SAYS 1915 SESSION

(Continued from Page 1.)

lieve one man can be eliminated without impairing efficiency. The saving of one man in the fifty-two

precincts of our county would mean a saving of from \$300 to \$500 at every election, (primary or general election) and in the fifteen hundred precincts of the state a saving of from \$10,000 to \$15,000.

"The election supplies are sent out

through the sheriff's office and distributed by the various deputy sheriffs. I find that it costs about a third as much to distribute the election supplies over the county as it does to bring the returns back to the county seat. If the ballot boxes were returned through the sheriff's office in the same way they are sent out or better still by parcel post, it would cut the expense considerably and mean a saving of at least one-half, I believe no one would contend the ballot boxes are safer in the hands of deputy sheriffs or a member of the election board than in the hands of the postoffice department of the United States.

"In conclusion I will say that the Linn county delegation, elected on a platform of strict economy, can be depended upon to vote 'no' on all extravagant appropriation bills and to support such measures as will tend towards a reduction of taxes."

AT THE COURT HOUSE

Quit-Claim Deed.

C. A. Anderson to A. E. Runo, Dec. 17, 1914. Lands in Sec. 28, Tp. 13, S. R. 2 east, 65 acres, \$100.

HIGH COST OF LUNCH IS BEING REDUCED

Twenty Cents a Meal For Employees of Uncle Sam.

Washington.—Director Ralph in solving the high cost of living for the 4,700 employees of the bureau of engraving and printing has arranged that these people get the best things in the market at the lowest possible cost. Twenty cents a meal is the average cost to each eater. Mr. Ralph is of the belief that the same system he has installed at the bureau can be instituted in the big cities in the event of a crisis, and there are many experts who back his views.

Instead of the employees of the bureau bringing their lunches Mr. Ralph installed a lunch room, which is co-operatively owned by those who dine there. The 4,700 employees of the bureau were told of the new scheme before it was installed, so that it was through their co-operation that the present system was brought about. The men each put up \$1 to start their lunch room. The women were taxed 6 cents, all who could afford it. And they merely loaned the money. In two months' time, when the system

has been six months old, this money will be refunded.

With the \$2,500 subscribed in this manner Director Ralph set about installing on the top floor of the fine new bureau building a modern kitchen and dining room. He went to New York and purchased the dishes. Then he selected a good head cook, a first class steward, a man who knew how to buy in the open market. Director Ralph employed sixty other men to take care of the hungry.

Any person connected with the bureau can have a first rate meal for 20 cents, or, if the diner feels extravagant, 25 cents may be expended.

At present the prices are higher, it is said, than they will be. A cup of coffee now costs 5 cents. Eventually this will be brought down to 3 cents. But coffee, milk and tea are minor details. The main meal is the thing. Here is a sample menu:

Half fried chicken, mashed potatoes, sliced tomatoes and corn, bread and butter and pie, 20 cents.

Corned beef and cabbage, mashed potatoes, beets, bread and butter and dessert, 20 cents.

Gets a "Spectacled" Duck.

San Francisco.—Information received here from Alaska says that Lord William Percy, naturalist and sportsman, who left San Francisco several months ago for a hunting trip in the arctic, has bagged a "spectacled" elder duck, which had been supposed to be extinct. Lord Percy crawled on his stomach for half a mile to get the bird, a male.

WISCONSIN MEN STRIKE GOLD.

Find Mine in Colorado, and Ore Assays \$190 a Ton.

Stamboat Springs, Colo.—Gold ore assaying \$100 per ton has been struck in the Royal Flush mine, at Hahn's Peak, in a vein from three and one-half to four feet in thickness and of a continuous length. The assays also show good values in silver and lead. The strike was made in a drift leading from the 1,540 foot tunnel.

The strike is being rapidly opened, a depth of forty feet already being reached. Several lodes of almost virgin ore was found on the hanging wall, and this is being sacked for shipment. This mine is owned by a number of Wisconsin capitalists and is regarded as one of the richest in the Hahn's Peak territory.

The Crowds Are On the Light Streets

Help make your street a real night-time shopping center. Then make your store one of the brightest on a bright street by installing an Electric Sign or some of the new Type C. Mazda Lamps.

These may be inexpensive, or as elaborate as you wish—but the results will be certain. Trade will follow the light.

For information call either phone
