THE TAX ON INCOMES-

Since the passage of the income tax law by congress seems reasonably certain, its far reaching effects upon the millionaires of New York and Brooklyn have been inquired into. There are, according to a careful compilation, 1319 individuals and estates in New York city and Brooklyn that could each be taxed on a basis of \$1,000, 000. Many of them, of course, are worth much more. The computation of the amount of taxes they would pay on the basis of 2 per cent on every dollar of yearly revenue in excess of \$4,000, shows that New York alone would furnish a large percentage of the revenue derived by the government from the proposed tax. The earning capacitles of the five most conspicuous fortunes coming under this head are as follows:

John D Rockefeller's, 6 per cert; Wm Waldorf Astor's, 7 per cent; Jay Gould's estate, which being wrapped up in corporations is still practically undivided, 4 per cent; Cornelius Vanderbilt, 5 per cent, and Wm K Vanderbilt, 5 per cent.

Calculating at the foregoing rates, and compounding the interest semiannually to allow for investment, the yearly and daily incomes of the four individuals and of the catates named are as follows:

Yearly Name. income. income. John D Rockefeller \$7,611,230 \$20,853 Wm Walderf Astor . . . 8,900,000 23,277 Jay Gould's estate 4,040,000 11,068 Cornelius Var.derbilt... 4,045,000 11,090 Wm K Vanderblit 3,795,000 10,397

The average rate of interest is 516 per cent. The incomes of the millionaires in the list here have been calculated at the rate of 5 per cent. The amount of Income tax has been calculated without deducting \$4,000 from the incomes. This is the way some of the millionaires would be taxed, Those named are worth over \$10,000,000.

John D Rockefeller, worth \$125,000,000, invested in "gilt edged" securities, and in furthering various enterprises. Income, \$7,611,250; income tax, at 2 per cent, 8152,225.

Expensive Economy

Some people begrudge the little money that an Allcock's Poreus Plaster costs, and then when they are racked with pain from the soreness arising from a cold, they will spend any amount of money to relieve the pain. If they only had one of these world removned obasters on hand they would be saved a wast amount of suffering and be considerably richer. At the first sign of attiffness of the joint apply one at these plasters without any delay. The soreness will be greatly relieved at once and soon disappear entirely. It will be money saved to have them on hand, to say nothing of the comfort they bring. ing of the comfort they bring.

Self Praise.

Self praise is no recommendation, but there are not times when one must permit a person to tell the truth about himself. When what he says is supported by the testimony of others no reasonable man will doubt his word. Now, to say that Allcock's Porous Plasters are the only genuine and reliable porous plasters made is not self praise in the slightest degree. They have stood the test for over thirty years, and in proof of their merits it is only necessary to call attention to the cures they have effected and to the voluntary testimonials of those who have used them, Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's, and let no solicitation or explanation induce you to accept a substitute. Setf Praise.

"The Greatest of all our Periodicals."

The foremost men of the world write the literature of contemporaneous activity for THE FORUM.

Every great subject is taken up by The Forum when it naturally comes into public attention and is treated by the best authorities, without regard to parties or creeds. It will keep any thoughtfut reader informed on the tasks and problems of the time, as no other periodical docs.

To many thoughtful people, the price of The Forum has hitherto been probibliory; indeed all the great keviews have been too high in price for the masses of intelligent readers. But now the number of readers of thoughtful literature or interingent renders. But now the number of renders of thoughtful literature—
men and women who wish really to know what is going on in the world outside the narrow limits of perfectler sects and parties—is great enough in the
United States to warrant so revolutionary a reduction in price. The Ferum
discusses important subjects, but it is not dull. The literature of contemporaneous activity is, in fact, the most interesting of all literature. American
citizenship implies that a man shall know the opinious of the foremost men
and the latest great schievements in every direction of activity.
