NEW YORK LETTER.

New York, August 4th, 1893. The leading feature of the business situation during the past week, has been the action of the Savings Banks in deciding to enforce the thirty and sixty day rule requiring notice before money can be withdrawn. The great scarcity of currency is also another feature. It is impossible for the banks to meet the demand for bills, and gold coin has been circulated in lieu of currency. The Stock market has shown a decided improvement for the past few days there being a lively bull raid on Tuesday and Wednesday. Although things are still in a turbulent state, frequent evidences of a revival of confidence among the people are apparent. If the great stringency in currency can only be relieved, things will rapidly improve. The approaching session of congress is awaited with great interest and the hopes of speedy action to relieve the present disastrous state of affairs, with a strong stimulous from the President will also help to better affairs.

It will be remembered that last June, the solid New York delegation to the democratic convention at Chicago, issued a statement to the effect that Mr Cleveland could under no circumstances carry the state of New York. Regardless of this strong, but deceiving statement, Mr Cleveland was nominated and afterwards elected, carrying his state by nearly 50,000 majority. Who are the people that made such a brake in the convention? Why the same who expected, but did not find one single berth for their use by gift of President Cleveland. In the appointments thus made in this state, Tammany Hall has been entirely ignored. When Charles W Dayton was appointed postmaster some people were under the impression that the President had at last recognized Tammany. But Mr Dayton only joined Tammany when the County Democracy disbanded, and the reason for his joining the wigwag was because it was the only regular democratic organization in the county. Mr Whitney, Mr Grace, and Secretary Dan Lamont were parties of one part, and they knew to whom the lucrative office of Postmaster was intimated to. As for the appointment of Ex-Police Justice Kilbreth to the Collectorship, this was a direct blow aimed at Dick Croker and his braves. But Mr Kilbreth's and Mr Dayton's appointments were surprises to the politicians, but nevertheless they are competent and fully able to fill the important positions to which they have been appointed. The feature of the appointments, is the fact that Mr Cleveland is not recognizing Tammany as an organization. Although, all this may lead to the building of a new democratic organization in the state, it is also a blow at the most corrupt political combination of bossism and blackguardism that ever existed. The good citizens of New York regardless of party, are therefore pleased with the appointments made, so far by President Cleveland.

At last the cranks are happy. After a most disastrous trip in the west, Captain Ward's "Giants" are showing up to that standard where they should have been earlier in the season. The team is now in sixth place, having climbed up from tenth place during the last two weeks, in the League race. The secret of the change of position seems to be quite evident. During the first part of the season the team had but one pitcher in condition, and at one time not even one catcher to do the catching. But since Manager Ward has signed the new battery, Gesman and Wilson, the other pitchers, Kussie and Baldwin have got into shape and the chances, under these bright conditions, for winning the pennant are still within sight. One of the most closely contested games seen this season, was played on the Polo grounds on Wednesday, before a crowd of nearly 5000 cranks and rooters. The new pitcher German was in the box for New York and pitched a wonderful game holding the heavy batting Brooklyn's down to five singles, two of which were scratches. A feature was the fine playing of Parke Wilson who caught German in masterly style and ran bases like a veteran. These young players have jumped into popularity, among the patrons of the national game in this vicinity. As to the game, the score remained a tie until the eighth inning when good batting by Ward's men resulted in one run which was sufficient to defeat New York's greatest rivals by a score of 4 to 3 in favor of New York. Wm. F. H. KOELACH.

Nat Holman took his boy Jimmy and Harry Belt out to his farm and set them to herding sheep, giving them one of his big grey horses to ride. In a short time Mr H looked up and saw two horses running neck and neck, the riders plying the whip with all their strength. An explanation was called for and Harry said "that fellow came along and said he could beat us any mark in the road; Jim told me to 'knock him off the Christmas tree' and I done it."—Dallas Transcript.

A Salem paper says: The general financial tone of the country and particularly of the Pacific Coast is steadily improving and it is now palpable that the worst of the present crisis is over, and should the general situation improve at the present rate, a noticeable relaxation in the matter of loans may be expected even in a few weeks. Quite a number of small loans have been made to farmers within the last week or ten days, although, of course, the banks are very conservative in the matter of security at present.
