GOOD EVENING.

Canon Cooney.—J. F. Cooney left Wednesday for Portland with Deputy U. S. Marshal Humphrey. We understand he is called to Portland to answer in the U. S. court to a charge in connection with some business cases in which he was attorney.

Cal Hodges. brother of H. Hodges, of this city, passed through here last Sunday accompanied by his family, on route to Ashland. For a number of years past Mr. Hodges has been farming near Spokane, Wash., but having tired of raising wheat for a number of years, has determined to go to Southern Oregon and engage in fruit growing.

For the enlightenment of those abroad, we publish the following retail prices of vegetables, fruits, etc., at present prevailing in Prineville: Potatoes, 81 per bushel; onions, 82 cents per lb; prunes, 75 cents per box; apples, 81 per box; butter, 25 cts per lb; eggs, 25 cts per doz. Cereals are: wheat, 60 cts per bushel; oats, 25 to 30 cts; rye, 50 cts and barley 40 cts.

P. G. Carnicelo had rather a tough experience in Weldford recently. He went to the purpose of selling some bonds of the Prineville Irrigation company, and met with success there he took the train for Eugene, investing about all the money he had in railroad fare. At Eugene he found the bond market paralyzed, and concluded that he had better get back to Crook county at once, so he footed it from Eugene to Seaside where he had left his team, and lost no time in getting back across the mountains.—Prineville papers.

A LIXX CO. AMAZON.—Most of the papers of Oregon have made some remark about Mrs. Toole, the plucky Oregonian, and her husband who was recently arrested on complaint of Mr. Hunt and discharged by the grand jury. An Astoria paper publishes an item with the above head about the mother-in-law of Mrs. Toole. The days of early times in Oregon, the days of the trail and the foot-log, produced a generation of hardy, stout and fearless young Amazons, who could handle a cayuse, lasso a Spanish horse or fought a grizzly bear with equal confidence. As the wilds were opened to settlement and civilization, these wild women of the valley finally married, and the strong hands that had hurled the lasso began to rock the cradles of another generation of men and women who are now foremost in the social, political and business affairs of the state. But the "wondered ladies" of the early Amazons are not wholly extinct, the following will show.

OREGON ON TOP.—A Salem man is in receipt of a letter from his brother who has just paid a visit to the World's fair. Speaking of Oregon he says: "In my judgment the Oregon exhibit exceeds all others, with Washington a good second. I found there a very genial man by the name of B. S. Cook, also Geo. Watt. I really never saw nor expected to see such large fruit as Oregon and Washington had there. Why, you folks had an apple that weighed a little over thirty-five ounces and many others nearly as large, and pears five inches long. A man who was there with me said the apples looked as if they would not hold their fruit up."

 Tom McNary, who had been in prison so many times, the last time in Dallas, as a result of getting drunk, writes to Sheriff Wells that he has not touched a drop of liquor since he left our jail and intends to never again touch that which made him a worthless vagabond instead of a useful man.—Hemizer.

Calvin Davis spent Sunday at Brownsville, having come over on his bicycle. He returned Monday morning, making the trip a distance of 26 miles, in 2 1/2 hours. This is very fast time when it is considered that the roads were muddy and in a bad condition. He informs us that he made five miles in 20 minutes on the trip where the road was comparatively good.—Corvallis News.
 Last evening the Epworth League of the M. E. church gave a "hard times" social at the residence of Mr. H. W. Settlemier, in honor of the Halloween season. It was a pleasant affair from beginning to end. The costumes worn would have done credit to a company of tramps. Mr. Henry Olding received the first prize for the hardest times gentleman's costume and Mrs. May Ridenour on the part of the ladies. A sumptuous repast of nuts and apples was served.
 John F. Wallace, of Chicago, chief engineer of the Illinois Central railroad company, arrived on his private car on this morning's overland train from San Francisco. The car contained his family, of wife, son and daughter and servants. It was set out on the cannery track and today the party has been a guest at "The Willow" farm of the late R. S. Wallace. Mr. Wallace is a nephew of J. M. Wallace, president of the Salem Water Co., and is one of the most prominent civil engineers in the country. He has charge of 4000 miles of the Illinois Central system, besides building the tracks on the World's fair grounds and all the viaducts leading thereto. He also built big steel bridges at Omaha and Kansas City, and is regarded as an expert in bridges. He has been given a month's leave of absence and will inspect the Salem water works system while he is in the city. Mr. Wallace and family will be the guests of Mr. J. M. Wallace this evening and tomorrow.

CORVALLIS.
 Anything that is contrary to God's law and the laws of our country is never right. There is a custom (although ancient) that is carried on by the lower class of humanity (the hoodlum boys.) They will gather on the last night of October and destroy or misplace the property of others thinking that they have a right to do so; if a few of this class were put under arrest it might have the effect to show to other that the laws of our state are worthy of respect, and that the better class of people will not tolerate hoodlumism.
 Mr. Herman Holstein arrived home the forepart of the week. He thinks Oregon is good enough for him.

 Our church bell is still on the ground. The hoodlums ring it Halloween night.

CONSETS.—All our Kabo corsets are made with the new patented soft eyelets which are warranted not to pull out or cut the laces. Their use prevents the back of the corset showing through the dress, and avoids staining of underclothing, which is the case when metal eyelets are used. We confidently recommend them, not only as a perfect fitting corset, but the most durable one in the market. Made in medium, extra long, and extreme long waist. For sale by Samuel E. A HORRIBLE ACCIDENT.
 several People Plunged Through a Draw and Drowned

PORTLAND, Ore., Nov. 1st.—About 6:20 o'clock this morning an electric car belonging to the Oregon City division of the east side Railway Co., ran through the draw of the Madison street bridge at this place and plunged into the Willamette river, a distance of about 20 feet. It is impossible to state at this writing how many passengers were carried down with the car, but it is reported to be about 29. The united Press representative has interviewed both the conductor and motorman of the electric car which went through the bridge into the Willamette river this morning. Conductor says the register of the cash fare is in the car which is now lying at the bottom of the river. Many transfer tickets are punched by hand punch, so he has no means of saying how many passengers were actually on the car at the time of the accident, but estimated total number at about 29. Motorman stayed with car long as possible, having a very narrow escape for his own life. Conductor and motorman have both surrendered themselves to the police authorities and were released on their own recognizance.
 James Steel, president of the railway company, has been placed under arrest.
 The following bodies have been recovered:—Chas. Beckmann, bookkeeper for Chris Hansen & Co., painter, Alder street; J. H. Anderson, shoe maker, employed by E. and A. J. Martin & Co.; Alon Campbell, proprietor Calined saloon. A dead note printer, named W. P. Scott, among drowned, body not yet recovered.
 Two men named Bewick and Scott are missing.

Another dispatch says there were fifteen on board, and that ten jumped off and only five were drowned, all residents of Milwaukee.

Is it not worth while to make sure that you tea, coffee, sugar, baked goods and innamens, big other groceries are of the best quality? There is such a trifling difference in the prices of the best and the worst that it does not pay to buy the worst, even on the false ground of supposed economy. The best is always the cheapest, because the most satisfactory and durable, and the very best of everything in the grocery line is kept at Parker Bros.
