Miss Harkness Left—

Miss Oran Harkness left yesterday on a short trip in the interest of the lyceum bureau for which she has been working the past year. She will go to Roseburg and thence across into the Coos Bay country. From there she will go by boat to California, if one runs, if not return to Portland, and go from there to

Los Angeles, where she will start out later with the Oriole Trio.

Has Auto Delivery—

The Hamilton store has a new delivery wagon, a neat Ford, which will make the run of the city, insuring quick delivery for the big store.

Engagement Announcement—

Miss Alina Parker and Hazel Cowan were in Eugene last evening to attend a party announcing the engagement of Miss Beatrice Buoy of Eugene and Leland Cowan, of Sa-

lem, formerly of this city.

Albany a Trade Center—

Albany should be the center of trade along all lines for this part of the state, and our merchants should keep up a constant campaign to make it such. Portland has this country covered constantly with men getting community and all kinds of orders for groceries and other kinds of goods that can be better bought right in Albany, under the nose of the purchaser, and there should be a fight from the shoulder for it.

Getting Stock Subscriptions—

The commercial club committee is out getting stock subscriptions for the proposed Growers Union, something no farmer can afford to stay out of; not only that the people of Albany should also give it their hearty support. Elsewhere will be found an article showing what the Northwest Growers' association is doing, and how it is covering the field so much more effective than individuals can cover it. This is the association which the Linn county association will be allied with.

Albany Woman Chosen President—

At the meeting of the Women's missionary society of the U. P. church held yesterday, Mrs. L. E. Hamilton was chosen for the new president to officiate the coming year. Mrs. Spaulding of Portland was at the head of the society the past year.

Installing a Christophone—

The Home Telephone company is installing a Christophone in the Christian church, similar to the one that has been in use in the United Presbyterian church the past seven or eight years. The transmitter of the new apparatus has three funnels made of copper, and but one transmitter is used. The one in the U. P. church uses three separate transmitters. It is thought that the new arrangement will prove better, and the old apparatus replaced in the U. P. church. Now members of the Christian church may also enjoy the privilege of listening to the services from their homes when they are unable to attend church in person.

Hand Badly Scraped—

While working in the Cameron mill F. H. Arnold had one of his hands catch in a sander, and several fingers were so severely scraped that he was obliged to quit work for a few days.

Timber Land Man Here—

E. T. Price, of Portland, arrived this noon for a few days' visit in Albany and to take a rest. Mr. Price is a former Albany real estate dealer. He is now making a specialty of timber lands, with very little doing.

A Millionaire Hobo—

A hobo, with visions in his head, was in the city today. He went into the Blain Clothing Co's. store and asked for a suit, saying he would send the money back for it from San Francisco, that he had an income of \$10,000,000 a year, which would insure

the payment. He continued southward, as ragged as when he arrived.

Was Twenty-Second—

That Leland Gilbert, of this city, was the twenty-second in the list of those competing for the \$10,000 for solving the Million Dollar Mystery, given at the Hub in this city, has been learned. As there were thousands and thousands who competed, this was certainly a good record. A Missouri woman was first.

A Modern Eve—

It will be at the opera house April 14, a musical success, full of catchy songs and pretty young women, with a story that is interesting all the time.

Arbor Day—

Tomorrow will be Arbor Day in the public schools of the state. Many of the schools of the county will observe the day in some form, under the state law, being obliged to do so. Some of the local schools will remember the day. Schools are expected to clean up, plant trees, shrubbery, etc. Superintendent Jackson reports having sent out notifications to the schools of the county, with suggestions.

Annual Military Ball—

The big annual military ball will be held at the armory Friday night. The committee have arranged with Mr. and Mrs. von Roosenfeld for a demonstration of the latest modern dances, such as the tango, polka-tango, maxixe, fox trot, hesitation, etc. These artists are lately from New York and Paris and will illustrate these dances as danced in those cities. Mrs. von Roosenfeld is a native of Antwerp, Belgium, having left there after the German invasion to join Mr. von Roosenfeld in this country. They are both artists in their line.

Left for Montana—

Frank Corbin left yesterday for Poplar, Montana, where he will take up a homestead.

Railroad Man Here—

J. H. O'Neil, T. P. A. of the O. W. R. & N., and M. J. Geary, general agents of the Rock Island, were in the city yesterday.

Mrs. Powell to Sing—

Mrs. Frank Powell left for Independence this morning where she will take part in a benefit for the Independence high school this evening. The students, with the help of some special talent, are presenting a cantata to raise money to purchase a piano. Mrs. Powell will be heard in solo work.

For the Auto Book—

C. H. Stewart is in receipt of about a dozen splendid views of Cascadia scenery from G. M. Geisendorfer, proprietor of the Cascadia Hotel. These pictures will be used in the automobile guide book that the Portland Auto club, assisted by the various commercial clubs in Western Oregon, is getting up. Two other side trips off the Pacific Highway, leading out of Albany will be featured. They are to Corvallis and the state game farm, and to Newport. Albany furnished the best route to the Pacific ocean that the tourist strikes after entering Oregon until he gets to Portland, and then it is a longer journey and over no better or more scenic roads.

Will Merriam Promoted—

Will Merriam, local freight agent at Portland for the Southern Pacific, has been ordered transferred to Oakland, California, to take charge of the local freight work of the road at that place, the change being a promotion. About 20 years ago Merriam was in the Southern Pacific office at this city, stationed here for several years. He is a brother of Mrs. C. K. Frank, whose husband was local agent here for a long time.

The Sixteenth Century Carver—

At the formal banquet of the sixteenth century the man who carved the meat was bound with the red tape of precedent. When carving for distinguished guests he had to remember that certain parts of the birds or meat must be set aside. In carving for his lord and lady he was expected to exercise great discretion in the size of the pieces he sent round. "For ladies will be soon angry and their thoughts soon changed, and some lords are soon pleased and some not, as they be of complexion." He was expected to have the rules both of the kitchen and the peacock at his knife's end. A pluck, for instance, must be sliced up whole for a lord and in slices for commoner folk. The rank of his diners, too, determined whether a pig was to be served up whole, sliced, plain or with gold leaf or whether new bread or bread three days old should be eaten.

Care of the Ear—

Never be alarmed if a living insect enters the ears. Pouring warm water into the canal will drown it, when it will generally come to the surface and can easily be removed by the fingers. A few puffs of tobacco smoke blown into the ear will stupefy the insect. Never meddle with the ear if a foreign body, such as a bead, button or seed enters it. Leave it absolutely alone, but have a physician attend to it. More damage has been done by injudicious attempts at the extraction of a foreign body than could ever come from its presence in the ear.—Health.

Attacked in Front and Rear—

A youngster of our acquaintance who has a faculty for getting into scrapes recently expressed the wish that he was a postage stamp. When asked why, he answered, "Because a postage stamp can only be licked once," whereupon we pointed out that the stamp received, besides the licking, a severe punch in the face.—Boston Transcript.

Distinction—

"What distinction do you make between 'entertainment' and 'art'?" "Entertainment," replied the theater manager, "is what people want. 'Art' is what people think they want."—Washington Star.

Pretty Thin—

"Thin" replied the man who was talking about a mutual acquaintance. "Well, he's so thin that when he eats macaroni he can only swallow it one piece at a time!"—Pittsburgh Press.

Declined With Thanks—

Beggar—Won't you give me a nickel for my starving wife, sir? Pedestrian—Nothing doing. I'm worried already.—Philadelphia Ledger.

To persevere in one's duty and to be slight is the first answer to calumny.—Washington.

Subscribers—

If the boys fail to deliver the paper each evening kindly phone to the office. The management invites complaints from its patrons and will do its best to correct faulty service.

Frost Again Predicted—

The weather bureau predicts light frost tonight. The temperature yesterday was 62 to 36 degrees, the rainfall .04 feet and the river stands at 42 feet above low water.

Shoot Tomorrow—

The Albany Gun Club will shoot tomorrow evening at 5 o'clock.

Today's Oddest Story.

Cleveland, April 8.—Whether or not Mrs. Sarah Hotchkiss, 35, should not wear corsets was one point on which she and Cyrus, her husband, could never agree. This was the testimony of Mrs. Hotchkiss when she pleaded for a divorce.
"He said corsets injured my health, I said they didn't, and I took him to a doctor and proved it. Once he threw me down and cut off my corset with a knife. He would get up in the morning and bury my corsets."—Cleveland Leader.

John Fisher went to Mill City on the morning train.
