GOOD FOR THE COLLEGE.—Last week we received the 31st annual catalogue of the Albany college at Albany, Oregon. The school is reported as having done excellent work the past year. This school is growing in reputation and increasing in efficiency from year to year. It is a good place to send young men and young women where they may obtain moral as well as intellectual training, one of the true essentials to pure manhood and womanhood.—Grants Pass Courier. The Democrat has not yet received a catalogue.

THE JUDGE CONTEST.—In the election contest of P. H. D'Arcy vs. R. P. Boise, candidates for the circuit judgeship in this district, the recount in Yamhill county was completed Tuesday evening. The result is a net gain of four votes for Boise, making his plurality 86 instead of 82.
There remains but one county, Tillamook, where the hearing is set for Aug. 24. This will not change the result in all probability.

MANILA LETTER.

MANILA Bay, Cavite, July 12, 1898. From Leslie Verick to L. Verick and family.

We arrived safe at Manila as this letter shows. A few words more about Honolulu and I will cease to bother you about our trip. I visited the Bishop Museum at Honolulu. In it were many things of interest, such as plumes, bird eggs in short very many things a savage native has had use for. Also on the same ground is located a school for children of Honolulu, who gave an exhibition of military drill for our benefit, with wooden guns. They have two companies of infantry. They are well drilled for children.
I may mention here that they make a speciality of raising cocoanut for hog food. It seems as if the island is made up mostly of Chinese and Japs, and an American laborer would not have much show, but capital could find good investment here, I think.

I do not have as much time as you would suppose as every morning the non commissioned officers have to take an examination which we all have to attend. About Hawaii being annexed I would say, there are some there who do not want annexation, but we ought to annex them by all means, whereas if some other nation gets the island it will always be a menace to our Pacific commerce. Some think it would cost too much to maintain the island, what if we had to some day take the island by force. Then the expense would be ten fold.

Talk about rain in Oregon it rains here in torrents I feel well, can now eat sow bellie and drink black coffee.

Your address to my letters is all right, as I think I am getting every one right now.

We have lots of fruit. To describe how it tastes would be impossible, but the Oregon boys would like some Oregon cherries and pears.

I will try and give you an account of an exciting scene. The Charleston had orders to stop at the island of Gwam in the Laifones group and take a gun-boat and a force and make the Spanish garrison prisoners. We arrived off the island Sunday, June 7. Wednesday morning the Charleston steamed up the Bay, but found no gun boat. She fired 13 shots at the fort, 12 of them taking effect. What was our surprise to see natives come down to the fort and make inquiry as to what was up. They thought we were firing a salute. They did not know that Dewey interrupted communication at Manila. We raised Old Glory never to come down again. The Governor of the island surrendered, he with 50 other Spanish officers and 50 privates were placed on board our ship, the City of Sydney. We steamed away the same evening got a little fruit from the natives and arrived here early on the 30th of June about 5 p. m. We find Dewey alright. We expect to land soon. Germany has 8 cruisers here, but if Japan with her five and England which has three here stand in for fair play we will be alright.

In this letter I cannot give you any ideas about Manila or even Cavite as we have not had a chance to get off yet. I have been sick, caused mostly by the rough weather we experienced in the China sea.

We have now 20 rounds of ammunition on each issued today and everything must be done up to the handle. Most of us are broke as we have not as yet received any pay. The most of us intend to send our pay home. If Dewey had the money here he could take Manila in no time. How is ice cream business? You ought to be here. Ice cream would sell like hot cakes. I am feeling fair now. Hope you are all well and have some of the weather we have to make good ice cream treat.

Last Monday D. F. Sturtevant brought to the Champion mills the largest load of wheat ever brought to town. He had on 78 bushels and 36 pounds.

No less than twenty-five men were at the paper mill straw yards Monday morning to reek employment, not all of which got work that day but have since been put to work.

P. R. Ewing writing from California to G. S. Gilstrap of this place, says his brother, J. R. Ewing, is not so well as he has been.

H. T. Bogart's sawmill on Roaring River, three miles from Lacombe, was burned one day last week. Several thousand feet of lumber was also burned. There was no insurance.

C. E. Brown, a Salem capitalist, was in this city last week looking at some property with a view to making some investments. We understand that he made Mr. Hughes a proposition for the Light and Water plant.

We received a large picture of Camp Merritt last week from L. A. Wiley who is at that place with the Ore. Volunteers. The picture is a fine one and shows every tent in the camp as well as considerable of the surrounding country.

Last Friday evening according to arrangements quite a number of the Albany Hives, L O T M made a friendly visit to their sisters of the Lebanon hive. The evening was spent in a very enjoyable way; refreshments such as lemonade, ice cream and cake were served and it was not until a late hour that the assembly broke up. These present members of Albany Hives, were: Goughs, Meranda, Stetter, Seely, Sears, Fratia Beans, Emma Beam, Will Parker, Ted Parker, Sittes, Kelly, Anderson, Willie Meyer; Mrs. Hardman, Lebanon No. 1, Misses Helen Crawford, Parrish of Rossburg; and several whose names we failed to get.
