

Daily Democrat.

President Harrison has called an extra session of the senate to meet March 4th. That body will confirm Cleveland's cabinet appointments and consider the Hawaii treaty and other executive business.

In the popular vote in the late presidential election Mr Harrison received 264,639 votes less than he did in 1888 and Mr Cleveland received 18,399 more than he did in 1888.

Gen Jackson used to speak of "me and Jim Monroe," but the man who has anything to say of "me and Cleveland" has not been heard from.

The spectroscope tells us that the composition of the sun is nearly the same as that of the earth. We find in it iron, silver, zinc, and other familiar metals.

Gov McKinley says the Republican party has no apologies to offer. The Republican party passed the apologizing stage when it surrendered to McKinleyism.

Scientists are beginning to believe that digestion in the case of carnivorous plants is due to the activity of certain micro-organisms, which are always present in the sap of the mature plant, and that their secretions are favorable to the development of such minute organisms.

Hold the watch in such a position that the hour hand is pointed in the direction of the sun, then the point midway between the position of the hour hand and XII. will be due south. If, for instance, the hour hand point to V., due south will be between II. and III., or half way between XII. and V.

The defalcations of last year are placed at \$8,000,000, the gifts to educational and religious objects at \$29,000,000. So there is considered to be a handsome balance to the credit of the nation. But no one knows now many defalcations are hushed up. There is no hushing up of gifts of money for public purposes.

Turn on the light! That is the cry that is rising louder and louder from this tax-burdened nation as the stupendousness of the pension fraud comes to be more fully realized. Let the pension list be published in local papers and it is likely that a quarter of a million of undeserving pensioners will be pointed out. Men are not fond of being taxed to pay pensions to the undeserving.

The French government is experimenting with electric locomotives, the invention of J J Hellmann. They are propelled by coal and steam turned into electric power in the locomotive, and it is claimed for this invention that it gives practically more power than is usually done by the action of steam directly on the piston. There is besides the further advantage of more easily controlling the power thus generated, and with little waste. It is on these lines that some day we shall have wagons on country and city roads propelled by electric power produced as the vehicle is moving.

The West Side is of the opinion that his Excellency, Governor Sylvester Penney will be the populist candidate for congress in the second district next year. The governor was reported to have said some time ago that he would not step down from the governor's office to accept the United States senator, and if that be so we cannot understand how he would step still lower and accept congressional honors.

Gen Mahone lives at Chamberlins' in Washington. He is the same quaint little man—no bigger than a pint of cider—that he always was. He has a long beard and a long head. He is somewhat given to profanity and of an every-day sort that even a fool can understand. He wears a white slouched hat, which he has made to order and which costs more money than any other slouched hat in the country, and his shoes have been made for years by the same man, who selects the finest calfskin and lines the shoes with satin.

We are now in a sort of a transition period between two administrations. We are so near the end of the Harrison regime that nothing more need be expected from it and yet we are not near enough the beginning of Cleveland's to feel the thrill of the new order of things. Most of the interest in Washington, during the coming week, will center around the preparations being made for the inauguration and the anticipation of things to follow in its wake. The coming week will be one of surprises and perhaps surprises.—Portland Dispatch.

A subscriber wants to know who would become president in case of the death of both president and vice president. Under the act of the 49th congress (chapter 4) in case of the removal, death, resignation or inability of both the president and vice president the secretary of state shall act as president until the disability of the president or vice president is removed, or a president is elected. In case there is no secretary of state, then the secretary of the treasury will act, and the remaining order of succession is as follows: Secretary of war, attorney general, postmaster general, secretary of the navy, secretary of the interior and secretary of agriculture.

EDITORIAL NOTES

The Times Mountaineer is in a peck of trouble over the appointment of Gresham to the cabinet. We commiserate, but we are not exactly weeping with those who weep. Sixty-two papers in Colorado, supported the populist ticket last fall, but now, according to the Denver Road, a populist paper, all of them have left the populist cause but 16. This, in a greater or less degree, will be the case all over the country.

No one of the numerous family of Smiths has ever occupied the presidential or vice presidential chair, nor a place on the bench of the Supreme Court of the United States, nor has but one ever been called to act as president protem of the senate, nor has any one by that name ever served as speaker of the house.

The taxpayers of Oregon will "put up" in the next two years \$100,000 to enable the members of the Oregon militia to parade around and look pretty in their blue suits with brass buttons. The real taxpayers of the state will get about as much good out of the expenditure as a chimpanzee would get out of a tailor made suit of clothes—East Oregonian.

Henry T. Thurber, whose appointment as private secretary President-elect Cleveland has announced, is a member of the law firm of Dickinson, Thurber and Stevenson, of Detroit, Michigan. The offer of the private secretaryship came to Thurber by telegram, and was a complete surprise. He announced that he will accept the position. Thurber has been associated with Don M. Dickinson for eighteen years, beginning as a student.

The supreme court of Kansas has decided that the republican house of the legislature of that state is the legal one. The supreme court has no more jurisdiction over a matter of that kind than Lily of Hawaii has. Each house is the judge of the election, qualification and returns of its own members, and it is an act of usurpation for the courts to attempt to determine to question at issue.

Hood's Cures

Saved My Wife's Life

Weakness, Nervousness, Salt Rheum.

John W. Jones
Kalama, Wash.

"Of my own free will and accord, unblinded by anyone, and wishing only to do good to the afflicted, I wish to tell of the good qualities of Hood's Sarsaparilla and Hood's Pills. I think there are no medicines equal to them, and have proved their merit by experience in my own family. My wife, Rachel, has been afflicted with weakness, nervousness, and salt rheum. I spent nearly all that I had of this world's goods for doctor's bills and medicine until we decided to try Hood's Sarsaparilla. It undoubtedly
