipes would freeze with a fire in the room. He required \$9 worth of coal to run one office fire a month. This is the general experience of people who have been in Oregon several winters.

The late Rev Cushing Eels had a number of old time friends in Albany, about whom the following tribute will be of interest: Rev Wallace Nutting of Seattle, Wash., estimates that the late Rev Cushing Eels during his life gave \$25,000 to benevolent societies out of his small salary from the Home Missionary Society. "Truly he was a patron saint," said Mr Nutting. "The winds might blow and toss him about, but his purposes were so clearly defined in his mind that nothing could turn him. I never saw a man with such tenacity. An object before him, he would reach it if it took him 10 years."

The present county court of Marion county refuses to allow the sheriff postage to answer tax inquiries, as other county courts have done, a fact that creates a small disturbance.

Representative Harper recently sent a challenge to fight a duel to Representative Baker, with whom he had an altercation the other night. Baker in reply said he would settle the difficulty the next time he met Harper on the street. Both men are armed and a shooting affair is expected.—Ex.

A well-known young married man of this city, who carried a hod for one of our local contractors all last summer, has lately received a draft for \$5,000 from his parents in old England. The happy couple are putting up a nice home in Forest.—Hillsboro Democrat.

Here's the way the matter is looked at in Roseburg: "There is a movement on foot to organize a military company in Roseburg and 30 names have already been signed to the roll. Since the O N G are getting \$100,000 during the next two years there is no reason why Douglas county shouldn't get its share of the hoodle and have uniform company. Boys, get in and drill." A poor way to look at it.

Blackman's bill to require fire insurance companies to pay their policies in full or rebuild the premises, became a law February 22nd. Companies will now limit the amount of insurance on buildings and it will follow that they will not be over insured, except through fraud wherein the companies are protected under the provisions of the bill. The bill is one needed.

Edgewood is the name of a New England village and the "folks" are some of its inhabitants. The action concerns itself with the experience of a young clergyman settled in Edgewood whom certain wicked sinners seek to despoil of a magnificent inheritance and whose fortunes are defended and saved through the counterplot of a devoted friend. The latter character, Tom Dilloway, being performed by Mr Heywood who assumes several disguises and exhibits ingenuity and zeal, together with a clever talent for impersonating. The qualities that impress and attract in this gentleman's act are sincerity, amiability, tenderness and playful humor. Mr Heywood's "Tom Dilloway" is a creation and is full enough of rapid changes to satisfy a lover of pantomime and has manliness enough about it to please a bishop. At the Opera House next Friday night.

THE WELL DRESSED MAN is always entitled to consideration. This is introductory to the statement that the L E Blain Clothing Company's tailoring department under the efficient management of E A Schiller has just received the largest and best assortment of suitings for the spring and summer trade ever brought to Albany. Here is probably the correct version of the rail story from the Mill City Gazette: "It is rumored that Wm Hoag has shipped the 510 tons of railroad iron on hand to California, claiming that it belongs to him, individually. If proper entries are made in their books, they will show the transaction and purchase."

The Astorian says: The Knights of Pythias will begin soon to train in earnest for the \$500 drill competition offered by the meeting of the Grand Lodge at Heppner, and are determined to win the prize at all hazards. It will be remembered that the Astoria Knights have been successful on many occasions. Last year they did not train for the contest.
