Little Daughter
A Church of England minister red of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD HARRIS, the well-known Druggist, 207 McGill st., Montreal, P. Q., says: I have sold Ayer's Family Medicines 40 years, and have heard nothing but good said of them. I know of many **Wonderful Cures** performed by Ayer's Sarsaparilla, one particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my commendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, such to her relief and her father's delight. I am sure, were he here today, he would testify in the strongest terms to the merits of Ayer's Sarsaparilla. **Cures others, will cure you**

In a recent statement by Prof Holden correction is made of some very prevalent errors concerning the distances of stars and planets, and their size and visibility under the application of the telescope. Thus, he says, if the brightness of a star seen with the eye alone is one, with a two-inch telescope it is 100 times as bright, with a four-inch telescope it is 400 times as bright, an eight-inch telescope renders it 1600 times as bright, a 16-inch 6400 times as bright, a 32-inch 25,600 times as bright, and a 36 inch, 32,400—that is, with the latter stars can be seen which are 30,000 times fainter than the faintest stars visible to the naked eye. Thus, while the magnifying power which can be successfully used on a five-inch telescope will permit a magnifying power not above 400, the 36 inch telescope will permit a magnifying power of more than 2000 diameters on suitable objects, stars, for example. But this power cannot be used on the moon and planets with real advantage, for many reasons; but probably a power of 1000 or 1500 will be the maximum.

Nervous Dyspepsia:
Senator James F. Pierce, of New York writes: "For the past two years I have suffered very much from an aggravated form of nervous dyspepsia. I have resorted to various remedial agents, deriving but little benefit. A few months since a friend of mine suggested the trial of Alcock's Poreux Plasters. Following the suggestion, I have been using the same with the happiest effects. To those similarly afflicted let me suggest the manner of their use. I place one over my stomach, one over the hepatic region, and one on my back. The effect is excellent. From the day I commenced their use have been slowly but surely improving, and am quite confident that by continuing I shall again be restored to my accustomed health."

First—Recognition of the rights of France in Annam and Cambodia.
Second—Evacuation within a month of the forts held by the Siamese on the east bank of the river.
Third—Full satisfaction for various Siamese aggressions.

Fifth—Indemnity of 200,000 francs for various damages.
Sixth—Immediate deposit of 300,000 francs to guarantee the payment of the fourth and fifth clauses.
The Examiner There.
PORTLAND, July 30.—William B. Wightman, the special bank examiner who arrived here Saturday and took charge of the suspended national banks, received a long telegram yesterday from J. H. Eckels, comptroller of the currency. The telegram showed that Mr. Eckels had a pretty good idea of the way things stand in Portland—that is, he knows the banks are solvent and will be able to resume as soon as they can turn around a little. Of course he instructs Mr. Wightman to help them all he can.
A Big Swindle
NEW YORK, July 30.—The World's Boston special says that a huge conspiracy has been unearthed, whereby 73 banks and banking institutions in New England were victimized. The story is to the effect that certain employees of the Northern Pacific Elevator Company, of Minnesota, issued \$1,500,000 worth of forged duplicate certificates for grain in storage in the "country" elevators owned by the company, where the inspection is not so strict as at the terminal elevators. These forged certificates were deposited in Eastern banks as collateral.
Two Country Clubs
GERVAIS, Or., July 30.—Six hundred people witnessed the second game of the championship series of baseball on the Gervais diamond today. The batteries were Johnson and Straban for St. Paul and Perham and Williams for Silverton.
The Ladies.
The pleasant effect and perfect safety with which ladies may use the California Liquid Lavative Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.
A Sharp Practice
you call it when reading an interesting article and find at its close that you've read an advertisement. Don't condemn the advertiser. You won't read the ordinary advertisement. All advertisers feel this in common with the writer who takes this means of telling you that Simmons' Liver Regulator is the best medicine for malaria, impure blood, and a poisoned system. Equally as good for indigestion and biliousness.

This is the finest and fastest service between the points named.

Twenty Years' Experience.
C. D. Fredricks, the well known photographer, 770 Broadway, New York, says: "I have been using Alcock's Poreux Plasters for 20 years, and found them one of the best of family medicines. Briefly summing up my experience, I say that when placed on the small of the back Alcock's Plasters fill the body with nervous energy, and thus cure fatigue, brain exhaustion, debility and kidney difficulties. For women and children I have found them invaluable. They never irritate the skin or cause the slightest pain, but cure sore-throat, coughs, colds, pain in the side, back or chest, indigestion and bowel complaints."
