WASHINGTON LETTER.

From our regular correspondents.

Washington, Sept. 11, 1893.

At last a real, genuine, bona fide White House baby; No wonder her arrival in Washington, on Saturday afternoon, created a sensation, causing congress and its doings to be for the time forgotten or ignored. It was an historical event that will be read of with interest by yet unborn generations, as the age at which most men become president makes it impossible that it will become a frequent occurrence. This is the first in the history of the White House, although there have been three other births in the White House, two of them grandchildren of President Tyler—both now living in Washington—and the other to the wife of Col Fred Grant. Mother and daughter are in good condition and both doing well, and although President Cleveland is attending to business as usual it is probable that his thoughts often involuntarily wander to his wife and baby, however important the other matters may be which he has under consideration. The Cleveland's have had two very unusual honors in connection with the White House. No other president was ever married in the White House and no other president's wife ever gave birth to a child in the White House. Long life and great happiness to Baby Ruth's sister, the White House baby!

There is to be no compromise in the senatorial fight over silver. It is to be fought to a finish. President Cleveland having declared that he would accept nothing but the repeal of the purchasing clause of the Sherman silver law without condition. This is a great disappointment to those who have hoped that some satisfactory arrangement would be made that would get the solid support of the democratic senators and bring the rank and file of the party closer together than they have been since the extra session met. The end of the debate is not yet in sight, although some senators believe that a vote can be reached in two weeks. That is the doubtful thing. The vote is no longer doubtful. When it is taken the Voorhees bill will be passed, but when that will be depends upon the endurance and disposition of the senators opposed to it.

A very important step was taken by President Cleveland when, after a full discussion of the matter by the cabinet, he decided that this government should proceed, without waiting for congress to take further action, to rigidly enforce the Geary anti-Chinese law. This step would have been taken before, but it was deemed advisable, under the circumstances, to wait a reasonable time to see if congress desired to take any action on the law, and also to give the new Chinese minister an opportunity to submit any message he may have been charged with by his government, looking toward the negotiation of a new and more satisfactory treaty. Further than the introduction of a bill by Senator Dolph appropriating \$500,000 to carry out the provision of the law, congress has taken no notice of it, and the Chinese minister has done nothing, therefore the necessary orders have been issued by the treasury department to put the law to work. The amount of money available is small, but congress is in session. No trouble is expected with China, although precautions have been taken to have a sufficient naval force in Chinese waters to protect American interests. The world's fair souvenir half-dollars are coming into the treasury for redemption in such quantities that Senator Morgan has at the request of Secretary Carlisle, introduced a bill to repeal so much of the law of 1879 as makes it compulsory upon the secretary of the treasury to redeem subsidiary silver coin in treasury notes, which is the same as redeeming them in gold. The Chicago banks with which the greater portion of the Columbian half-dollars were pledged to secure advances made the exposition managers are now sending these coins to Washington for redemption, it having been found impossible to dispose of them at the expected premium. Secretary Carlisle thinks they would just as well be put in general circulation as piled up in the treasury; hence the bill to stop their redemption.

Democratic members of the house ways and means committee will not be sorry when the public tariff hearings close, on Wednesday of this week. They have produced no information that was not already possessed by the committee, and have only served to keep the committee from more important work—the preparation of the reform tariff bill. As soon as the hearings close, the democrats of the committee will push the work without further interruption until it is completed, as they do not propose to allow ex-Carr Reed and his republican colleagues on the committee to delay matters by their "funny business."

Treasury receipts show a very encouraging increase within the last few days, indicating that the country is very rapidly recovering from its financial plight. Senator Teller's sensational attack upon the press of the country, in the senate on Saturday, is being talked about everywhere, and the general impression, without regard to political opinion, is that he made a serious mistake. There are, unfortunately, dishonest newspapers, but they are comparatively few in number.

Hodges & McFarland,

The senate committee on Indian affairs has ordered an adverse report on the nomination of a man from Mississippi as Indian agent at White Earth, Minn., and a man from Illinois as Indian agent at Yankton, S. D. The committee also voted 6 to 2 that it would reject all nominations whose appointees were sent from one state or territory into another, unless satisfied by the representatives of the state or territory where sent.

The weight of gold bullion in one of the reserve vaults of the mint at Philadelphia shows a shortage of \$105,000 worth. The vault was sealed in 1887. The seal shows the door was not opened. If there has been an abstraction it must have been through a breach in the walls. The mint officials refuse to talk.

The Pennsylvania protected industries are protesting against a change in the tariff. The Pennsylvania beneficiaries of monopoly taxes were heard on this point last November, and it will be recalled that they were not in touch with the majority of the country.

Hood's Cures Numerous Boils And Catarrh in the Head

Mr. W. L. Tucker, Roseburg, Oregon.

"I feel that it is impossible for me to say too much in favor of Hood's Sarsaparilla. I was a great sufferer from impure blood and Catarrh in my head. Job's comforters failed to comfort me, and I suffered from numerous boils and Agony Beyond Description."

When I began to take Hood's Sarsaparilla I had six of them, only four of which came to a head, and since then, thanks to this good medicine, I have been free from this great affliction. I gained 11 pounds in three weeks. The Catarrh in my head which has troubled me for years has also been cured by Hood's Sarsaparilla and I
