

Daily Democrat.

THE TARIFF BILL.

The Washington correspondent of the St. Louis Republic says:

Work on the tariff bill by the democratic members of the ways and means committee continues on the lines of making the raising of revenue the object of the bill and protection the incident. That, according to one of the members, is the direction the proceedings are taking at present. There seems to have been considerable talk about enlarging the free list, as there are many articles now subject to duty which yield but little revenue to the government. This points to many agricultural products where competition with American producers is impossible to any considerable extent.

The tax on wheat and other grains may be abandoned, with the exception of barley, as there is a considerable demand for protection against Canadian barley. It seems that the protest of the market gardeners of the Atlantic coast who did not want the duty removed from vegetables, will not have very much weight, as there seems to be an opinion prevailing in the committee that Bermuda products will not cut much of a figure as competing against those grown on Long Island and other places along the coast. It is argued that the Bermuda products are shipped in at a time when the products of the home gardens could not be planted. The market gardeners in the vicinity of Buffalo, Detroit and other large cities along the Canadian border have been disturbed to some extent by the anticipated competition of the Canadians, but members of the committee say that the consumers will receive the benefits of the reductions in price if any follow.

It was supposed that after the statement of the governor of West Virginia before the committee perhaps Chairman Wilson might be inclined to oppose a change in the coal schedule. But it is intimated at the least that coal is very likely to go on the free list. It has been argued that the West Virginia coal fields are benefited only where tide-water can be reached by rail and canal routes and that is a small matter when the entire consumption of coal is considered, while it is claimed that the benefits to be derived by free coal to the New England manufacturer is an item of great importance. It has also been claimed the interior coal fields cannot be affected materially by free coal.

There has been considerable talk over the iron and steel schedules and there are intimations that this is the most difficult problem that has yet confronted the committee and one which is quite far from settlement. Members of the committee have talked about a reduction of duty on pig and scrap iron from \$6.72 to \$6.50 or \$6 per ton, with the view that there would be large revenue derived from importations under such a reduction. As to the manufactured products of iron there is yet nothing that can be called an agreement. That there will be a reduction is beyond doubt, but the fixing of duties is considered one of the difficult matters before the committee.

The iron ore schedule is another stumbling block. The pressure from the regions along the great lakes is for a reduction of considerable duty. The Lake Superior iron miners, who have a large output, have been urging their members of congress to maintain, if possible, protection on iron ore. But this part of the bill has not been generally discussed by the members of the committee. Some members of the committee say there will be no difficulty in raising sufficient revenue, and that they need not fear making reductions on that ground.

It is intimated that whiskey will stand an increased tax of 25 or 30 cents a gallon very easily; also that the tax of \$1 a barrel on beer is very light, especially as the brewers are expecting a reversion on barley and hops. There are also intimations of evening up the duty on sugar so that refined sugar will have no advantage over raw sugar. As a means of raising revenue some members of the committee say that half or a quarter cent may be placed on sugar without any ill effects.

In Switzerland, the orange and myrtle blossom, those graceful symbols at weddings, find their substitute in Gruyere cheese. A fact you may take our word for it. On the day of her marriage the bride receives a whole Gruyere cheese, which is religiously preserved in the family. As time goes on, various marks and notches are cut into it which serve to record the births, marriage, deaths, etc., occurring in the household and among the relatives.

The capitulation of Senator Voorhees and the administration cohorts to the silver attempt to enact laws by brute force.—*Evening Telegram.*

The attempt to enact laws by brute force was first commenced by Teller, Wolcott, Morgan, DuBois and others, when they entered into a plot by which a minority of the senate agreed to build out physically indefinitely against the passage of the repeal bill. There was no pretense that they had not had ample time to debate the question. They knew if a vote were taken they would be overwhelmingly defeated. They resorted to the foolish test of brute force.

"Democrat" at Lebanon should not be surprised when the paid tool of a monopoly newspaper organ, (notwithstanding he claims to be a democrat) should engage in the bitterest abuse of such democrats as Cleveland, Carlisle, Lamont, McPherson, Pelmer, Hill and Voorhees. The hiring is doing the work as a compensation for the mess of pottage he has received. The organ had a dirty, very dirty scheme to consummate but it found a man clothed in the disguise of a democrat base enough to do the work.

To adopt the compromise silver measure proposed by Harris would fall far, very far short of the free and unlimited coinage demanded by Bland, Bate, Vance, Vest, Morgan, Mitchell and others. It is not giving silver the recognition it should have. Let the free coinage of silver bullion, the product of our own mines be adopted and that will be a recognition that will count for something.

When the federal election law repeal bill and the tariff reform bill shall reach the senate, will not the spectacle of Lodge, Chandler, and one or two other republicans debating them indefinitely to prevent a vote be a most beautiful one for such democrats as Vest, Vance, Morgan, Pugh and Daniel to behold?

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Hood's Cures

Numerous Boils
And Catarrh in the Head

Mr. W. L. Tucker
Roseburg, Oregon.

"I feel that it is impossible for me to say too much in favor of Hood's Sarsaparilla. I was a great sufferer from impure blood and Catarrh in my head. Job's comforters failed to comfort me, and I suffered from numerous boils.

Agony Beyond Description.
When I began to take Hood's Sarsaparilla I had six of them, only four of which came to a head, and since then, thanks to this good medicine, I have been free from this great affliction. I gained 11 pounds in three weeks. The Catarrh in my head, which had troubled me for years has also been cured by Hood's Sarsaparilla and I am enjoying good general health. I earnestly recommend Hood's Sarsaparilla to all who are afflicted." W. L. TUCKER, Roseburg, Oregon.

On a Conservative Basis.

OWING to the present monetary stringency and during the existing condition of the financial market, I find it compulsory to run my business on a very conservative basis. Sugar, as you are aware, is handled on a very small margin of profit, so small in fact that scarcely pay for the handling of it, and the terms upon which it is bought are very strict (cash only). While money was plentiful and collections good, I was able to allow sugar bills to run 60 days; but conditions at present are such that I will sell sugar for cash only. I assure you I was very reluctant to make a rule of this kind, but the conditions of the market are such as to make it imperative. Trusting you will look at this in the proper light and also understand that this rule applies generally.

ALBANY, -:- OREGO

THE WAY SHE LOOKS

troubles the woman who is delicate, run-down, or overworked. She's hollow - checked, dull-eyed, thin, and pale, and it worries her. Now, the way to look well is to be well. And the way to be well, if you're any such woman, is to faithfully use Dr. Pierce's Favorite Prescription. That is the only medicine that's guaranteed to build up woman's strength and to cure woman's ailments. In every "female complaint," irregularity, or weakness, and in every exhausted condition of the female system—if it ever fails to benefit or cure, you have your money back.

For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

If you're suffering from Catarrh, the proprietors of Dr. Sage's Catarrh Remedy ask you to try their medicine. Then, if you can't be cured, they'll pay you \$500 in cash.
