TOGS TO MATCH YOUR MOTOR CAR IS LATEST

By Margaret Mason. (Whitten for United Press)

If motor fashions you would know you, auto go to the auto show. For this year it is apropos. To match your togs to your tonneau.

New York, Jan. 29.—A heliotrope colored limousine with heliotrope curtains behind which rolls on heliotrope cushions, a lady in a heliotrope motor coat, a heliotrope motor bonnet and accompanied by a Perkinsee with a heliotrope silk sweater, is one of the smart sights of Fifth avenue and the park these bright imitation Spring afternoons. The unknown purple lady is the exponent of the new fashionable fad to match up your apparel and even your pets to the coloring of your newest motor car.

With violet shades at the latest coloring at Paris it is only natural that there should be a great run on purple seilings, purple coats and caps and sweaters.

A stunning new model motor coat of dreadnaught grey made of lightweight velous cloth hangs loose and rippling from the shoulders and is defined at the waistline in front with a quaint belt formed with two straps of the material which cross over each other and button with a cloth covered button on opposite sides. A high choker collar of white cloth buttons on the left side with a single cloth covered button well up under the ear. Wide cuffs of the white cloth finish the plain long sleeves and a close fitting little hat with a cuff of white turned up all around the face completes a perfect outfit with which to step into one of those lovely dark grey cars with grey cloth upholstery.

Another striking coat of buff ripple cloth is gathered on a narrow yoke, both front and back, has an odd collar which turns into a short scarf that buttons over with two short ends in front. A brown suede turban with a single yellow rose in front fits close around the head. Naturally the motor that waits for this butt beauty is even buff in tone.

Suede is being used to a great extent for the smartest new motor head gear and, as it comes in all the most approved colorings and is soft and adaptable, it is an ideal material for such use. It is also very effective as a trimming on the motor coat and wrap de luxe and is used to face the cuffs and collars with artistic effect. Although not so serviceable it is pret-

tier and softer than the regulation leather buttons and bandings that have been used for several seasons.

Naturally the wonderful silk sweaters that grow more beautiful and nearer perfection from season to season are bound to be the favorite motor attire of the warm spring weather. The sets of cap and sweater to match are rarely striking and have the advantage of being light weight yet warm and serviceable and vastly becoming, all at the very same time. There are two forms of caps, those simply knitted silk scarfs that you must yourself twist about your head and fasten with a hook concealed with a button or silk pompom ornament on the right side.

One of the smartest types of the silk sweater comes in plaid effect with a collar and vest-like strip down the front of a plain color. The plaid cap has a band of the plain silk around the face.

The very newest material for extra warm sweaters is a silk wool which is fuzzy and light as thistledown.

It is no longer considered good to have flower filled holders in your car, but all the other comforts of home, including a rack which holds a vanity case, card case, pads, pencils, and a cloak, another rack for hats and parcels electric cigar lighters with rests and ash trays, holders for books and magazines, a rack for your umbrella with a drain which goes through the bottom of the car and allows your wet umbrella to drip with impunity, and electric footwarmer and even electric attached gloves if you yourself take a fancy to sit at your own wheel on a winter's day, are a few of the improvements. Even with all these fittings you may fit in too if you don't mind shrugging up a bit.
