Self praise is no recommendation, but there are not times when one must permit a person to tell the truth about himself. When what he says is supported by the testimony of others no reasonable man will doubt his word. Now, to say that Allcock's Porous Plasters are the only genuines and reliable porous plasters made is not self praise in the slightest degree. They have stood the test for over thirty years, and in proof of their merits it is only necessary to call attention to the cures necessary to call attention to the cures they have effected and to the voluntary testimonia's of those who have used them. Beware of imitations, and do not be deceived by misrepresentation. Ask for Alleock's, and let no solicitation or explanation induce you to accept a substitute.

TRIBETE.

While it is over thirty years ago sloce Alicock's Porous Plasters were first introduced to the medical profession and public, the marked success and unprecedented popularity which they met with not only continues, but steadily increases. No other plasters have been produced which gain so many testimonials of high value as those continuously accorded to Alcock's Porous Plasters, and the only motive for these exceptional tributes lies in fact of their being a medicinal and pharmaceulcal preparation of superior value. Additional proof of the true value of Alcock's Porous Plasters ies in the fact that they are being largely imirated by unscrupulous persons, who seek to deceive the public by offering plasters which they claim to be the search (equal, "agood," better," best procus plaster, etc. while it is in general appearance only that they resemble Allerch.
