For a sluggish and torpid liver, nothing can surpass Ayer's Pills. They contain no calomel, nor any mineral drug, but are composed of the active principles of the best vegetable cathartics, and their use always results in marked benefit to the patient.

Malarial and other atmospheric influence are best counteracted by keeping the blood pure and vigorous with Ayer's Sarsaparilla. A little caution in this respect may prevent serious illness at this season.

It is stated that a lady living several miles from Walla Walla, who has accumulated considerable property, was notified by her bank that she had overdrawn her account by \$100. She drew forth her check book and wrote a check for \$100 on the same bank to make up the deficiency.

NEVER BOTHER

yourself very much about business during the hot months if you wish to keep cool; nor must you get into the habit of asking A MAN

if it is hot enough for him, when you can see very plainly that he is practically roasted; but, instead, advise him to call on Parker Brothers and get the best baked goods to be secured, as well as warm weather groceries generally.

WHEN HE IS HOT.

By so doing you will surely retain "his friendship."

Ignatius Donnelly is willing to address the people of Portland on the silver question and hard times for \$200.

A Colusa, Cal., woman recently lost her husband, his life being insured for \$2000. The heart-broken woman at once telegraphed to her relatives in the east: "Jim died this week; has fully covered by insurance."

There is a "lost cabin" mines somewhere in the vicinity of Prineville, and M V Loomis and Tom Jones of that town spent six weeks in the Cascade mountains this season trying to discover a claim which Mr Jones worked years ago. They were not successful, but will try it again next year. Quite a chestnut.

Another evidence of hard times is the fact that yesterday the Salem Band paid \$400 in gold coin for sixteen new uniforms. The coats are dark blue, profusely braided, with gold figure in collar, the pants are lighter blue, with gold cord down the sides, the caps are like the military fatigue caps, gold braided with lyre in front.

The Eugene Journal referred to Governor Penney as "Oregon's crank governor"—"The Kuckle-bur under the tail of the state, the Canada thistle of the wild and woolly west." This made the Governor laugh until he nearly choked. Then he remarked: "As he calls me a kuckle-bur under the tail, I can readily see why I should irritate him so much."

The Pendleton E O tells something Eugene people know nothing about: Messrs Foreman and Matthews, of the patent sickle bar and header company, are at Eugene, negotiating with people there with regard to establishing shops there. Eugene, it is stated, has made a very liberal offer for the enterprise, free water power, free site, a spur to the shops, and building lots for the first year's employees, being among the inducements.

Horace Johnson, of Middleton, Conn., who predicted the recent big storms, says that there is another of still greater severity, to come from September 6th to 10th, and in comparison with which the recent tempest will be insignificant. In his prediction Mr Johnson has not laid particular stress upon the storm just passed, but has said it would be followed by another which would prove the worst in the history of the country. He predicts that a great tidal wave will roll into the streets of Boston and New York along the docks, and for a time completely submerge them.

The following from the Epworth Herald in reference to the present times is good advice for everybody: "Keep up good heart. It will do no good to fret. Complaining will only make matters worse. The Israelites murmured, and took a long tramp through the wilderness for their foolishness. Reverses are sure to come. We should expect them, and gracefully accept the situation. Who ever sailed the ocean without encountering storms? He who picks roses finds also thorns. Cloudy days are mixed with sunny ones. The piercing winds of winter follow summer's balmy breezes. Continual prosperity would spoil us. Our selfishness would tower like the mountains. In adversity we learn the blessings of prosperity. To the most discouraging situations there is a bright side. Look on that side. Do not worry. Do not pout. Do not frown. Do not scold. Laugh in the face of this flurry about dollars. Predict better times. Have faith. If all the people would gird up the loins of their confidence business enterprises would leap to their feet and run swiftly toward the goal of prosperity.

On a Conservative Basis.

OWING to the present monetary stringency and during the existing condition of the financial market, I find it compulsory to run my business on a very conservative basis. Sugar, as you are aware, is handled on a very small margin of profit; a small fact to scarcely pay for the handling of it, and the terms upon which it is bought are very strict (cash only.) While money was plentiful and collections good, I was able to allow sugar bills to run 60 days; but conditions at present are such that I will sell sugar for cash only. I assure you I was very reluctant to make a rule of this kind, but the conditions of the market are such as to make it imperative. Trusting you will look at this in the proper light and also understand that this rule applies generally.

Ventilation. not the politician's sort, but the fresh air you need. Health and comfort often suffer for this kind of ventilation. Never sleep in a poorly ventilated room. You'll wake up unrefreshed, out of sorts, and bilious. Perhaps you can't improve the ventilation, but you can take Simmons Liver Regulator for that torpid liver, to keep it active against the ill effects of a close atmosphere which causes that languid feeling.
