Daily Democrat.

TARIFF BILL.

Ten days, or a fortnight, will probably see the new democratic tariff bill given to the public. The democratic members of the ways and means committee have not yet made their final revision of any schedules, but a number of them are decided upon for all practical purposes, and will not be changed, except in minor details. The policy of a revenue tariff will be pretty closely adhered to in dealing with raw materials and partly manufactured goods, and considerable cuts will be made on finished productions.

The wool schedule may be slightly modified in the definitions of goods, but it is believed that the duties will remain substantially the same, the maximum being 40 per cent, and the ad valorem rates below that figure being generally reduced 5 per cent. The provision regarding silverlead ores will be substantially that enacted by the 52d congress, that lead ore shall pay 1½ cents per pound, but that ores in which the value of the silver is greater than that of the lead shall be considered silver ores and exempt from duty. The duty on tin plate is likely to be reduced from 2.2 to 1 cent per pound for the present, with perhaps a reduction after a few years to the free list. The bills which passed the house in the last congress regarding cotton bagging and binding twine made both absolutely free of duty, but there has been some opposition to those provisions on the ground that they were not in harmony with other parts of the tariff, and a moderate duty may be retained. Block tin will probably be made free of duty, as was unanimously voted by the ways and means committee in the last congress, at the demand of the tin plate manufacturers.

It is calculated that an immense revenue can be derived from a very small tax upon the incomes earned by professional and business men throughout the country, and this will equalize the disproportionate burden imposed upon the poor by some of the tariff duties.

A Vienna firm is reported to be offering for sale on easy terms portable coining machines. Many are said to have been sold on the continent, and not a few in England, for export to India, where the native states and private concerns are transforming silver into rupees.

Advices from India indicate that this illegal mintage is not likely to influence values or imports of silver materially. Financial experts in Indian affairs agree that the unexpected magnitude of the Indian demand for silver since the mints closed is due partly to the cessation of the practice of melting down rupees for ornaments. This practice was too watchful to be continued after the coinage of silver ceased, and bar silver is now used almost exclusively by the artisans and manufacturers; hence the recent influx of silver.

During the last three months the shipments of silver from England to China have amounted to more than double the sum shipped in the corresponding period of 1892. This enormous increase has helped greatly to sustain the price of silver.

Mrs Lease made a vicious assault on the populist governor of Kansas the other day. In fact her assault was on all the populist state officers and state administration. Some populists there say she is getting ready to go back into the republican party. This would not be surprising to many people.

There was a material decline in the vote cast by the populist party in the late election. That party lost both Kansas and Nebraska and polled less than half the vote in Iowa that they expected. It clearly appears that populists who were formerly republicans have largely returned to that party.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

EYES OPENED.

Manufactured goods of nearly every kind enjoys protection by our laws. The farmers help pay for this in that they are consumers, while their product of wheat, corn, rye, barley, dried and canned fruits, preserved meats, etc, have to compete in the markets of the world with like products of other nations. In all candor, ought not the inequality be rectified in some manner.—Scio *Press*.

That is a concise, but accurate statement of the unfairness of a system of protection merely for protections sake. We congratulate our "protection" contemporary on the advance so recently made from his former strong protection attitude. It is true that protectionists, in order to satisfy farmers with the high duty placed on manufactured goods, have placed a duty on wheat, flour, corn, and other products that cannot possibly be benefited as a market for such articles must be found in foreign markets. But congress will soon be making a better tariff law for this country than it has ever had since the revision of the Walker law of 1847.

OUR GOVERNOR.

The following is rather lively for a reform governor, taking into consideration the amount of money it has cost the respective counties to convict these same criminals. Sixty-four full pardons have been granted by Governor Pennoyer since the first of January. These pardons were as follows: Rape 3, larceny 27, murder, second degree 2, assault to kill 3, assault and robbery 1, embezzlement 2, manslaughter 7, adultery 1, practicing medicine without a licence 1, simple assault 1, assault and battery 1, burglary 2, passing counterfeit money 1, assault with a dangerous weapon 3, selling liquor without a license 1, riot 2, exhibiting obscene pictures 1, prize fighting 2. Seven commutations of sentence have also been issued, and the remissions of fines in ten cases, principally for prizefighting.—Eugene *Guard*.

"Of my own free will and accord, unbiased by anyone, and wishing only to do good to the afflicted, I wish to tell of the good qualities of Hood's Sarsaparilla and Hood's Pills. I think there are no medicines equal to them, and have proved their merit by experience in my own family. My wife, Rachel, has been afflicted with weakness, nervousness, and salt rheum. I spent nearly all that I had of this world's goods for doctor's bills and medicine until we decided to try Hood's Sarsaparilla. It undoubtedly

IN GLASS. That's the way Dr. Pierce's Pleasant Pellets come. And it's a more important point than you think. It keeps them always fresh and reliable, unlike the ordinary pills in cheap wooden or pasteboard boxes.

They're put up in a better way, and they *act* in a better way, than the huge, old-fashioned pills. No griping, no violence, no reaction afterward that sometimes leaves you worse off than before. In that way, they cure *permanently*. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured.

They're tiny, sugar-coated granules, a compound of refined and concentrated vegetable extracts—the smallest in size, the easiest to take, and *cheapest* pill you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the *good* you get.

There's nothing likely to be "*just as good*."
