

NOT ABLE TO WALK

Heeded Friend's Advice and was Wonderfully Improved.

"For some time I have suffered with great weakness and was not able to walk. I could not sleep nights, and did not have any appetite. One day a friend advised me to take Hood's Sarsaparilla and I did so. After taking five bottles my health was wonderfully improved. I am 57 years old, but Hood's Sarsaparilla has made me feel much younger." H. KETAS, 821 Yeeler Way, Seattle, Wash.

It cost \$4,000,000 to bombard Santiago. A pretty good job was done though, one that will help make history.

This is the outing season. The greatest outing will be that of Spain when the loss of her principal outside provinces is announced.

The air just now is pretty well filled with jingoism. Sometimes jingoism is a pretty good thing, but just now it is rather obnoxious in its character.

Don't get in a hurry. Hawaiians are not yet residents of the United States, but will continue to be aliens until laws have been passed to govern them.

Fitzhugh Lee is to have charge of the campaign against Havana, but of course there will be no campaign against Havana. That is not a part of the program.

This young Aquinaldo has the big head pretty badly. If Dewey once takes hold of his case his head will decrease in size until it cannot be seen.

These generals are writing for history when they make their reports, a fact easily appreciated when their war essays have been read. General Shafter's though not always grammatically correct contain lots of horse sense, and are noticed for the absence of the word I.

If you want pessimistic ideas about things generally do not come to the DEMOCRAT for them. It looks on the bright side of things and will continue to do so as long as there is a ray of sunshine left.

The oldest university in the world is El Ayhar, at Cairo. It is the greatest Mohammedan university, having clear records dating back nearly a thousand years.

The Porto Ricans appreciate the situation better than any of the Spanish possessions and are acting very sensibly. They have seen enough of Americans to know that under our government they will be better taken care of and have greater prosperity than they could possibly have or ever have had under the selfish Spaniards.

In the death of Bismarck the world loses a great man, one of colossal brain, a born leader, a deep thinker, a master of logic. He practically governed German thought for nearly half a century. In the death of Gladstone and Bismarck the world loses its two greatest citizens. Who will take their places?

With a glorious victory on every corner Americans are somewhat sick of the war, because we are not a warlike people. What then should Spain be, with her navy under water, whipped in every engagement, and a bankrupt people. She ought to be about ready for her coffin.

While Spain is not entitled to the Philippine islands it is a fact that the United States had better not haggle over them. In the mind of the DEMOCRAT they are a very undesirable acquisition to the United States. Aquinaldo by his arrogance has shown that he is not entitled to much assistance, and if he is allowed to run things alone and then gets into trouble it will be his own fault and we can wash our hands of the affair.

This Englishman Hooley, who made a fortune in a few years and then lost it all is showing up the English aristocracy in a startling manner. Hooley on several occasions paid noblemen \$10,000 just for an introduction, and one man \$125,000 for being a stockholder in one of the swindling concerns just for the benefit of his influence. Therefore it is proven that all the rottenness in the world is not among American politicians as some people have surmised.

Porto Rico was discovered in 1493, by Columbus. In 1511, Ponce de Leon founded the town of San Juan Bautista, familiarly known as San Juan. In 1595 Drake sacked the city and three years later the Duke of Cumberland also looted it. These acts were in a measure revenged, when in 1615 the Dutch were repulsed, when again, in 1673 the English were unsuccessful, and when again in 1797 Albercrombie retired after a three days siege. In 1820 the Porto Ricans rose in revolt, but were put down. Since then there have been incipient revolutions.

Sick headache, biliousness, constipation and all liver and stomach troubles can be quickly cured by using those famous little pills known as DeWitt's Little Early Bitters. They are pleasant to take and never grieve. At J. A. Cummings.

Catarrh Cured. A clear head and sweet breath secured with Shiloh's Catarrh Remedy; sold by Foshay & Mason.

The surprisingly bad marksmanship of the Spanish gannons is as brought to light some interesting facts concerning the relative skill of the Anglo-Saxon and Latin races. It is said by those who know that a dark eyed race never makes good marksmen, and many instances are cited. It has become a proverb in England that no dark eyed man ever goes on the Eieho shield. A case in point is that of a family of eleven men, all gray eyed and all good riflemen, with the exception of one, dark eyed, who himself admits that he cannot shoot a barn, and if put inside and blindfold would send his bullet through the only knothole.

Gov. Leedy's aggregation of Kansas volunteers are still subject to the ridicule of their comrades from other states because of the cheap character of their equipment: "One of the standing jokes in the camp," writes a soldier from San Francisco, "is about our poor uniforms, and a common question when one soldier meets another, is: 'What are the color of my pants this morning?' I have seen a soldier on parade with pants that were colored in one leg a light blue and in the other a red green. Both legs won't fade alike and it makes us look like circus clowns.

The Easton (Pa.) Free Press is paying one of the penalties of being published in a city which is dominated by a college. One of the professors of Lafayette college has prevailed upon Mr. Andrews, the editor, to adopt one feature of a system alleged phonetic spelling, the using of the "t" instead of "ed" in the ending of words which are pronounced as though spelled with a final "t." Now the Free Press prints "askt," "husht," "publiast," etc.

In Russia the proportionate number of births is nearly double that of France, while the German population increases faster than that of any other country.

Beware of Ointments for Catarrh that contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the local and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure and get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.
