POSTAL SAVINGS TO GAIN MILLIONS

New Law Will Put Hoarded Money In Circulation.

RAISES LIMIT OF DEPOSITS.

Those Who Wish May Put \$1,000 to Their Credit Instead of \$500, as Heretofore—Only One-half of This Money is Interest Bearing—Funds Are Always Redeemed by Government.

Washington.—"All over the country, more especially in New York and other large cities, postmasters report that under existing law they turn away a much larger amount of money offered for deposit in the postal savings system than they are authorized to receive. Of the \$45,000,000 now on deposit approximately \$6,000,000 was turned over to the care of Uncle Sam by patrons of the New York postoffice. Under the provisions of the bill recently passed by the senate and house, postmasters will be in position to accept many deposits which they must now turn away. This should cause the deposits in the postal savings system to increase very rapidly."

Alexander M. Dockery, third assistant postmaster general, who has general supervision of the postal savings system, made this statement, and said:

"Patrons of the postal savings system must not be disappointed if they find that they are unable to deposit \$1,000 immediately after the bill has received the approval of President Wilson. While the limit of deposits which an individual may have in the system is increased from \$500 to \$1,000 by the bill, only \$500 is interest bearing. Before any non-interest bearing deposits can be received the department must prepare and issue a new set of certificates and books. Work on these is be-

REV. HICK'S LECTURE ON TRAVELS IS RECOMMENDED

Experiences encountered during his trip around the world which has just recently come to its end will be related by Rev. E. H. Hicks in his illustrated lecture at the First Baptist church Friday night. Although Rev. Hicks has not yet arrived in Albany, he passed through last week and from remarks dropped to acquaintances in this city, it is prophesied that his lecture will be well worth attending. The illustrations to be used will be of the stereoscopic variety, and the photographs for these. Rev. Hicks took himself while on his trip. The lecture will start promptly at eight o'clock and an admission of twenty-five cents will be charged.

Miss Clara Weber, of Brownsville, is in the city visiting with friends.

HUNTS SON HE DROVE AWAY.

Father, Seventy, Searches Europe and America in Vain. Shelbyville, Jan.—Weary and broken in health, William Keyman, seventy, has returned to Shelbyville after a tour of Europe and the United States in search of his son, who, in a fit of anger, he sent away from his home here four years ago. Keyman, now repentant for the quarrel which caused his son to depart, visited nearly every city in the United States, following up one clue after another, as well as the large cities of Europe, only to return without tidings from the lost boy. "I will remain in Shelbyville but a short time," Keyman said. "After I have rested I shall go to Canada and again take up the search."

ALEXANDER M. DOCKERY.

ing rushed, however, and they will be ready for issue with the least possible delay.

"When these new certificates are ready an individual may deposit \$1,000 at one time, one-half of which will draw interest. Separate certificates will be issued for the interest bearing and non-interest bearing deposits, although both may be made at the same time. Meanwhile, immediately after the bill is signed and becomes law, the public will be notified through the press, and individuals may deposit as much as \$500 at one time or enough more than they may now have on deposit to bring their interest bearing account up to the \$500 limit.

"While the new bill fixes the limit of individual accounts at \$1,000, patrons of the system may purchase postal savings bonds with their savings every six months. For this purpose both the interest bearing and non-interest bearing deposits will be available. Postal savings bonds pay 2 1/2 per cent. By turning their deposits into postal savings bonds every six months individual depositors may lay aside \$2,000 a year if they care to do so and have the guarantee of the government behind it plus 2 1/2 per cent interest.

"While bankers opposed the enactment of the original postal savings law, they have come to realize that it is one of the best things that ever happened for them. As a rule, the money which is deposited in this system would not have reached the banks and would be kept out of circulation. Now it goes into the banks in the communities in which it is deposited, the banks paying 2 1/2 per cent for its use, while the government pays the depositors 2 per cent. One reason for having \$500 made non-interest bearing was the fact that it has been found that the one-half per cent paid by the banks for redemptions over and above 2 per cent paid to depositors does not quite pay the operating expenses of the system.

"This will be a splendid thing for business at a time when money is needed. It will help the banks in small towns as well as in cities, since the money is redeposited as close as possible to the point where it is placed in the postoffice. This distribution of postal savings funds among the banks is absolutely free from favoritism. It is done automatically, and postoffice pull does not count a particle."
