The Y M C A not only furnishes a free gymnasium, reading hall, bicycle club, club, amusement parlors, shower, sponge and tub bath, but has now begun publishing a local monthly and advertisement sheet, called "Push." It is typical of the Yankee enterprise of the general secretary, Mr Wetherbee.—Salem Journal.

The new comet is quite plain to be seen with the naked eye, after dark. It is to be found in the northwest, under the big dipper, after half past nine, with its tail upward. It is said to be moving at the rate of 180,000 miles an hour. It appears to be of the fourth magnitude and has a companion in the form of a smaller comet which can be seen with a glass through the nebulae of the former.

The Pendleton Tribune says: Mrs Mattie Horn, sister of Captain Humphrey, arrived yesterday to be in attendance at his bedside, and finds him getting along fine. As he related to her sympathetic ears the story of the accident she exclaimed: "Why, I don't see how it didn't kill you!" "Well," says the Cap, "the thing I can't see is why it didn't break the car wheel."

Albany was lively for a short time last night. A team driven by a couple of drunks returning from Corvallis, ran away, going down Second street at Salva rate. They were finally stopped without damage. About then Guy Banta rode a bicycle along First street. Several men good naturedly set Munsie's dog on him. An old gentleman took the matter in earnest and kicked the dog several times. The owner interfered, then a drummer took a hand, and a general fight was imminent; but was easily prevented. A young man, who was once sentenced to the penitentiary for eight years, with several assistants, began services on the street, and the tail of the comet flapped ominously in the northwest.

MISSIES

Lieut Totten, of New Haven, says the cause of all the present trouble is that we are near the end of the world. Keep cool, Colonel.

At Bartwell, Kan., the other day the wrong negro was lynched by mistake. It is now in order to lynch the lawless crowd who did the lynching. Legal justice should be so prompt nowadays that there could be no demand for lynch law.

The Salem Independent says the Statesman charged the state \$152 for 70 copies for the legislature 40 days. That is 30 cents a week, whereas the regular price is 15 cents. The Independent is right in declaring that it takes some tall swearing to get such a bill through. There is no reason for cinching the state more than any one else.

Under the head of "Stingy and Mean," a Denver paper perpetrates the following: "The 'stingiest' man has again made his appearance. This time he lives at Albany, Ore., and he lately lost \$10, which was found by a man who kept it for three months before he discovered its owner, to whom he promptly gave it. The owner never even thanked the man for his kindness and wanted him to pay 10 per cent interest for three months for which the money was in his possession. The finder naturally refused to do this, and the owner is now thinking seriously of bringing suit for the interest."

Things Worth Remembering.
When you feel a kind of goodness about the stomach it is a sign that your food does not sit well and that you are about to have a fit of indigestion.
When you begin to feel nervous and are unable to sit still comfortably; when your clothes suddenly seem to lose their fit and become too tight in places the fit of indigestion is surely upon you.
When this fit of indigestion is repeated from day to day it finally resolves itself into dyspepsia.
Remember that three to ten of Brandreth's Pills will cure the worst case of indigestion or dyspepsia, or both, and that a regular course of them, say two every night for a week or ten days, will act as a preventive of either complaint.

Trains will hereafter run to Idanha on the eastern end of the Oregon Pacific Monday morning and Wednesday and Saturday evenings. Round trip tickets, good for thirty days, will be sold for \$3.00. Round trip tickets can now be bought to the Bay, at excursion rates every day of the week.

WEATHER BUREAU

Crop weather bulletin, No 17, of the Oregon State Weather Service, for the week ending Tuesday, July 18th, 1893. B S Pague, local forecast official.

In Western Oregon the weather during the past week has continued cool, with higher temperatures since Saturday. The highest temperatures have been from 70 to 85 degrees. There has been an excess of cloudiness and some few rains. The wheat crop is in good condition. Fall wheat has generally been increased in acreage; but the acreage of spring sown wheat has been decreased, owing to the late spring rains. Fall wheat has an average increase in acreage of fully 10 per cent, while the yield is expected to be 12 to 15 per cent greater than last year. Spring sown wheat has been decreased about 7 per cent, and the yield will be fully 5 per cent short. An interesting and valuable fact is reported by a Marion county correspondent: On land which last year was summer fallowed with potatoes the wheat (fall sown) has a much better appearance than any other wheat, and it promises to yield 15 per cent more. Potatoes always have a sale and many would profit by planting potatoes on summer fallow and not allow the soil to remain idle and become filled with weeds. The grain crop south of the Calapoopia is not so good as in the Willamette valley; while on the other hand the fruit of the latter is not so good as in the former. Oats are a good crop, spring sown not so good as fall sown. Haying continues. Hops are growing rapidly; some are beginning to blossom out. Few lice are so far observed; but are increasing in numbers.

In Eastern Oregon the rains from the 8th to the 11th were of inestimable benefit to the crops. The wheat crop is reported in excellent condition.
