## The Best Medicine.

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of Ayer's Pills:

"Ayer's Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employes for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely cured:

### Permanently Cured

by the use of Ayer's Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colds. I know that a moderate use of Ayer's Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above."

"I have been selling medicine for eight years, and I can safely say that Ayer's Pills give better satisfaction than any other pill I ever sold."—J. J. Perry, Spotsylvania C. H., Va.

## THE MIDWINTER FAIR

The eyes of the world turn westward and southward this winter; and all roads lead to San Francisco, California.

Today there stands in Golden Gate Park the most beautiful group of industrial palaces that the western sun ever shone upon.

to the choicest of their displays, and to place them where they can be seen at a better advantage than where quality had to be offered up as a sacrifice on the altar of quantity.

Another feature which will be of special interest to students of history. It is Monterey county that has embodied this feature in her exhibit at the Midwinter Fair. Her

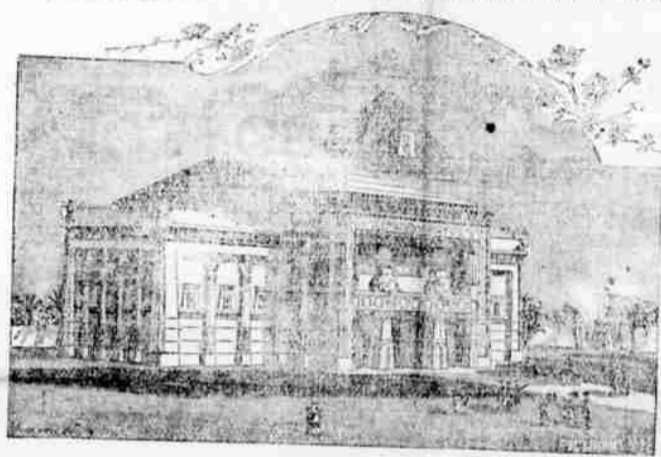

AGRICULTURAL AND HORTICULTURAL HALL.

There is a palace of Manufactures and Liberal Arts, a palace of Mechanic Arts, a palace of Horticulture and Agriculture, a palace of Fine Arts and a palatial Administration building; and all these are finished and filled with exhibits from every quarter of the globe—material evidences of every industry and art.

Other county buildings have taken on a local or historical character which is peculiarly their own.

Another feature of the exposition which is to be credited to Santa Barbara is known

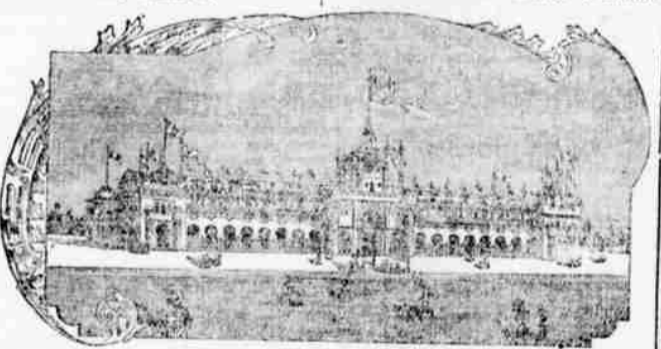

FINE ARTS BUILDING

To these main buildings have been added special state and county buildings in which the products of different sections are emphatically particularized. Many of California's neighboring states have erected exposition structures of their own and not a few of her own counties have added county buildings to the group. The area of the California Midwinter Exposition is nearly two hundred acres, and it includes more than seventy structures.

The Chinese Six Companies of San Francisco have spent more than \$10,000 in the erection of a Chinese Village, where all the trades of that nation will have practical exemplification.

Some of these buildings, as works of which created such a sensation in Chicago architectural art, are superior to the buildings seen placed in one end of the grand halls of the Columbian Exposition. A central court, over against the historical and competent critics have said that for pipe a challenge fountain, which occupies the space effect, this Midwinter display in will be Japanese tea gardens, and Jinnik-Golden Gate Park surpasses all efforts ever thus to whirl you from one part of the

made in that direction.

In addition to the buildings which contain exhibits of one kind or another, there are several structures on the exposition grounds which are wonders of mechanical ingenuity.

Among these is the Park wheel, almost a counterpart of the famous Ferris wheel at the Columbian Exposition, reaching a height of 150 feet and carrying six cars with a capacity of ten persons each.

But the grandest engineering feature of the exposition is the Great Tower, which rises to the height of 222 feet to the top of the Great Central Court.

One of the most interesting features connected with the Midwinter Exposition is the collection of exhibits made by the various nations

Another feature which will be new to a great many visitors at the exposition will be a model ostrich farm.

One of the concessions granted by the exposition management, and one in which the greatest amount of money has been invested, is that for the reproduction of Heidelberg Castle.

A great many of the Midway Pleasure features have been brought on to California.

Close by the Nevada state building, and occupying one of the largest spaces in the exposition grounds, is to be an exhibit representing in a very realistic manner "The days of old, the days of gold." This exhibit comprises a mining camp, just such an one as thousands of the early settlers know all about.

The railways, recognizing their special advantage in this connection, have been offering inducements to travelers such as have never been offered before.

The return trip from Albany over the Southern Pacific, past some of the finest scenery in the world, will be only \$26.90, including five tickets of admission.

### Eruption of the Skin Cured.

Ed Venney, Brockville, Ontario, Canada says:

"I have used Brandreth's Pills for the past fifteen years, and think them the best cathartic and anti-bilious remedy known. For some five years I suffered with an eruption of the skin that gave me great pain and annoyance. I tried different blood remedies, but, although gaining strength the itching was unrelieved. I finally concluded to take a thorough course of Brandreth's Pills. I took six each night for rights, then five, four, three, two, one evening each time by one, and then for one month took one every night, with the happy result that now my skin is perfectly clear and has been so ever since."

2. Chest troubles, such as pleurisy, pneumonia, consumption.
3. Indigestion, dyspepsia, flatulency, kidney complaint.

The success, however, will depend upon the genuineness of the plaster used. The popularity of Alcock's Porous Plaster has been so great that multitudes of imitations have sprung up in every land. The only sure cure is to get the genuine Alcock's Porous Plasters.
