Observations.

Republican papers are objecting that democratic ones, which once spoke warmly about Theodore Roosevelt, are now picking flaws in his conduct of affairs. Naturally so!

Its difference of opinions that makes several newspapers when there should only be one.

It seems that the Secretary of the Treasury has full power to include anarchists just as he excludes a good many other classes of undesirable people, but has refrained from doing so because of the difficulty of detecting them.

Public sympathy was with the steel strikers only because they were fighting the steel trust for the rest, the public found it impossible to understand what the strike was about, anyway.

A good republican paper of Philadelphia declares that it is "anarchism" to expose the unutterable corruption of the ring that runs that city.

President Roosevelt will urge the subsidy bill on Congress, but his civil service predilections should prevent him from using government patronage to urge it through.

Three defeats in three days, including a total loss of over three hundred men and several guns is a pretty heavy blow for the British to receive from the "scattered and disorganized guerrilla band" of Boers.

In France, avowed anarchism may be imprisoned or banished. The newspapers are forbidden to publish accounts of their trials.

The big trusts say that they sell only their surplus product abroad. Can a recent single order for 10,000 car-loads of steel rails filed by one firm, be considered merely as a surplus?

British official reports place the increased wages paid last year to workmen in that country at \$30,000. This doesn't look much like the decay we have been hearing so much about.

Those who criticize the medical treatment of President McKinley should remember that medicine is not an exact science by any means. If it were, we should all die of old age.

In these athletic days, it is usually the better half that gets the better of it. This however, doesn't seem to satisfy his worse half.

Both France and Germany are beginning to wonder to which of them the car will finally hand out the gold brick.

Roosevelt may try to give a McKinley administration but we'll wager a small sum that he doesn't succeed. The difference in the temperament of the two men are too marked.

Minister's Mistake.

A city minister, who recently handed a notice to be read from his pulpit, accompanied it was a clipping from a newspaper bearing upon the matter. The clergyman started to read the extract and found that it began: "Take Kemp's Balsam, the best Cough Cure."

MAKER CIVIL.—C. R. Widdow, one mile north of Albany, on the Independence road will make you apples into cider for 2 cents per gallon.

Ruling Passion Strong in Death.

EDITOR DEMOCRAT:—As every well informed person knows, the Democratic party, with absolute unanimity has condemned the murder of Mr. McKinley. It still holds in utter detestation that infamous deed. As a party, it deserves no credit for this. It seeks none.

The fact that some men today began shouting at day-light and had not come back to town at pre-times makes it look very much as if they were either poor shots or were disregarding the number limit.

It is the ambition of the fast automobilists of the east to make a mile a minute. They are within fourteen seconds of it and it is quite possible that some fool will stuff in enough gasoline to accomplish the feat.

The Baptist ladies of Salem, who had a restaurant at the fair were accused of being the cause of the continued rain of the week, and a wag told them on that account their restaurant would have to be removed from the grounds. But it was not, and the ladies continued to serve some very palatable meals.

It has been learned that Czolgoz means "to crawl" in the Polish language. So some have called Czolgoz a rattle-snake. But he certainly is not, for a rattle-snake always gives warning before striking.

Well, such cartooning as this can not be justly criticized for it is an open secret known of nearly all men that the national administration for the last four years has been the friend of the trusts. Conclusive proof of this is to be found in the fact that no effort worthy of the name has been put forward by Mr. McKinley or his cabinet to curb the grasping encroachments of these modern octopuses.

MISFITS

The foot ball season and Chinese quarrelers opened at the same time, and now the blood will flow.

It took the powers a long time to settle the Chinese trouble, but Pacific coast hunters this morning made short work of the Celestials of Linn County.

Really ten birds is enough for any man in a day. It is not well to have too much of a good thing at once.

The fact that some men today began shouting at day-light and had not come back to town at pre-times makes it look very much as if they were either poor shots or were disregarding the number limit.

The Democrat has received a long article from St. Louis, the mission of which seems to be to prove that Oregon was a part of the great Louisiana purchase. Most anything can be proven nowadays.

In Europe they raise grouse and other birds and then let them loose on a landed estate for a titled ignoramus to shoot down in flocks while his men load his gun. This is inhuman. Oregon does well in limiting the number of birds to be killed to ten.

The Baptist ladies of Salem, who had a restaurant at the fair were accused of being the cause of the continued rain of the week, and a wag told them on that account their restaurant would have to be removed from the grounds.

A man went into a saloon in Portland and in a short time drank up \$37 worth of liquor, and then was arrested for drunkenness. The saloon keeper was in court when the case was called and was given a very live lecture by the prosecuting officer who faced him and declared that selling liquor to a man in the condition of the prisoner was practically robbery.

Last Saturday the janitor of one of the churches of this city was cleaning things up preparatory to the next day's services, and had the front door open, when one of the members of the church entered and took her accustomed seat about the usual hour of morning services.

Eugene could not raise a \$15,000 bonus for a new woolen mill, a fine thing for a city. It looks like a matter of enterprise, and yet as a matter of fact it would be a good thing if all cities would fall to raise bonuses. They are absolutely wrong on principle from the bonus for a junk shop to the bonus or subsidy for ship building.

Here is another story told to prove that Englishmen cannot see a joke: A big, good-natured farmer was waiting the suburban train, accompanied by a handsome Gordon setter. Two sons of Britain stood near him. The dog strayed away from his owner, who was reading a newspaper.

"Hey!" called the farmer. "Come here, Locksmith," and the dog immediately ran to his feet. One of the Englishmen approached the farmer. "May I ask," he said, "what you called that dog?"

"Locksmith," said the farmer. "And why, pray?" "Because everytime I kick him he makes a bolt for the door." There was a general laugh, to which the Englishman joined.

CANTON, Sept. 29.—A strange story comes from Westlawn cemetery tonight, where a company of regulars from Fort Wayne are guarding the vault in which the body of the late President McKinley lies. It is to the effect that the guard on duty on top of the vault fired a shot at one man who refused to heed his challenge; that the shot was diverted by another man who appeared from another direction, and that an effort was made to stab the guard.

Attended Church. WASHINGTON, Sept. 29.—President Roosevelt attended divine services today at the Grace Reformed Church, accompanied by his daughter, Ethel and her son, Kermit. The little building was even more crowded than a week ago. Chairs were placed in the aisles and about the end of the room, and several available themselves of seats on the window-sills.

Evans Testifies. WASHINGTON, Sept. 30.—Admiral Evans, who, as Captain, commanded the battleship Iowa during the Santiago campaign, was a witness before the Schley court of inquiry today. His testimony covered the period from the time the Iowa left the port of Key West on May 20, 1898, until July 5, when Admiral Evans testified he had had a conversation with Admiral Schley concerning the battle on July 3.

The Strikers War. SAN FRANCISCO, Sept. 30.—A number of union teamsters atacked a non-union driver this afternoon at Seventh and Minna streets and a fusillade of shots was fired, with disastrous results to two of the attacking party, Charles and John Ryan. The surgeons say both men will live.

There is no statement in the Good Road movement. The numerous conventions that are being held in the Middle West show that the farmers appreciate the importance of first-class highways.

Is it not about time for the British Ministers to issue another Blue Book? A collection of the latest bulletins from South Africa will certainly furnish the right sort of copy.

When it comes to "yellow" journalism the Globe-Democrat's indecency during the week following President McKinley's death breaks the jaundice record.

Cable Proposal.

WASHINGTON, Oct. 1.—Five of eight members of the Cabinet were present at today's meeting — Attorney General Knox, Secretary Long, Hitchcock and Wilson and Postmaster-General Smith. The principal subject discussed was that of a cable to Hawaii, Guam and the Philippines. A proposal has been made to lay a commercial cable from San Francisco to connect the islands, and the question under discussion was whether, under our peace treaty with Spain, the United States could authorize or encourage the laying of such a cable by private persons.

The Second Attempt. NEW YORK, Oct. 1.—Today's attempt to sail the second of the present series of international yacht races for the blue ribbon of the sea proved a dismal failure. Between 25,000 and 30,000 people who composed the pleasure fleet of Sandy Hook Lightship in hopes of seeing a repetition of the thrilling sport of Saturday, witnessed instead more of a dulling match than a race. The Shamrock was half a mile ahead.

Against Davis. SALEM, Sept. 30.—George W. Davis, the ex-clerk of the School Land Board, failed to file his answer to the state's complaint within the time allowed, and is, therefore in default. Mayor Rowe Held Up. PORTLAND, Oct. 1.—An audacious, nervy highwipman, wearing a mask, at the point of a pistol held up Mayor H. S. Rowe last night at the north-west corner of East Sixth street and Holladay avenue, stole the Mayor's gold watch and about \$8 in money and cash.
