THE SPIRIT OF "PROTECTION"

"Protection" as promulgated by McKinley and other protection leaders is morally wrong. Truly it is the very quintessence of oppression. It seeks to abrogate that principle of equality between man and man, equal rights to all and special privileges to none, that was the shibboleth of every patriot who drank in that spirit of liberty which so mightily moved men in the days of the revolutionary fathers.

One of the most beautiful and soul-inspiring spectacles ever beheld in the lowly house of congress was beheld in that body yesterday. The occasion was the attempt of Bully Reed to so filibuster as to prevent committees from reporting on certain bills that had been referred to them, among them being the Tucker bill which provides for the repeal of the federal election laws.

It has been shown by analysis that a young person weighing 154 pounds is composed of 96 pounds of water, three pounds of white of egg, a little less than one pound of pure glue, 34 1/2 pounds of fat, 8 1/2 pounds of phosphate of lime, one pound of carbonate of lime, three ounces of sugar and starch, seven ounces of fluoride of calcium, six ounces of phosphate of magnesia, and a little ordinary table salt.

It is claimed that over 700,000 sheep are annually killed by dogs, the value of the mutton and wool thus destroyed being estimated at \$3,000,000.

It is estimated that there is invested in this country, in one form or another, something like \$900,000,000 of foreign money, all gold or its equivalent.

A large factory in Fairfield, Me. expects to save about \$10,000 yearly by burning sawdust instead of coal.

AN OPPORTUNITY

What is needed and all that is needed in the Senate now is capable leadership. We have had five weeks of speech-making upon a subject which was thoroughly understood and upon which the people had made up their minds even before Congress met.

The pressing need of the hour is a leader. He must be tactful and resourceful and must have demonstrated a capacity for direction which will inspire confidence in the minds of his followers.

Of all the members of the Senate who favor repeal one stands forth conspicuously as the best equipped for this task. He is Senator Gorham. His ability as a parliamentarian and a manager was proved by the success which crowned his conduct of the fight against the Force bill.

Will he not seize it promptly, add fresh laurels to those which he has already merited and obtained, and by a second and greater service win the plaudits of a disgruntled people?

Every railway should have its surgeon. He is a necessity as much as its lawyer, its president, or even its superintendent. The professions of both law and medicine are now a necessity for the proper management and conduct of a railway.
