Panics have been occurring every twenty years or thereabouts. A New York paper shows conclusively that the present one does not compare with those of 1857 and 1873 so far as the lasting effect is concerned. The present trouble is only a temporary one. Keep that fact in your mind.

The governor spends only the first three days of the week there. The governor's private secretary, W A Munley, is at Mehana. Finley Perrine, supreme court bailiff, is off for Mt Jefferson. Superintendent McElroy has not yet returned from Chicago. Attorney General Chamberlain spends most of his time in Albany. And so it is that there is a little hollower echo in the lung corridors and offices these dog days.

A FRUIT FAIR.—At the quarterly meeting recently held in Salem by the Oregon State Horticultural Society, it was unanimously agreed, in order to properly bring before the public the fruit industry of the state, that the fruit growers should unite in making a great Fruit Fair this fall to show what Oregon can do in that line, and after exhibiting the collection here send it in a body to the California Midwinter Exposition to be held in San Francisco. In order to make a creditable showing it was deemed best to make it a distinctive state affair. The plan decided upon was to ask every city and county, every fruit grower and every one interested in Oregon's welfare to contribute, no matter how small an amount, to a general fund to carry the idea into effect. Large individual and county premiums will be offered to induce fruit growers to put forth their best efforts in making a display. The fair will be held in the city offering the greatest inducements, place and date yet to be selected. Only a small portion of the money subscribed will be called for in the beginning—just sufficient to defray expenses for necessary printed matter, postage, stationery, jars for putting up fruit, etc. A small admission fee will be charged, and if there is a loss after the fair is over, each subscriber will be asked to pay their pro rata of the loss, or to provide for the expense incurred in taking it to California. If on the other hand there is a balance in the treasury it will be turned over to the state society for use in the advancement of the fruit industry. G I Sargent, Secretary, Portland, Oregon, may be addressed for information on the subject.

SAN FRANCISCO DEAD.—An old San Franciscan, who has just returned from the Bay city, told a Telegram reporter that San Francisco is practically dead; and that he never saw so little doing in that city as now. "At any time," said the gentleman, "there are hundreds of people roaming the streets, wretched hungry and without work. Many work on large buildings have been laid off. Street-car forces have been reduced. Business is duller than I have ever known it to be, and I have known San Francisco a long time, or its size, Portland is wonderfully active, and more than ever I am convinced that this city is one of the most substantial in the country.—Telegram.

Special to Democrat. INDEPENDENCE, Or., August 7th.—This morning as the morning train on the Southern Pacific railroad, from Portland to Corvallis, was nearing McCoy a station eighteen miles north of here, G C Bell, a farmer seventy years of age, was killed by the train. He was driving along the road in an open section of country, and just as the train came up whipped up his horses and attempted to cross the railroad track. He had a light wagon and some flour in it. The cowcatcher caught the wagon squarely, throwing Mr Bell high in the air, and as he came down his body was caught between the cowcatcher and rail and rolled over and over under the front wheels and literally cut to pieces. It is thought that he must have been hard of hearing, as the train had whistled just a moment before. He is well known in this country, having lived here many years.

The new postal money orders to be provided by the government will soon be issued. In the new system there will be no complication. Sheets will be issued calling for amounts from one cent to three dollars, which can be torn off to suit the purchaser. One cent will pay the charges in any amount up to three dollars, instead of three cents as now.

If bills are paid monthly, a discount of ten per cent is given. Bills not paid promptly will be passed to my attorney for collection. If you pay your physician promptly he will attend you promptly, night or day, rain or shine, while your slow neighbor suffers and waits, as he made the doctor wait, and while he is waiting the angels gather him in."
