When my little girl was one month old she had a scab form on her face. It kept spreading until she was completely covered from head to foot. Then she had fevers. She lost forty on her head at one time, and most of her body. When six months old she weighed seven pounds, a pound and a half than at birth. Then her skin started to break up and got so bad she could not shut her eyes to sleep, but laid with them half open. At this time, at the earnest request of friends, I started using the CUTICURA REMEDIES in one month she was completely cured. The doctor and drug bills were over one hundred dollars, the Cuticura bill was not more than five dollars. My child is now two years old, strong, healthy and large as any child her age (see photo.) and it is all owing to CUTICURA. Yours with a Mother's Blessing, MRS. GEO. H. TUCKER, JR., 335 Greenfield Avenue, Milwaukee, Wis.
