

A Racking Cough

Cured by Ayer's Cherry Pectoral. Mrs. P. D. HALL, 217 Genesee st., Lockport, N. Y., says:

"Over thirty years ago, I remember hearing my father describe the wonderful curative effects of Ayer's Cherry Pectoral. During a recent attack of La Grippe, which assumed the form of a catarrh, soreness of the lungs, accompanied by an aggravating cough, I used various remedies and prescriptions. While some of these medicines partially alleviated the coughing during the day, none of them afforded me any relief from that spasmodic action of the lungs which would seize me the moment I attempted to lie down at night. After ten or twelve such nights, I was

Nearly in Despair,

and had about decided to sit up all night in my easy chair, and procure what sleep I could in that way. It then occurred to me that I had a bottle of Ayer's Cherry Pectoral. I took a spoonful of this preparation in a little water, and was able to lie down without coughing. In a few moments, I fell asleep, and awoke in the morning greatly refreshed and feeling much better. I took a teaspoonful of the Pectoral every night for a week, then gradually decreased the dose, and in two weeks my cough was cured."

TRIBUTE.

While it is over thirty years ago since Alcock's Porous Plasters were first introduced to the medical profession and public, the marked success and unprecedented popularity which they met with not only continues, but steadily increases. No other plasters have been produced which gain so many testimonials of high value as those continuously accorded to Alcock's Porous Plasters, and the only motive for their being a medicinal and pharmaceutical preparation of superior value. Additional proof of the true value of Alcock's Porous Plasters lies in the fact that they are being largely imitated by unscrupulous persons, who seek to deceive the public by offering plasters which they claim to be the same, "equal," "as good," "better," "best porous plaster," etc., while it is in general appearance only that they resemble Alcock's. Every one of the so-called porous plasters are imitations of Alcock's Porous Plasters.

Avoid dealers who attempt to palm off inferior and worthless plasters that are purchased by them at low rates for the purpose of substitution.

Eruption of the Skin Cured.

Ed Veaney, Brockville, Ontario, Canada, says: "I have used Brandeth's Pills for the past fifteen years, and think them the best cathartic and anti-bilious remedy known. For some five years I suffered with an eruption of the skin that gave me great pain and annoyance. I tried different blood remedies, but, although gaining strength the itching was unrelieved. I finally concluded to take a thorough course of Brandeth's Pills. I took six each night for eight, then five, four, three, two, one each time by one, and then for one month took one every night, with the happy result that now my skin is perfectly clear and has been so ever since."

Self Praise.

Self praise is no recommendation, but there are not times when one must permit a person to tell the truth about himself. When what he says is supported by the testimony of others, no reasonable man will doubt his word. Now, to say that Alcock's Porous Plasters are the only genuine and reliable porous plasters made is not self-praise in the slightest degree. They have stood the test for over thirty years, and in proof of their merit it is only necessary to call attention to the voluntary testimonial of those who have used them. Beware of imitations, and do not be deceived by misrepresentation. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

The Genuine And The Sham.

Every good thing has its host of imitations; every genuine article its counterfeit. The imitators always choose the most valuable and popular article to counterfeit, so that when they claim their sham to be equal, or as good, or the same as "So-and-So's," the public may depend upon it that "So-and-So's" article is the best of the kind. The sham proves the genuine merit of the thing it copies, and never has been better illustrated than by the imitations of Alcock's Porous Plasters.

Alcock's Porous Plaster is the standard of excellence the world over, and its imitators in their cry that theirs is "as good as Alcock's" are only emphasizing this fact and admitting "Alcock's" to be the acme of perfection, which it is their highest ambition to imitate. The difference between the genuine and these imitations, which copy only general appearance, is as wide as that between copper and gold.

The only safe way for purchasers is to always insist upon having Alcock's Porous Plasters. They are the only perfect plasters ever produced.

Beck's Whisker Dye for the Whiskers does its work thoroughly, coloring a uniform brown or black, which, when dry, will neither rub, wash off, nor soil linen.

Thousands of lives are saved annually by the use of Ayer's Pectoral. In the treatment of croup and whooping cough, the Pectoral has a most marvelous effect. It allays inflammation, frees the obstructed air passage and controls the desire to cough.

A Train Robbed
St. Joe, Mo., Jan. 10.—The Burlington train leaving this city at 6:25 was held up about three miles east of St. Joe by five masked men. The train was stopped by torpedoes being placed on the track and a red lantern swung across the road in the regular custom. As soon as the train stopped three of the robbers boarded the engine with drawn revolvers and ordered the engineer and fireman to accompany them to the express car and order the express messenger to open the door. This they did, and when the express messenger opened the door the three robbers, with a revolver in each hand, entered the car and the messenger was ordered to open the safe. He did so. The robbers then took all in the safe. The amount claimed by the railroad officials does not exceed \$50.

A Lamp Accident
ASTORIA, Jan. 10.—Information reached this city from the Nehalem today of a frightful accident that happened in the Boardman residence in that vicinity. The members of the family were sitting at a table when a coal-oil lamp was upset by one of the children. The lamp fell into the lap of a girl and immediately exploded. The other members of the family made frantic efforts to tear the burning clothing off, but the girl broke away and ran out of the house screaming in an agonizing manner. She was finally overtaken, but not before her clothing had been entirely consumed and her body had been burned in a frightful manner. She will probably die.

A Stage Held Up
TUCSON, Ariz., Jan. 10.—The stage between Bowie station, on the Southern Pacific, and Solomonville, was held up yesterday by a lone highwayman. He compelled the driver to throw out the mail sacks, but did not molest a single passenger aboard. He got \$500 from the mail sacks besides accompanying advices of money orders.

Warlike Preparations of France
VIENNA, Jan. 10.—The Gazette de Venise says the commander of the forces in Liguria and Piedmont has been ordered to complete the armament forthwith of the forts on the French frontier and of the batteries on the Tyrrhenian sea. Several army corps have been ordered in readiness for war.

A Double Tragedy
SPOKANE, Wash., Jan. 10.—From Newport, on the Pend d'Oreille river, the news comes that a rancher named Bryn shot and killed H. Thompson, another rancher, and next day shot himself. Both deeds were committed on the public highway. Jealousy is the alleged cause.

Experience of an Ex-Champion
Athletes and men who take ordinary outdoor exercise such as walking, running, bicycle riding, jumping, swimming, tennis, etc., are often the subjects of acute troubles. The experience of an ex-champion walker will be of interest to all who are afflicted. Harry Brooks writes: "No. 34 East 10th St., New York, April 2, 1886. Numerous statements relative to the merits of different plasters having been brought to my attention, I take this opportunity to state that I have used Alcock's Porous Plasters for over 20 years and prefer them to any other kind. I would furthermore state that I was very sick with catarrh of the kidneys, and attribute my recovery entirely to Alcock's Porous Plasters."
